***F**rom the beginning of time, people are separated into two categories. The first one is the exploiters and the second is the one of those who are taken advantage of. The sly and the innocent, the predators and the victims. The exploiters keep on coming up with more and more traps so they can confuse and manipulate the trapped people.*

As an active observer of this situation for many years – for the priority of my daily journey through life has always been the study and the knowledge of Myself – I find myself today into a really advantageous position: I don't belong neither to the exploiters nor to those who are been take advantage of. Although the fact that economically I definitely belong to those who have severally been take advantage of, the feeling of peace and liberty that I maintain inside of me is far beyond all my other external financial issues. Do not treat me as indifferent. In contrary, I am a devoted pupil of my Master and of Knowledge and, as a true servant of people, I try to inspire both the trappers and the trapped so they can liberate themselves.

All they have to do is realize those three primary issues:

- *First we have to reject all the labels that they have put on us so that we won't feel divided anymore.*
- *Our unity as people is necessary so that we will be in a position to govern our own selves.*
- *We have to print our own money, that's the only way to be economically self – sufficient.*

Do not expect to see a new, hopeful day as long as we are depended on the Obscurantists. Each day that will come will be even more dark and difficult than the previous one. Because they are the ones who are organized and united. Because they print their own money and they are self-sufficient. However, there is one difference: their actions turn against the people.

Now that I am 65 years old I have enough experiences not only from the outside world but from my inside world as well so that I can speak with consciousness and clarity for the organized ways that the global «leaders» of darkness, chaos and decomposition have destroyed what should be our noble home, planet Earth. Unfortunately, because of the lack of true knowledge of Themselves, because of remorselessness, irreverence, arrogance, hate and last, those global leaders have turn planet Earth into a huge dump causing world desperation and unimaginable disasters. That inhumane “civilization” that they have created, they want us now to accept as human. As far as humanity is concerned, they turned this “crown of creativity” into a whole of dehumanized creatures that they work for one another, steal one another, and harm one another physically, spiritually and mentally. And they dare to present that perverse and corrupted work as the work of “civilized” people. Dark calls itself Light. That is the absolute mutation of humanity!

On the same time, I have to emphasize on the responsibility which each one of us bares from a certain age onwards. All of us can try and not take part on this inhumane play which has as a natural result our remorselessness and selfishness. We have to realize that as long as we choose to be indifferent to our inner divisions as well as to our external divisions, because of the ignorance of our true selves; we shouldn't expect to be relieved from the intricate ticks of our trappers. Their job is this and only

this: to trap into their nets every one of us with unique goal our absolute exploitation.

But the exploiters, because of their indifference towards the real Knowledge of Themselves, have been trapped into their own nets in the same way the spider is trapped into her own. The remorselessness and the behavior towards other people as well as towards of planet have led them to an imaginable division inside them. They suffer and they satisfy their suffering by cause torments to others. Every thought and action of a person instantly creates into their internal world exactly the same situation that they have caused externally. None of us can bilk this global law, in the same way that none of us can escape death. These are unchanged internal laws.

From my point of view, I seek the visionaries of the general Good for a peaceful, free and decent world. Those who are prepared and savvy should put in action the machines of will and determination in order to inspire other people into the implementation of our noble vision. The deep darkness that we experience nowadays is nothing but the harbinger of a glorious era that is ahead of us. Let's transmit this to our children! Today, we can grab every single chance that is given to us and live each day with the Knowledge of Ourselves. I am speaking of Knowledge because I feel that it's the only way one can feel true happiness, freedom and decency. Knowledge is what has given me the power to abstain from this inhumane play so cleverly directed by the "visionaries of general evil". It is what has inspired me into dreaming a better, more beautiful world.

Real Knowledge of my only true Master is an individual and internal process, consisting from four simple techniques. It gives us the answers into the two basic questions: who am I and what I am doing here. We understand our true nature and so we understand our creator who lives inside us long with the purpose

of our existence. When we recognize our creator inside us we start our true journey through life because we are led by Him and He becomes our most trusted companion. It's then that we realize that the ulterior goal of His creation is the fulfillment, our union with the creator. And that when we have been united with Him our vain wondering into the circus of illusion no longer exists. The real, inexhaustible source of divine love, peace, freedom, happiness, clarity and internal evolution reveals itself to us and we feel content.

The ultimate knowledge of ourselves has nothing to do with religion, philosophy or the way we view the world. All of them belong in the field of the mind whereas Knowledge belongs to the kingdom of heart.

You might find my reference to the Knowledge as something "spiritual" or "metaphysic", even irrelevant to the context of this book. But since Knowledge is deeply related to our everyday life, therefore to the solution of our financial issues as well, I'll keep on referring to it reminding you of its importance. Because only if we incorporate Knowledge in our lives will we cease to be subservient of each charlatan.

My dear friends try to study this message deep inside your heart because I am speaking to you from my heart, as well. I know for sure that those who will really understand this message will be able to lead their destiny towards an unbelievable daily magic. It is a mirror for us to see clearly where each one of us is standing and to prepare ourselves for the bright era that is ahead of us. The global system has alienated us with so many useless things. If you keep on thinking like that you will find this nothing more than just another book. In contrary, if you let it touch your heart, you will be able to distinguish the value of its message. I would feel a huge burden inside my consciousness if I kept the dirty secret of global financial mafia to

myself, if I did nothing to stop it by healthy means so that its filth won't surpass to our most beloved offsprings. This is the reason that I am grateful to my beloved Master and to Knowledge for waking me up and making me try for a more and moiré healthy and true change.

When I say "mafia", I mean a closed circuit, which is trying to achieve its goals by unlawful means on the top of the global dark pyramid . But this pyramid extends to the base with the countless "enslaved" people coming from all levels of society, who are equally responsible for the wars and the global artificial poverty, misery and crime.

I know that many of you will think that all these are just long term utopia. But for me, my dear friends, these are things that can happen RIGHT NOW, as long as we manage to communicate!

There are billions of ideas inside our minds and the millions of different languages cause division, poverty and war. On the other hand the divine gifts of love, goodness, understanding and respect can bring us internal peace, prosperity and brotherhood. This is the magic miracle that all of us carry in our hearts.

I feel the need to make a discrimination, so that I won't be misunderstood by other pupils of Knowledge. I learn from my Master for the past 37 years and I am now incorporated with Knowledge. Knowledge is incorporated with my Master and this automatically creates a triangle, my Master, Knowledge and myself, his devoted pupil.

The start that we made with one of my classmate, in March 2010, via the channel Tilefos (which does not exist anymore since it has been sold to another channel called Kontra), had to do with the awakening of other visionaries of general good and it was my own personal initiative. I haven't been dictated by my Master to do so. I would do nothing that I haven't decided for myself because I now know that our action have to be ours.

So please, if you are now reading my call do not come to us if you not one hundred percent sure or if you haven't consciously decided it. If you do so you will have second thoughts which will lead to conflict with other people.

But I want to make it clear: please do not identify my Master with my decision to call the visionaries of general Good with this message. It is just my personal internal consciousness that has been emanated by his Knowledge. Observing his global work, I was inspired and decided to commit the rest of my life into doing whatever I could for the union of people. So that we can, one day, succeed a bigger global union.

Part A

The sources of ugliness

I plead the internal wisdom of God that lives inside me, for I am pupil of Knowledge for so many years, to permit me to express as clearly I as I can the truth. Because it is from the misrepresentation of the truth that we suffer. The truth is been presented to us under many camouflages which I intend to reveal below.

Camouflage 1

The “money printers” are the “supporters” of people

First of all, the “money printers” know that we are all depended from nature, from earth, sun, wind and water. Their goal is to slowly bereave us with “illegal proceedings” of the land and all the rest natural resources and to stack us up in the big cities, piled next to one another. If we have no land, we cannot build a house for ourselves, we cannot dabble, and we cannot feed ourselves.

The second, even more dangerous and cruel trick, is the imposition of money. They have put prices on the land and on all its commodities. Without having land of our own so that we can feed ourselves and without money to buy the supplies that we need, we have no other choice than to get a job so that we can afford a place to live as well as food. The salary is only enough to pay our rent, the necessary food and maybe

some cheap clothing. In this way we will never be able to stop working from them, until the day we die. Especially in food's case we shouldn't forget how we are used to eat unhealthy snacks or junk food, which are nothing more than garbage coming out big multinational companies.

Even when some of us manage to save enough to buy our own land so that we can build a place to live those crooks, using the camouflage of the "law", name us arbitraries or illegal and impose huge fines on us so that we have to work even more and even harder, like slaves. In order to build a house you have to buy 8 acres of land. How to do it, how to avoid living on rent, how to feed yourself the way you choose? On the other hand, if you want to buy a tiny apartment in the city the state is more than willing to borrow you the money, so that you will have to pay the loan until you die. And if you get sick or you lose your job and you are unable to pay the loan, they sequestrate the apartment so that you remain homeless and sleep on the streets.

The deception that the humanity should be maintained by those who have the money and not by Mother Nature continues to delude us. Our children and our grandchildren are being born in the big cities and they see nothing but the disgusting play of the actors and directors of governors and keep on following the steps of their parents.

They even had to impose on us their mutant food so that we start getting sick. For example, they finance the construction of more and more greenhouses so that they can poison people. Land is conquered by those who belong to the clique of "money printers".

The poisoning through the food that we consume is a very dangerous method that the "money printers" are using. The prolonged health problems won't allow us enough time to think of something really simple: why to be a slave? They

know more than well that when we have a health problem we will do nothing more than focus on that and that we will, inevitably, drift others, like friends, family, and relatives. This trick starts working on a very early stage, since we are little kids so that our parents keep on worrying.

Then, there are the games of entertainment which they have created using a huge circus of actors and singers.

Afterwards, they created other misleading criminal weapons like television, cigarettes, alcohol, gambling, drugs and sports, which people today believe that they cannot live without. But to enjoy all these things you need money. So you have to work. So you become their slave. If you do not accept your slavery in order to fulfill the fake needs that they have created for you, you will have to betake to illegal jobs are even stealing. But stealing will lead to crime. And crime will lead you either to an early death, or to jail or to madhouses.

That is their foxy plan for the perpetuation of unhappiness and tragic poverty: the diseases, the slavery, the thievery, the prisons, the madhouses and the wars. These are many ways that they have created in order to cause our misleading so that we won't be able to realize the necessity and the value of the Knowledge of Ourselves and of the free land, which should only be divided between us according to our needs.

The foxy pressure for earning money in order to secure our basic needs for food, accommodation and clothing as well as the satisfaction of our other fake needs, classify those who have created it among the most cruel, savage and dangerous criminals in the history of the world. It is those who lead the humanity with their primitive dark system. If we attempt to write down the innumerable crimes that have taken place individually or in groups – wars, prostitution, drugs, alcohol, gambling and slave trade I have no idea how many volumes will be needed in order to fit all of our recordings!

It would be stupid and useless of me to fill those volumes with all the piteous failures and huge mistakes that have taken place from the dawn of time, as long as each one of us, fortunately, has the unique chance to turn towards a true, salutary and magical route. The chance to make an acquaintance with our divine self which is nothing more than self knowledge. The noble, timeless message of our beloved Socrates and all the rest enlightened Masters of love and light. Nowadays, unfortunately, the petty properties of mind, the foxiness, the hypocrisy, the greediness, the indignity and the hate have conquered us all.

But all those institutions are theirs and theirs only, so that we keep on being divided within ourselves with result a more general division with our fellow men. The education, the religion, the medicine, the politics, the media, the police, the army, the entertainment, the sports, the nutrition, the pre-planned jobs that they are offering us, are all against us because they help into keeping us enslaved until we die. But all those infectious weapons can be deconstructed and disappeared from our lives only with the Knowledge of Ourselves, with the inner love that waits no return, with the respect, the peace, the freedom, the consciousness and the dignity.

The self punishment of humanity is inevitable because of the global deathly disease that is called unscrupulousness, which can only be stopped with the power of our consciousness. We know that we are completely depended firstly on our breath and secondly on the Mother Nature, and that those two can make us totally independent. However, we choose to remain dependent on the “money printers” so that we maintain the fake needs that they have created for us, cigarettes, alcohol, drugs, gambling, prostitution, which result in diseases, frauds, crimes, prisons, madhouses, wars and an absolute slavery until the end of our lives. One would think

that we deserve what we get. What is even more tragic is that we drift into that horrible story our children and they drift their own children and so on ...

Does it really matter if they are called IMF, Masons, Zionists, Jews, Americans, Russians, Chinese, Arabs, Indians, Greeks, French, Albanians, British, mafia or decision centers, white or black uniforms, white or black houses? They are throwing us like ping pong balls and they disorientate us. The only term that I can use to describe them all is this: "mafia of the general evil", which moves only by the means of mind and has terminate every relationship with its consciousness.

Please, understand, the men of global mafia are not separated into British, French and Portuguese, nor into Christians, Muslims or Jews. Those labels have been invented by inner party and national mechanisms so that they always have the people divided into civil, national and religion wars. For them people are the same as ants, fleas and mosquitoes, they can be exterminated anytime. They are organized beyond imagination, they exist in every country and they are working together with only goal the money and the harm of humanity. Now, that I am printing these pages, somewhere else on this planet political and military committees decide on how they will kill innocent lives, because of their lack of consciousness for the supreme gift of life.

Everything has its source. And in that case, source is global mafia. It has under its umbrella all the industries: global industry of nutrition, medicine, legal, education, music, sports, media, gambling, prostitution, global industry of money, trade and weapons, which altogether forms and function this world. But those people have money like God and with the remorselessness they suffer and make other people suffer as well. Until today they have invented the most perfect weapons,

they have founded huge organizations and have compassed the whole planet enslaving the rest of humanity.

What you have to do is change course; all these industries have to pass into the hands of people with consciousness, who will be mentally healthy so that they can cure all humanity. Those who are being presented to us as governors of people, governments and state mechanisms are nothing more than puppets into the hands of their inconspicuous manufacturers. Most of them don't even know that they are puppets. Like most of us do not realize that every single one of us are puppets of our breath. But the difference lays on the fact that breath is what brings us life. While inconspicuous mafia, which moves the threads of governments, takes lives.

The global mafia as conquer and modulator of people has created all the necessary sciences of misleading so that it always keeps control.

It is not random that governments nowadays are consisted by teachers, economists, lawyers, doctors, businessmen, journalists, actors. All those fields are the children of the tree which is called mafia and can have many different names. Most of those people turn into politics in order to have a secure job and a big salary. They have immunity and if they decide to withdraw they are rewarded with the highest degree of Performing Arts that exists on this planet. Those who play their part well enough into people's minds the system promotes into great politics. That's how the system secures its eternal existence.

Where do the Service Prime Ministers, the so called "emergency savors" belong to? Of course, they belong to the State. Who creates the inquiry committees? The State, of course. And into all those committees they place their own children. And if sometimes they sacrifice one of them by putting them in jail or by killing them, it is nothing more than a well

planned attempt to fool people and secure the eternal existence of their dark circuit.

The global spider forgets, due to its paranoia, that she is trapped as well inside her own net, the net that she weaves with innumerable tricks, in order to trap human beings in slavery and darkness.

The foxy “money printers” who plan on the fixation of people in poverty have managed to debt the slaved countries – through their dishonest state employees – with huge and figurative amounts of money. With this trick, the governance of honest politicians is no longer possible and the only way to pay back these astronomic loans, because of the unemployment and the lack of primal resources – is to follow their own rules. Therefore, they always have their own people in the government and their initial goal, which is to have absolute control on people and on the land – is fulfilled. Only when you take the governance of our country into our own hands and start to print our own money will we get rid of them.

That is the camouflage of the conspicuous gurus of economics who are controlling our lives. Their foxy minds know that if you come in acquaintance with our divine nature, we will then realize that we are lions and not lambs and they wouldn't be able to impose control on us anymore. They know that the lions will run and tell other lambs of their true nature, which is not that of a slaved lamb but that of a glorious lion.

Condition for our liberty is the education through the Knowledge of Ourselves so that we come in terms firstly with the paradise that we carry inside us and secondly with the paradise that we can find on earth. Knowledge is what offers to the student who will come close to her with honesty, the inner peace, the freedom, the happiness, the clarity, the dignity, the consciousness, the selflessness, the volunteering and

the devotion on the service of mankind. What we are missing is servants, not governors. Governors are arrogant and there are plenty of them, they are the ones who drove humanity into madness and darkness. But, unfortunately, people are responsible as well and that's the reason they suffer. Because of their lack of clarity and dignity they choose those who are the same with them.

But if we start working on the land there would be no more unemployment and little by little there would be no more frauds, no more crimes, and no more revolutions. Humans will be refined, they will harmonize themselves once again with Mother Nature which equals external heaven and wouldn't need to rebel anymore or to beg for a job from the politicians of any government. They will only have to focus on the Knowledge of Themselves and they will find liberty, valuing our long forgotten Creator who lives inside us and who is the real heaven.

Camouflage 2

Schools "educate" people

The system has another catty and ruthless weapon: the pre-planned, mandatory education. Public education is presented to us as necessary for our "development": "if you don't get education you won't be able to find a job anywhere." Which means to become slave of the system since you are little so that they can fix you the way they like and put you into a well planned job, in order for you to lose every sense of understanding and reaction. In private education "money printers" put the children of their people into key position so that they keep control.

The fairytale of "education" is a scary plan for the perpetuation of bosses and slaves, educated and non-educated, po-

licemen and thieves, poverty and unhappiness and of course of the indescribable gap between the rich and the poor. The takes place slowly and imperceptibly on young children so that no one pays attention.

In universities instead of doing research of how to diminish the perversion and criminal action, they are doing research on business projects and they are rewarding with money those with the best ideas. Then, they are giving them scholarships, in order to collect them inside the nets of their own state mechanism. Like money is the ultimate goal of a human being. How to earn it, how to earn even more by sacrificing our lives and the lives of others in innumerable ways. How can mankind move forward when money has been placed by the “money printers” as the first and most important priority? To think that the state that is responsible to educate you is the one to blame for this disgusting journey of humanity. This journey has been planned with lies, competition, deceive, division, crimes, wars and of course with a cocktail of prostitution, gambling, alcohol, drugs and the increase of diseases, hospitals, madhouses and prisons.

For centuries we watch the miserable, growing and smelly story of exploitation, deceive, hypocrisy and crime. So where are the benefits of the notorious education?

The only thing that global, rotten system can offer to its graduates is fake knowledge. Have ever wondered why today, when education and technology are at their best we keep on facing perversion, corruption, foxiness and crime? This is because in every key position there is one of their own so that they keep control of their dark games. No matter how much knowledge they offer, it never will be more than just dead letters and supplies for hypocrisy, competition and conceit which lead to madness, individuality and other unwritten laws, like “live and let die.”

This is the mask of education for the mutation of human beings. Teachers, instead of showing to little kids millions of bad examples which they should never follow in their lives, they teach them useless letters and figures so that it will be easier to trap them later into the well planned traps of demagogues and criminals. Instead of inspiring them to cooperate and respect each other with love and volunteering, they teach them how to compete and divide. It is the graduates of “higher education” of the camouflaged state who are behind this; they are the ones responsible for this destruction. Composition of little gangs, cigarettes and alcohol as well as political leaflets are an everyday phenomenon at schools nowadays. That’s how they succeed on keeping students asleep and divided from a very early stage. And the irresponsible professors keep on talking about what happened in the past: what Turks, Albanians and Germans did. Misguiding and misleading the children from their valuable and vivid present instead of showing them how to live their everyday lives with dignity and easiness, away from drugs and division. So that they can build a bright future for their own offsprings. Those children have been poisoned and educated in universities to become lectures of lies and deceit. And as soon as they have been turned into poisonous snakes the system propels them as governors so that they poison people with their division, hypocrisy, arrogance and deceit.

If we propelled the noble self knowledge to little children and all through the stages of their education, then we would have people with dignity, clarity and consciousness, people who would have studied the Knowledge of Themselves. They won’t fall for the innumerable traps of the circus anymore, something which would result in the closing down of prisons, madhouses, gun factories and many other smelly nests of their dark and primitive works. As long as we remain in-

different towards the Knowledge of Ourselves and the self knowledge for the education, the cancer and the darkness with keep on increasing and it will be no one but ourselves to put the blame on. Each one of us should take the responsibility for their unconsciousness and indifference.

It's vital to realize the one and undoubted rule of life: that the lack of Knowledge of Ourselves is the number one cause for each human's madness and poverty. In the same way that none of us is excluded from the gift of breath and Mother Nature, none of us is excluded from this rule also: without the Knowledge of Ourselves we will only find a non – stoppable inner space, an inevitable inner failure. Which we will try to cover with stupid tricks, money and self- deceit, but only in vain.

Fortunately, there will always be the opposites. If our failure comes from the lack of Knowledge of Ourselves then our savior will come from the Knowledge of Ourselves. The Knowledge has the unique ability, like an inner soap to clean all the dirty mind tricks and to transform a human being into a glorious little kid, uncontaminated and pure = human/god. Like water, that valuable gift, has the ability to clean our bodies so that we feel refreshed. Each one of us is a live testimony of our Creator.

Therefore if we desire to experience another healthy and bright era of the human race, let's make a new start, each one of us for themselves, in order to succeed our personal glorious history first and later the global one. Light has the unbelievable power to diminish darkness and spread everywhere.

Camouflage 3

The “administrators” of religion are God’s messiahs

It does not matter in which country you will get born into. They will put the label of the respectable religion anyway and they will teach you which God you should believe in. From the first grades of primary school we learn that God is living in the sky and that up there He has two different fields, heaven for the good people and hell for the bad ones. When you grow up the priests and the theologians, using the label of God’s representatives, are putting in your mind their ideas of a God that punishes, a God that sits in heaven and keeps track of our actions.

Let me express a personal experience I had through a dialogue with my grandchildren. Once, they overheard me saying to their parents and some of our friends that we can feel God inside us through the Knowledge of my Master and they came to me asking, “Grandpa, in school we’ve been told that God is in the sky. How can you feel Him inside you?” You see what a filthy gap of deceit they create on little children about God in heaven? And if they hear someone who is not a professor or a priest claiming that God is inside us, they reject him as naïve and fool.

Each religion has its own rules, in order to increase its clients over the rival religion, by trying in every possible way to boost the fanaticism of the believers. Tragic result is nothing but the religious wars that keep on going until today, helping into the further growing of gun industries. This is a good way to decrease the unemployment in the church field by employing more and more priests to bless their guns and their victims.

Only Knowledge of Ourselves can save the mankind by disappearing the labels of religion and borders. Because only

by it will we recognize the divine substance and power of our Creator inside us. And only with the realization that we are all brothers of the same Creator will we manage to diminish gun industries.

All the teaching of the enlighten Masters of many different eras have emphasized that God lives inside us so does its Kingdom. But the charlatans today reject all of the above in order to perpetuate darkness by mutation and deceit of the people.

They have replaced the holy self knowledge that leads to the knowledge of God and makes a human being enlightened and decent. They have given us a religious faith without Knowledge and that is like a burn candle which cannot help you through the darkness of the world. Only Knowledge of Ourselves can light the candle for our journey. Our religions want people to act as sheep, faithful to the illusion of an afterlife in heaven. They are inseparable companions of the politicians and carry the same lies of future better life which actually never comes.

Those who appropriate God promise you that by good action and with their blessings you will reach to a better life in heaven after your death. This is a nice fairytale for little children who they have managed to transmit to adults as well via their art of persuasion.

AND TO ALL THOSE WHO WAIT FOR THE ANTICRIST I CAN ANSWER WITH CERTAINTY THAT ALL OF HIS PUPILS ARE NOW IN KEY POSITIONS EVERYWHERE AND THAT THEY HAVE LONG SURPASSED HIM IN SHAMELESNESS. THE ANTICRIST HAS NOTHING WORSE TO IMPOSE ON US. DO NOT WASTE YOUR TIME WAITING ON HIM.

All the institutions of this world put obstacles on people so that they cannot try for self knowledge. Their foxy minds feel that otherwise they would lose their divided lambs.

This is the camouflage of religion, they promise you heaven so that you consent to its dark powers. The description of hell is nothing in comparison to humans' ignorance and lack of consciousness. And the description of heaven is nothing in comparison to the inner heaven as well as the magical external beauty of this planet. People who take honesty and self knowledge seriously will discover their true divine nature. That we are lions and not lambs for each stupid shepherd. We won't compromise anymore with this misleading and repugnant circus which mutates our divine, pure nature.

Camouflage 4

Medicine "cares" about our well being

First, the inhumane system gets people sick with poisonous food and afterwards it produces hundreds of doctors, using them as consequential advertisers of medicine. We build hospitals and offer work to nurses and to many other circuits that are related to the "life – saving" medicine industries. Those industries do nothing but transform most of nature's medicine into chemical preparations, which bring temporary relief but not permanent cure with unique goal the achievement of profit.

Instead of doctors being trained in gymnastics and discipline of the body, instead of being fed healthily so that they can transmit their knowledge to people and protect them from technical diseases, they let humanity in darkness, they allow us getting sick by innumerable poisons of "organized crime" having as unique worry how they will outgrow their colleagues in wealth and houses. They have degenerate human body into a broken car which the engineers and the mechanics await so that they can make a living out of its inevitable damages.

They are robbing patients with necessary surgeries and they have underestimated themselves and their fellow men in such a degree that if we were able to realize it in its full extent doctors and patients wouldn't dare to see each other again. But because of constant diseases they keep on meeting until they die because they bring the car = body to the mechanic = doctor. With fake smiles, a "good morning" and a "good night" the mechanic – doctor robs the patient. Our beloved Hippocrates' said that "your food should be your medicine" but most of medicine's graduates today have turned this into "your medicine is your food". That's why they feed pesticides to the whole humanity.

The unconscious beings of medicine have found their true mates into other unconscious beings that work as principals in national medical insurance. Those of us who are contracted have to pay to the doctor a 10% or a 15% percent of the price and the rest is being paid through the national medical insurance. But if the national insurance keeps on paying such big amounts of money to the doctors soon there would be no money for medicine, there will be no money even for our pensions. In the end we will have to pay the doctors ourselves and we will not be able to afford our rent and our food anymore. We won't be able to even afford a phone call. Playing the role of the good Samaritans they have theft us of our money for so many years. The gangs who recognize money as their only God have grabbed all the high positions. They compete each other on which will manage to take the most from poor people. But their greediness and their remorselessness do not allow them to remember that all these will now day turn back at them like a boomerang.

It's a vicious circle constructed by the dark, global system. We are fooling each other while depending on each other. The absolute demolition of human values! The "education"

has become dictatorial and unmerciful, causing diseases and early deaths and becoming the cause of worthless and dead money.

This is the camouflage of the “life savers” of medicine. Instead of instructing people not to eat mutant food, not to smoke, not to drink, not to take drugs, they hide the option of precaution so that they can steal them by selling them fake medicines.

If they come in acquaintance with Knowledge doctors can be transformed and become doctors of precaution and not doctors of cure. Then, they will be truly valued by their fellow men.

Camouflage 5

Politicians are our “protectors”

For many - many years bludgeoners have been organized themselves in gangs which have been competing each other for power and manipulation of people. That competition has brought civil wars, because the gangs were fighting for the control over citizens. Then, they were united and they stopped fighting each other but they retained their labels, right wing and left wing, putting people into the process of division, arguing and wondering on the endless problems that the gangs had created so that they could act undisturbed in the exact same way that it happens today.

Then they built a big state mechanism, they wore ties and bought luxurious cars with drivers and moved into expensive houses in prestigious areas. They created an army, in order to repress easily every reaction and to secure people’s total obedience. Police, courts, security for people’s “safety” but their only motive always remains to secure their own immunity. Judges and prosecutors are their instruments into the

formal deception and maltreatment of citizens. Without having anyone to check on them they keep on committing their criminal action. And the opposition pretends to protest until they take power and set off to do the same and worse.

Everything is open and available for the total alienation of people. Gambling, prostitution, alcohol, cigarettes, drugs, frauds, crimes, wars and so many other inhumane works that trap human beings inside jails, hospitals and madhouses. And the horrible play of this ugly circus has become acceptable and granted by our mutant and cloned brains.

The most tragic crimes that the global system has committed are: 1) the concealment of the Knowledge of Ourselves = our God, 2) the print of money which is the source of innumerable evils and 3) the robbery of our land so that they can manage the slavery and dependence of humanity. Which they have eliminated from the crown of creation that it used to be to the lower level in the chain of life.

I feel that there is not a more ignominious action than those three fundamental crimes. The politicians in all countries are employs of the global lobby of “money printers”, in the same way the managers are businessmen employs. Their commands and their plans are to delude people and to divide them with political parties, civil wars, religious and national wars so that they continue to build their dark empire.

The basic, foxy trick of the “empire of darkness” is the pollution of people with ignorance, which they succeed by the right use of the Media, filling poor citizens with fear and terror. With money they tempt you and with guns they force you to become another pawn on their chess board. Governments and the opposition, those who “represent” the people configures an artificial poverty and unhappiness pushing us to the fake hope of gambling, they are making us to take each other’s money in order to pay our rent or our debts. They are

pushing us towards alcohol, prostitution, drugs, divisions, frauds, diseases and crimes. What do these people reflect if not a behavior of total obscurantism and hate for their fellow men?

They, skillfully, seclude people from the blessed nature, they bereave them the divine nectar of fruit juices that bring health and clarity and are feeding them with poisons and drugs to succeed diseases and early deaths.

All the above – like a contemporary Lernean Hydra – has the biggest impact on the new generation with unique goal the weakness of clarity and dignity of young people. However, they insist on advertizing that shameless “non civilization” as the civilization of a healthy evolution and on pretending how proud of it they are from the inside of their “civilized” ministry offices.

In Greece there is card game called Papas (King). A company of charlatans are pretending to play the game in order to steal the money of people passing by. The card holder is presenting three cards to the people among which there is a King. He shuffles the cards really quickly and throws them on the table. Now the people are betting money on which position the King has feel. Along with them the charlatans are betting as well but of course they now beforehand where the King is. The charlatans win but the people keep on betting believing that there is hope for them as well. When they have won enough money the charlatans leave the game so even if afterwards someone realizes that the whole game was set is unable to prove since they have disappeared.

Stock market is exactly the same with the set game of King and his charlatans. Only that in this case there is an invisible clique who has legalized its own rules, so that it appears totally legal. Not with cards but with non existent stocks. It is mostly the Media and its crooks (journalists) that urge us

to put our money on the market with the excuse that it is going up. And as soon as they have collected the money of the people they disappear in the villas and the yachts of those who are truly responsible for this legal deceit that is called public stock market.

Then we have the other King of politics. Once more not with cards or stocks but with language, the language of promises. Governors are the Kings, the baits are the members of the Parliament along with the Media and the charlatans are the businessmen who are sitting back comfortably, watching how their set game with their “illegal laws” is progressing. As if they own the public roads they make you pay for your parking, they make you pay fines, they make you pay tax in order to give you allowance to circulate your own car. There are taxes everywhere, even on food. If you want to build a house you have to pay extra for the permission to start the work. While the price of everything is going up they are cutting down on pensions, on salaries, on medicines, on hospitals and so on. Until you get sick and be put in a hospital from all these tear gases or from the bat of some member of repression powers until you die and stop bothering them.

This is the set game of the King as it takes place on the top of the pyramid that we call state and continues towards the bottom, where citizens are. And all these are happening under the supervision and domination of the ultimate King of global mafia, the “money printers”. This is the carefully protected game that governors are playing on people. Even when the citizens rebel and they vote for new leaders they are just showing the door to those who have bereaved them of their money in order to bring to power new Kings. Everything is set by the bosses of global mafia while they are fooling us with polls in order of us to believe that we vote for our governors. That’s how they manage to always keep us di-

vided and put the blame on us for voting for them. This is the foxy art of global deceit.

Television channels are nothing different than the discussion which is taking place between old people in coffee shops, presenting us with fake disagreement in order to draw our attention from the real causes that have driven us to this vicious circle. People wake up every day thinking of their financial problems until they go to bed once again. And they listen without a break to the same tapes of politicians, journalists and economists until they drive themselves crazy.

The Parliament is no different than a luxurious casino. This is where the big game of dark profit is being played against poor citizens, who are contracted with public medicine insurance. The pensions and the salaries are not enough even for our medicines. Each Parliament, in the every country, is a big store with lazy “educated” employs that are doing nothing less than wasting their time on set disagreements and promises on the financial improvement of our lives. This is where all the commands of the global decision centers for robberies and beatings, for civil, religious and national wars against the people are being applied. This is the place where the gangs who we call politicians, the most loved children of global mafia, create are tragic poverty that we suffer for many centuries now.

The field of politics stinks since those we are composing it are possessed by infectious thoughts of easy profit, hypocrisy, arrogance and rhetorical disillusion. They are the cause that everybody aboard knows us as the most corrupted country in the world!

In order to clean the field of politics we need to decontaminate it because it has been polluted by their sick mentality of shabby compromises. And we will decontaminate it only with the cleanness of our consciousness and volunteer-

ing so that we will slowly inspire people to their desired transformation, from hypocrisy to originality, from remorselessness to consciousness, from disrespect to respect and from division to brotherhood.

How is it possible that you accept to be ruled by the unconscious? We need to stop the pollution now in order for it not to be transmitted into future generation. Those who are fooling themselves are capable of fooling the entire man kind. And those who have sold themselves for money are capable to sell all of humanity. The leaders of people reflect the quality of their voters and the voters reflect the quality of their leaders. The remorselessness of that couple is the reason of this smelly situation for they drift their children into their shameless path harming even those who choose not to vote. Because of the remorselessness of the unconscious mobs even those who have denied voting for them have to tolerate them.

I heard once the current MP, Evaggelos Venizelos, referring to God as God of the Greeks. I laughed at his silly hypocrisy to behave as if he is talking to fools. Understandably, since people are still giving him the right to “govern”. I wanted to answer to him: God, my friend, is not the monopoly of any country and religion, He did not create the borders neither did he baptize people Greeks, Bulgarians, Germans, to divide the world, causing wars. Neither did he invent the religions like Christians, Muslims, Jews, Hindus, Buddhists and Jehovah. It is the wicked who have invented them to always have their hapless folks in languor, in divisions and wars. Imagine, my friends, every politician in each country, to invoke God as the God of their own country. We would have more than 200 Gods. The God of Romania, the God of America, the African God, the God of the Chinese, and the God of the Russians until this misleading nonsense would have no limits! You should be embarrassed to completely

usurp God, in order to exploit the religious feelings of the people, giving very oath before the archbishop to serve them and then misleading them.

While you, the politicians, talk through the television channels, because you have given this right by the channel principals, we can not answer to your ridiculous and hypocritical words through the television. But we can answer to you through the internet because you speak publicly as well through your television channels. Fortunately, the Lord of all creatures - and not just the "Greeks"- has inspired some people to communicate using technology and the internet annihilating distance, even when you try to control it as well for the disorientation and indolence of the people.

It is about time you understood: the time that the darkness of your global guilt will disappear has finally come. Try and seek the divine Knowledge of Yourself inside you and repent, confess to the people you mislead and your hypocrisy. This is how you will participate in the building of a new, decent and peaceful world. Do not hide yourselves in vain because most of the people have now realised your global, stupid and smelly work.

How can anyone who does not come in contact with the divine truth inside them, become real? Just by contacting their multifaceted minds? How do you expect to hear the truth by liars? Have you ever wondered that maybe it is our fault as well and that maybe we are so real ourselves, that inside our blur we vote for those we truly deserve?

Those of us who are awakened and conscious do not belong among your fanatical sheep. But the mobs, which you have configured into the darkness in order to follow you without being able to see where they are going, are something different.

You present yourself as parents of the people. Children cannot steer their parents, instead they expect a healthy direction from the leaders of the family. As all of us have realized and experienced, some of us more than others, a significant modulation of the children's character depends on the parents and later on the teachers and the community. Every one of us, from the friction with the general contour, shapes a part of their character, depending on the capabilities of his psyche. Some allow to be manipulated and follow blindly and fanatically this manipulation while others resist and reject this manipulation of evil, trying to follow their own destiny. This is a miniature of the whole picture that touches all of us, because we this is how we have started off since we were kids with the directions of our families.

After our adulthood, a government takes the responsibility to inspire and guide people, just like parents are doing for their children. If the child's parents are liars, hypocrites and thieves, unfortunately the same actions appear on the children as they are affected by the behaviour of their parents. As long as these children keep close to their parents they are affected more and more by them and become adept at hypocrisy, deceit and fraud. In this way, as long as the family of "political governments" remains mendacious and hypocritical, they will lead their people – "children" towards the same path. As long as citizens elect such rulers and tolerate them, they become equally responsible, it's like saying to them "Go on, we like the qualities that inspire us with, we like falsehood and disrespect." Parents-"politicians" and children "people" will remain forever in this sick situation and will perpetuate the rot of our planet. One government after the other holds exactly the same qualities of pride, of self-promotion and self-interest. No doubt we have the same miserable story with different actors.

How vivid this example is in the words of my Master! Let us learn from the behaviour of the crocodile. With his teeth he tears off his prey but it is with the same teeth that he conveys love and affection, without even injuring his children. It's the same with politicians, if they saw people as their own children they would behave in the same way that a crocodile is behaving to his own children. If they continue to look upon people as they would look up strangers, they will continue to rip them out in the same way that a crocodile rips off his prey. But all this will one day backfire and politicians will become the scapegoats, if they haven't already become.

When a man has forgotten all his conscience, smell of danger and decomposition surrounds himself and everyone who is standing near him, as he does not know how to keep his decadence to himself. He either needs to be isolated or to be shown that something is wrong with his behaviour and he is in need of treatment. If he is a prime minister or a deputy or a public official or even a parent, we have to be as strict as possible for the total isolation of his behaviour. Unless of course the patient is not willing to cooperate if so we draw a line until he desires to be treated by the interaction with healthy people, in order to improve himself. The man is like a rotten fruit in a basket. If you do not isolate it, the rest of the fruit will rot as well.

That's why we share responsibility allowing humans with switched off consciences to influence us. As someone can infect the person sitting next to them and in the end a whole group of people is infected, let's some of us make a start to heal their mental health offered by the Knowledge of Ourselves, in order to dissipate this mental health and those around us, giving inspiration and hope to them to accomplish the same.

Fortunately, there are several people who resist to the interaction with this hypocritical and wicked project, where everyone seeks to supplant the other with fair and unfair means. Many people are still visualizing of a beautiful world with love, respect, understanding, dignity and honesty. Unfortunately, they are scattered.

I wish to express the idea that is coming from my heart. Those of you, who wish to see some change around you, need to see it happening within yourselves first. I recommend you the way to achieve it. This method is simple, easy and dear to all of us because it has nothing to do with some idea coming from other brains who wish to destroy ours, like religions, philosophies, ideologies, political heresies, denominations and other ideas created by “human minds”. I suggest the supreme Knowledge of Ourselves, which offers a practical method of four techniques to learn to focus on the core of our existence. There we can find all the possibilities of fulfilling ourselves, to beautify our daily journey through life with dignity and consciousness. No one who is unfulfilled can function properly, that’s why we have so many global uproars.

Real governor is a man who – at every moment - studies to govern his body and his mind with the superb quality of discipline. And Knowledge is the perfect mentor for this essential learning. Discipline of the mind and discipline of the heart are two different things. Discipline of the mind exerts pressure in man, tiring him so he eventually stops trying. While the discipline of the heart provides awareness and effortless disposal of garbage. The release comes every single blessed day as a full awareness of Creator’s existence inside us and it is through his guidance that we become fulfilled. Those who do not evolve internally will be able only of ugliness and they will express their repulsive projects as normal because of unscrupulousness.

This is the mask of political leaders and their crimes towards people. When people seek Knowledge of Themselves, they will have no further relationship with those liars and the fake saviours of our society will disappear.

Camouflage 6

The public defending system is
the “protector” of countries

Armies are being fanaticized by every government to cause wars. Division -and the opportunity to sell weapons securing incredible - is the primary purpose of global mafia and politicians who serve them. Even if the people wake up at some point and understand their dirty game, politicians employ the weapons and armed forces, they have created themselves. We shouldn't forget that the army consists of people forced to obey the orders of politicians and generals who are creating civil wars and turning them against rebelled citizens. How many of us haven't become an orphan because we lost our fathers during the civil war? If the soldiers were not soldiers, they would be resentful citizens as well. But they were taken to the other bank in order to exterminate the rest.

The same happens between states. The challenge of divisions is not limited only to the internal matters of a state but it is expanding globally. When people wake up and understand the filth of civil wars by opposing to them, it will be already too late because they would have managed to entangle them into a war with other countries.

Be careful: the army, which we supposedly maintain to protect our country, they are also using it for their own protection and for the protection of their rotten system. Then they present themselves as peacemakers and put the army back in place, characterizing it as Junta and the story goes on

and on again. This vicious circle can only be broken by you and me, if we stop voting for the liars and vote for the visionaries of the general welfare, who in fact are nobodies but our own selves. Then we will be free.

The army, which in our country is mandatory, is a wonderful opportunity for young people, who already have more experiences than high school children, to be trained in the discipline of dressage body and a healthy diet, cooperation and volunteerism. The meditation to the Knowledge of Ourselves will help them graduate as decent and beneficial as possible for our society. In contrary, they now learn only how to tease each other, how to handle weapons to kill their fellow men on the altar of “mother country”, as well as obedience to civil politicians.

Police, formal or secret, is here to protect the big bosses, the politicians, because we should never forget that the state apparatus is created by the governments. We have antiterrorist groups and groups for narcotic and crime prosecution, supposedly to protect civilians, since it is the state itself that promotes division, gambling, drugs and alcohol in its attempt the weakness, the fear and the passivity of the citizens. Do not forget that the drug prosecution is only chasing drug users and traffickers, leaving merchants to destroy lives undisturbed. And by the pretext of coverage of unemployment and of young people’s support , in order to get them to shore and shape them as they desire after their military service- the urge them into positions in the police force and tempt them with permanence.

Municipal police is a brand new fruit, that have turned our public roads into private and is out hunting people for illegal parking and taking with fines every single penny that pour citizens have. When I worked as a taxi driver I used to say a few kids that worked for the municipal police, just to

check on their honest: “You are the executive instruments of inconspicuous criminals.” “Unfortunately we have no choice,” they used to reply. “You will be given a choice.” They were looking at me full of wonder. How many people are trapped under the corrupt system to do something they do not want to do! And how easy it would be to let themselves free if they participated in today's hopeful message!

The same ardour and enthusiasm with the children of the municipal police is unfortunately shown by some members of our Parliament to immigrants, who they are people just like us, hungry and deluded by governments. And I wonder: if they were using this passion for truly hunting crime, drugs and human trafficking, then possibly criminal action would cease forever. People who have put borders in their heart unfortunately will always have borders with their fellow men. But since they are part of the state apparatus of government, their reasoning is pointing elsewhere, shaped by their masters, because they have compromised from fear of losing their jobs. A vicious circle, in which the darkness appears as light.

Another masquerading institution is the judiciary, supposedly for the administration of “justice.” This very sensitive area has been turned into one flimsy circuit housed in fancy and imposing buildings, for the illegal governments to ensure their immunity and their power against anyone who dares to raise a voice against them. The staff of the circuit of justice, lawyers, judges and other employs with various “functions”, are presented to us as the guarding angels of the world. But with their complicity and their tolerance, they are allowing them to perpetuate illegalities, for the circuit of justice never stops working trapping people into dealing with complaints and lawsuits and never giving them time to search for the perpetrators of deliberate problems, They are mandated by the dark global system of “money printers” to di-

vert to society as many problems as they can, so that people have to deal with them

I have to emphasize on an unchanged law that I have experienced through my time in the University of the Knowledge of Ourselves. The position, into which every one of us finds ourselves, is the position where we seek to bring our fellow men. People who have it all and dominate everyone and everything thanks to the money they print, and their employees, have no contact with their conscience or the innermost true joy. Their brains get sick and suffer every day more and more into an unimaginable degree. They end up schizophrenics and they only get satisfaction with sadistic things, like harming as many as they can. That's why people suffer and they will continue to suffer for as long as they ignore the Knowledge of Themselves. Those who suffer want to make you suffer; those who are happy want to make you happy. Our Christ told us that "The blind leading the blind". They will both fall into the tank. That's why people are equally responsible for their misfortune. Lack of clarity that comes to us by the Knowledge of Ourselves, makes us use the gift of choice on the wrong people. Once they will be revealed as most unreliable, but it will be too late.

Politicians and generals are the wolves and people are the sheep. They know each other because they have been put in their positions from the "money printers" and the gun manufacturers. They communicate perfectly to set up their dirty and paranoid wars for the elimination of people, not allowing them time to wake up and ask for their mother earth, which has been given for free to us by our generous Creator. Because they know far too well that as soon as we acquire our land, secure our shelter, our clothing, our food, some friendship and some humanity through our volunteering, their devil-money, which is the reason for all the subhuman

works against all blessed forms of life, will be completely disappeared.

This is the mask of public defending system which oppresses people, shaping them into prey and leading them towards complete enslavement.

Today we have too much dark but we also have too much light. We have too much hate and too much love. We have too much ignorance and too much Knowledge of our divine Self. We have been offered a supreme opportunity to choose the gift of Knowledge and live wisely for the rest of our lives, helping both our own evolution and our children's.

Camouflage 7

The media is people's "informers"

They supposedly care too much, that's why they steal from us every single minute of our lives, the most precious gift that we have been given, the irreversible time with their informational trash, the financial problems, the fear, the interconnections and the relentless disorientation from our divine selves.

The global system of chaos and darkness is so insidiously organized, that has made people to believe that the news presenters and the journalists, those "lovebirds" of the media, truly "informs" us and "entertains" us 24/7 from honest love and interest.

In contrast, the most cleverly set up crime is taking place: they are using people to think with the standards that the media promote and then, like communicating vessels, to transmit to each other the garbage enervating them massively. By radio, television, newspapers and magazines, people learn only to think and discuss the issues and the problem they have heard from the media, which mutate human di-

vinity. The criminal division succeeded by the political parties, religions, borders of countries, sports and all rigged tricks, is unprecedented. The fundamental dark triangle, which owns and directs citizens is the inconspicuous masters “money printers”= the lobbies of the gurus of economy, the politicians and the media.

But there is the opposite bright triangle as well: Teacher - Knowledge of Self - student. With this powerful triangle we can defeat in our minds the invincible triangle of darkness and chaos and all the camouflaged related circuits.

As long as people are indifferent to equip with the weapons of awakening, awareness, understanding, appreciation and clarity from the Knowledge of Themselves, I am very sorry to say that they will cause themselves only abject misery, their own and their children's .

This is the mask of the media that are supposedly interested in informing us while in fact they grow perversion, crime, stupor, disorientation and fear of people.

The magic wand of choice is something that we have until our last breath. Let us use it now that we are given the ultimate chance than from the current real Master, Prem Rawat, to know within ourselves the ultimate liberator Self of our own and to build a beautiful and dignified world worthy of our divine nature. Let us finally stay away from those parrots of calamity and create the media from the beginning and transform them from the media of deceit into and the media of inspiration and enlightenment for the entire world.

Camouflage 8

The “sports”

Sports are stealthily used for domestic and global bifurcation. These 'civilized' sports are nothing but circuses, and if the supporters of the competing teams were allowed to have knives or pistols on them, none of them would stay alive. But because the system wants to keep its dark circle of perpetuation and division vivid, for the time being it limit's itself to stone throwing or throwing of chairs giving some extra work to the glaziers, the furniture makers and, of course, to the hospitals.

Unemployment brings some relevant alarm and indignation that the dark world's system fears so it keeps on trying to invent new method in order to increase disorientation. The awakening of the world is something against their interests. So, promoting the sport industry, as well as the industry of entertainment, they manage to influence kids, making them dream only of how to score in the field. They first squeeze them and then leave them spiritually dead because the only thing they've been doing for years was to run around like crazy, like horses or like chased dogs.

And of course, apart from the division and the indolence the invisible rake of sports is aiming on other “legal” and illegal gains. We see it happening with all sports, even in the Paralympics Games. Especially, in important matches, the organizers make huge profits using the athletes, some of whom are paid handsomely to function as baits for the young people.

This is what we call professional sports, nothing more than division, earning and stealing of our precious time.

With the Knowledge of Ourselves we can make sports more polite so that the health of our body benefits from them,

we can make them to suppress our passions and to teach us discipline and dismissal of competition, which is generated by sick fanaticism and arrogance.

Camouflage 9

The haunts of the circus' fun

The industry of song is one of the most insidious traps along with the industries of film and theatre. They are presented to us as “entertainment” but behind the singers and the instrument players, who are peddling to the public as the gods of fun, there is always the motive to steal our precious time. The “artists” are seeking to make us their permanent client, addicts who run behind them for the joy of delusion. These places are well equipped: alcohol and drugs for total stupor. Their entire repertoire is based on lust, which they camouflage with words, such as love, reminding to the audience the sufferings of their hearts.

Some songwriters and shouting against the system of darkness and they supposedly unite with the angry citizens, but their motivation is only to gain more customers, since they always dance to the rhythm of the global carcinogenic disease of selfishness. Each blames and competes the other, but the squeezing of time and money that they perform is the same.

The actors and actresses with their turn, claim that “actor means light.” And I wonder: with billions of televisions, cinemas and theatres, plenty of 'bright' artists, 'bright' intellectuals and 'bright' governors, how we have such a huge surplus of persistent darkness? Why we keep on building prisons, hospitals, cemeteries and madhouses for dead of our paranoid wars?

All the entertainment of this world is nothing but illusions, because they deprive you of the freedom and salvation, which only self-knowledge offers. Even the books that seem like innocent fun are a different form of self-deception. Your brain is filled with a bunch of trash of many different theories, a lot of useless beliefs to differentiate you from other people who happen to have read y other theories. They are starting dislikes and divisions, squabbles and political arguments. The novels excite the imagination for a virtual reality outside the real magical moment so that you get used to read and live only with borrowed ideas. They steal your valuable time with a more sophisticated deception and secure you as a permanent customer. You deprive you of the choice to start reading your own inner magical book of truth and to learn the art of “now” with the sublime Knowledge of Yourself.

I've heard some actors and directors saying that the cinema civilizes the world. And I answer: if you call civilization the corruption and crime that the cinema is promoting with the sinister works of shallowness and lethargy then sorry, but for you civilization would always be the darkness. Which, after you have created it and given it the name civilization you then want to film it also.

The true culture emanates only from the “know thyself” as well as mental health. How can the uncivilized minds, if they do not embrace Knowledge, which is the root of our civilization, to develop and show externally the true civilization? Some of you may feel unhappy, but my heart is obliged to express its experience. Without the right foundation, there can be no selflessness, no love and respect as a unique code of our contact, our ship will always bogged down by our indifference. You see, the pitfalls are numerous and arduous, with an incredible range of deceptions so that they cannot be

realized by our brains. That's why they are shaping us the way they want: one-dimensional.

While Knowledge makes us awakened, fulfilled and multidimensional and frees ourselves completely from the world of illusion = darkness = slavery.

Those who appropriated the people, those who appropriate the "know thyself " and the God are boasting proudly and clearly that have done their best. I have not heard once one of them accepting their failure. A humble and sincere confession would likely urge others to do the same. I only hope for a healthy start in order to look for the causes of hypocrisy and darkness and to discover who we truly are, which is the ultimate purpose of our lives.

Camouflage 10 Job offers

While the obvious and undeniable survival and maintenance of all creatures of our planet come free from our mother nature, the sun, the wind, the water and the earth, for many - many centuries mankind has been misled with the most disgraceful act of the economy gurus, with the worthless money. But they know very well that if they are deprived of food and water for just a couple of days they will die.

They have managed our complete dependence by stacking us up in urban monstrosities. Forced work and unavoidable traffic 14 hours per day, sleep 8 hours with a 2 hour break for eating and watching TV, with an aperitif of lethargy by chat by the presenters and reporters of the system. Trade has become, with the passion of competition and greed, the highest school of configuration, hypocrisy and fraud, within which we are working and stealing one another. The professions of fraud and robotization have literally demolished every

healthy human value. Gambling, alcohol, drugs, slavery, prostitution and weapons production are rapidly and skilfully growing. The hands of the people rather than wreak healthy food and produce surplus so that there is not even one hungry man or a hungry animal on this planet, create food poisons and weapons and a single madman's command is enough for myriads to get killed. We have learned nothing but how to imitate the darkness. With so much technology and wealth at our disposal how is it possible that countless of our fellow men on our blessed earth die every day from the lack of water and food? Immense sums are spent on weapons systems and space research, because, you see, we must destroy other planets as well with the schizophrenia and the arbitrariness that the creators of the world of the darkness are carrying. Each track of sound logic has disappeared and has turned into incredible audacity and hypocrisy, which is proudly presented as culture.

The dark game of "money printers" is eventually to mutate and form as many of us as they can with their dark system, in order to use them against the rest of the world who does not follow them. And so the system perpetuates with the help of those who serve it. For example, with the pretence that they offer job to people, the governments have created a force, not consisting by aliens but by real people, who is called MAT (a certain department of police). These people are provided with boots, shields, helmets, bats, guns, handcuffs, and asphyxiating masks to supposedly protect the society when a riot takes place, but in fact all they want to protect is themselves. They know far too well the game of the inevitable indignation of citizens, so if the things turn really ugly and they lose control they call upon the army and they are saved.

Do not get confused by their urgings for revolutions. Those who incite mobs to rebel are paid by those who are selling

the weapons. They bask in their living rooms while putting people to fight each other, enriching the blood running in the streets. They always work with their evil minds and their educated language of persuasion and deception.

All this outer ugliness comes from the inner ugliness that the makers and the mobs experience inside them because they live only for their mind and their body.

Today we live through the darker “culture” but simultaneously we live through the most brilliant era because we have the unspeakable luck of the living presence of the real Teacher, now that we live in the enchanting scene of this blessed planet.

We of us all carry within us the most sacred and precious gift. And when we discover it, we will feel immensely rich. We will slowly disappear falsehood of money invented by the dark greedy ancestors who have established the indescribable chaos. We will discover within ourselves our powerful feelings of divine love, respect, peace, dignity, clarity, selflessness and bliss and will completely shake off the wars and the misery brought by the fatal ignorance of ourselves. With the Knowledge of Ourselves we will succeed in our inner transformation and restoration of our beloved planet.

Part B

The source of beauty within us and how to express it

After pointing out the corrupted dark side of our era, in which we have all participated, some of us more than others, with our indifference, our irresponsibility and our accumulation of dishonest deeds, I am going to inform you about the bright side, as well. Today we have the coming of the true Teacher, Prem Rawat Maharaji, who began his work 45 years ago, since he was 9 years old. Do not be indifferent to the necessity of the Knowledge of Yourself, which is always timely and the unique life jacket in every “ship wreck” in the black ocean of this world.

As a student of the polite studying of the Knowledge, I dare to say that the cause of my transformation and liberation is my Teacher. My ongoing internal apprenticeship has led me to confess with my writing the most joyful message for reaching inner peace, freedom and happiness that my Teacher offers with his Knowledge, hoping to touch a few hearts depending on their level of understanding and purity. At the same time I inform you of how we can free ourselves from the complex problems imposed on us by the oppressors “money printers”.

From my experience I know that our inner liberation is achieved with confidence in our divine self and by investing in Knowledge, to contribute to the building of a more beau-

tiful world. Nothing can be implemented without the investment of time. We will never be able to participate in a better world and it will remain a hypocritical dream unless we try for the healthy, personal and collective, development of the world.

I write all those things because my inner liberation has inspired me to introduce to you the way of liberation from foreign oppressors “money printers”

The recipes of the world wars, the indignity, the chaos and the darkness are incredibly complex, misleading and callous. In contrast to succeed external peace, dignity and prosperity the recipes of Knowledge of Ourselves are very simple.

First of all we need to find and bring together 150-200 new members of the Parliament to voluntarily become the individual healthy cores of the society as servants of the people. They need to be so clean inside them, with disinterestedness, dignity, clarity and understanding, totally liberated from the factor “money” and generally from all the illusions of the materialistic fields. The purity of our hearts will be the true magnet for countless hearts that that long to distinguish pure servants to entrust with their hope and their vote. I foresee a sequential pull of hearts to an incredible degree, in the same way that candles are being lit one after the other when we celebrate Christ’s Resurrection.

This is the necessary and overarching goal: finding the original nuclear for a healthy partnership that will replace the current hypocritical rulers when the people refuse them their vote. Without any bloody revolutions driven from the system itself in order to cause chaos and to divide us.

The cunning trick of the alienation of a people is managed by electing a Prime Minister of their choice, someone with full unscrupulousness and arrogance, taking care that his closest ministers will be sick with the same mentality and

that they will be puppets of the inconspicuous governors. Then the ministers start to expect rates off and they develop the following way of things “if we don’t take the money someone else will,” so they all end up to be predators. Their contamination of thinking is being transmitted to the entire state apparatus because it is adhesive without the antidote of dignity, which always remains unchanged to those who honestly deal with the Knowledge of Themselves. The deadly disease of unscrupulousness finally reaches the base of the pyramid and with unimaginable speed this carcinogen selfishness traps the people. Soon their mentality rules us all, “Live and let die”.

We know their play as you know the actors who are participating. Now the aim and the solution lies in the creating of a noble new project with noble new actors to attract with their authenticity the audience-citizens in order for them to come to this noble new play and participate as well. Everyone is bored and hates the old play, but remains stuck there, although it is so ugly because they haven’t seen the new yet. To satirize and to sing for their odious play and the odious actresses in which all of us have participated won’t bring any change except from perpetuation and growing rot. The healthy result will bring the promising new project of the Knowledge of Ourselves with new actors, who have apprenticed in the true realm of their heart. People who have their heart as a vehicle need to carry absolutely no qualities carried by the minds of this world, who have undoubtedly impoverished it with the vile qualities of unscrupulousness, selfishness, hypocrisy, competitiveness, arrogance, jealousy, hatred, possessiveness, greed and servility. That’s why I am referring to it as a new project with new actors. I emphasize that Knowledge does not exclude anyone of the old hypocritical actors, as long as they transform into genuine (poets of moral stan-

dards), they can also participate into this glorious new play of this brilliant era.

Let me express one of the stronger experiences I have gained as one of the highest gifts of Knowledge of Ourselves. The divine knowledge provides an unspeakable potential of transformation to whoever desires to look back inside them which is something even beyond your sweetest fantasies. The attraction that takes place between our Teacher's work and his students will be incredibly strong and progressive non-stop. I feel that is the incredible season of the wise choice to give up the scenario that has been prescribed for us by the deceptive writers of chaos and darkness. We currently have the most noble writer, who inspires actors with the unselfish attitude of his heart, to manifest the most majestic and dignified work, worthy of our beloved Teacher and our divine nature.

Finally, there are two serious issues that we need to focus on: 1) The recognition and acceptance of our fall, arising from the ignorance of Ourselves, and 2) the recognition and acceptance of the pursuit of Knowledge of Ourselves, which leads us gradually to our elevation so that we can experience the bright era ahead of us. The visionaries of the Common Good in order not to fail in the coordination and determination of our efforts, need to have as a code of communication the Knowledge of Ourselves and be united with love, respect, awareness, dignity and clarity. Without the Knowledge of Ourselves we will be divided by the ideas of the mind because they include a treacherous selfishness that destroys any healthy cooperation. Those who are not engaged now, if they wish to participate in the development and the noble cause, need to realize that vision comes from a source within us, that there is only one God who wishes to unite all his creatures. Knowledge is the saving code of communication.

The world cannot be built with ideas that are dominated by love, respect, dignity and clarity. We currently have the experience of all the previous centuries: confused ideas, like the famous Babel, has misled mankind. Although we have not realized this experience yet, we need to realize it as soon as we can, in order not to participate any further in the perpetuation of the catastrophic global trap our own minds. Many of you might move with disappointment and frustration, which off lead to revenge. In Knowledge there are no conflicts or revenges, that's why the contact with God inside us eliminates the qualities of the mind and stops the perpetuation of violence.

Without finding healthy replacements, without a noble code of communication but with selfishness and indifference for the Knowledge of Ourselves, how do we expect a better change? Do we want just another carnival change to celebrate and unbend ourselves with the ordinary mentality which the ancestral system of darkness has formed?

It's time to cooperate with actions. Wishful thinking and visions are good but there would be even better if they were materialised. Let's be joined and play, each one of us, in the most real play in order to synthesize the incredible beauty of peace, dignity and prosperity.

I understand that everyone is afraid that they are going to have the same fate with some of our fellow citizens who have been killed, thinking: either we'll live in slavery of their dark system or we will get killed if we decide to overthrow the rotten world system in which each country- ours as well- is subservient. But this is a fake dilemma that we were made to believe. The real dilemma is: either we live in slavery of their dark system or we will live detoxified and free.

Each heart sees as its task that for a man to feel man alive and he has to be detoxified by everything and by everyone.

The fear that we will “get killed” is fictitious, because it is not natural; they have implanted it in our brains. It is just a threat; it does not mean that it will necessarily. We can destroy it with the omnipotent qualities of our heart: trust in our duty, hope, faith, understanding and clarity, sweeping all obstacles within and without us.

My dear friends, I am putting you a dilemma: either we sit passively and allow the perpetuation of slavery and darkness to be transmitted to the children of our children, or, like decent people, will become the leaders who will eradicate the thorns, which prevent us from evolving, inspiring the next generations. Whoever wants to lead, this is a promising era.

The first essential move for the solution of the economic problems, of divisions, of lawlessness and of all other obstacles which have been placed upon us deliberately in order to bulldoze us, is to get to the source from which it derives; power.

How do we come to power?

I wish to inform some people, mostly artists who have many contacts among their colleagues and are closer to the people. They should join first. They have to realize the difficult situation that people are going through and now is the right time, if they truly want to help. Do they just want to sing, recycling the problems and satirize those in power or do they want to try and realize the cause of our fall and the way that I mention below, and to promote it to the world for the relief from our misery that has been imposed on us artificially by the global “money printing” mafia that, with the barons of the organized crime, distributes the money as it wills and takes it away whenever it desires through the banks?

That’s why it is much-needed that the visionaries of the common good should unite, to shake off the dynasty and crime. Now is the time for action and reaction! No more inertia, indolence and divisions.

LET US FINALLY WAKE UP FOR OUR FREEDOM

In the same way that 150-300 lairs mislead constantly an entire nation, the awakening and unity of only 150-300 leaders, who will be true and ready to support the real message, can inspire others to eliminate infected thoughts of selfishness, hypocrisy, of subservience and perceptions of the diseased parties that keep us divided and enslaved in darkness. Later everyone will understand that all of us we can leaders for the inspiration of our own surrounding for the materialization of our noble purpose.

Let us first look at the main cause that led us to mutation and enslavement. And it is nothing but the ignorance for Ourselves. Ignoring our primary need, the Knowledge of Ourselves has as a consequence to become subservient to everyone and to allow them to formulate us in their own measures. And since we offer the reins of our lives to liars we will pay the cost of our unscrupulousness and indifference.

And now let's try to understand in a simple way how to do it:

When we will undertake the governance of the country and until the idea of volunteering has been spread, we can print our own money in the same way that our oppressors can. One drachma will correspond to the value of money of any country because the numbers are global and no villain with his circuit has the right to put a virtual value on it. 1 drachma will correspond to the value of any currency of the world anywhere in the world rather than to 340 units, where they have evaluated euro. 1 drachma would correspond to 1 unit of any currency, i.e. 1 drachma = 1 euro = \$ 1 = 1 = 1 pound, etc. The transactions will be made solely by the numbers on the coins, not the virtual values that the evil have put behind numbers in order to create artificial poverty, enslav-

ing the people that they choose. Anything purchased in Greece will have the same numerical value in every currency. So, the rich won't be able to buy with their virtual millions value the labour of the workers and of the essential goods. We will also print euro for transactions with foreign countries and markets in case some of them won't recognize drachma or want to block us.

OUR LIBERATION DOES NOT ACCEPT LIMITATIONS
AND COMPROMISES

We do not interfere into nobody's business, so we will not allow them to take charge in our home as well. Hospitality is one thing, but not for the mafia, the pimps and the IMF who the government have slowly put upon our shoulders. Who has given them the right and the privilege to print money for us or for other countries? Who said that it is forbidden that we print our own money? With money as their weapon they have been enslaved and impoverished us and it is that with the same weapon, money- that we will print ourselves - we will break free. Now is the time to wake up. Let us stop the fairytale of the godfathers with the aid, who aim in our slavery and the slavery of our children. We want to keep ourselves out of this: WE OWE NOTHING AND WE HAVE TO PAY BACK NOTHING. Those who believe that we have to pay off let them ask the money from their employees, the politicians, who they used to enslave us by buying our country, making us to kill ourselves. Before they sell out everything that we have, we have the obligation to stop them; otherwise we are not worthy to have offspring if we are going to deliver them to the slavery of the rulers of darkness from the day of their birth.

Do you expect their educated economists to save us? Those, who appear harmless, are the children of "money printers",

located in each country to drive people crazy with their economic science. Economists are their triplets, along with the media and the politicians, but with the camouflage of their degrees, as senior advisers and regulators of each country's economy. Their unsubstantial learning is coming from the rotten system so that they fool people for the coverage of unemployment, with subsequent. And their very own members are liars as efficient as politicians.

Since the governance of the country passes to conscientious servants everything else will work smoothly and bring balance to people. We do not need people who will serve the country with the art of lies. We need awareness, determination, dignity, consistency and honesty, to inspire people for their liberation from their politicians.

I feel that if we do not replace the fake representatives of the people, then we either have the intelligence or monkeys and foxes or are possessed by the multifaceted selfishness, hypocrisy, servility and irresponsibility that we take part to the rotten system, so of us unconsciously while others consciously.

I guess that many people would welcome for our country a government of genuine visionaries of the common good coming from the artistic circle (singers, musicians, and actors), teachers, intellectuals, sociologists, criminologists, psychologists, doctors, priests, politicians, journalist, policemen, people from law enforcement and other charitable organizations. Because luckily everywhere there are exceptions despite our mutation from the ancestral, dark system. Until we restore the exceptions as rule and the current rule of corruption as an exception.

Those have the experience from their professional interaction with people of different temperament. They have a deeper awareness of self-deception and hypocrisy. So they are

much more capable to govern than the current liars who have compromised to serve the dark inconspicuous bosses, pretending the representatives of the people.

I hope for some new leaders, without having any contact with them, only from what I hear sporadically on television. If they do not want to participate for any reason, at least I hope they have the kindness to seize this rare opportunity and inform those around them and their fans for the decent attempt of a personal and collective bright history.

If they realize that they can join the majority of our population-because each of them has thousands of fans- and to inspire them to resign from their sick political parties that keep them divide, then the boat with the new healthy state machine and new pilots and passengers can sail for highest horizons. And for the first time we will enjoy our daily trip on our majestic and blessed planet, full of consciousness, gratitude, dignity, peace, respect and love, through the Knowledge of Ourselves. This gentle exercise is the most heroic and ultimate success, it is inextricably linked to the current effort for our change and for the creation of bright future for our children.

This message is like the seed that if you take care with confidence, hope, faith and understanding, will be transformed into a tree and you will eat the sweet fruits both you and your descendants. We are farmers of our destiny and our children's.

After deep awareness of reality in contact with my true Self, I decided to take action. Please allow me to show you a part of the future program for when we take the governance of the country in our hands, which will always remain open for any useful supplement of the general welfare.

Part C

Schedule for our release and our decent living

What I write here is a whole of proposals for the relief of the weak and decent living of everyone. I hope that this project will represent a group of decent visionaries of a better society where everyone will work for all and all will work for one, in other words for COMMON GOOD. Let us all try to regroup, to make our own MOVEMENT OF VISIONARIES OF THE COMMON GOOD.

Since we will print our own money, we can evolve collectively and free from our oppressors inspiring citizens of other countries.

The state needs to ensure the basic needs of every human being, which is food, shelter and clothing, so that every man can discover his other basic needs, such as peace, freedom, true happiness and dignity. Beyond that, everyone will be able to enjoy any of the circus' games if he wishes but only with his own initiative.

1) Providing food, shelter and clothing

Ensure the rent for everyone who is unemployed, for a decent accommodation of all our fellowmen. Closed down hotels can accommodate homeless people with the state's expenses, so that our fellowmen we will not have to sleep inside cardboard boxes or on benches, hungry and unwashed.

The land will be divided between people so that they can cultivate it, if they wish, for food and clothing, which are the basic needs of all humans, or even to build communes.

Our Creator gives to all of us many different inspirations for labouring, so that we need each other for a healthy co-operation of the general good.

With indescribable potential of love, kindness, respect and understanding, we can do miracles for an incredibly wonderful stay on our magical planet, instead of stealing and killing each other. With the sound way of thinking of the general good, will gradually disappear prisons, madhouse, wars and inhumanity through the strong interaction of true love and respect that we all hide inside us by instinct.

2) Providing health

Ensuring medicines and medical care for all using hospitals that will be built in villages, islands and far away regions with equipment that will be paid by the state, since we will print our own money and we will be able to afford them. In this way people won't have to worry about long distances or the expenses of the tickets. Hospitals will be improved in order to really help people and will not look like stables anymore. All doctors and nurses will be paid by the state. No citizen will have to pay for their health. Privatization has to disappear completely from this noble structure that we call our body because it belongs to no one but our wise and powerful Creator. When young children will learn to eat healthfully in body and mind, more and more drug industries will be closing down along with their carcinogenic pesticides. So gradually the pharmacies which have replaced the neighbourhood grocery shops will be reduced as well. Hospitals – death allies will become communes so that they can be re-

ally useful. The private luxurious hospitals will remain us a choice, since the rich will be able to afford them.

The state will take care of the noble institutions for orphans, sick children and the elderly, because we will print our own money instead of the magnates of wealth with their hypocritical charity fundraisers who have abused natural resources through the use of their obsequious servants and worthless policies and afterwards present themselves as benefactor to provoke the sympathy of ignorant victims.

The appalling conditions in mental hospitals will change drastically. Sick people won't be treated as objects for experiments anymore because their relatives decided that they are mental and with bribes to prosecutors are now taking their property. Sufficient land will be given to everyone exclusively for healthy fruit nutrition as well as staff that will offer them unconditional love. Those who can will participate in farming as an exercise in order to help these sick people getting better and slowly return to their conscience and the reality of our society as healthy members and participants in the activities of the general good. Rich people will have the right in private mental hospitals have, if they wish, until they understand that health is achieved by healthy diet, fruit and juices, gymnastics, music, love from the nurses and live lectures and video with words of love and wisdom. Now it's the time for bright healthy radical reforms.

3) Charitable projects - Ban of privatization of our fundamental needs

The state will be responsible for food, water, electricity, heating, electricity, telecommunications, public transport and as much land as possible, because it's what will sustains blessed with its innumerable benefits. To prevent wastage of

electricity, water, telecommunications and fuel, we will put a limit on the amount that will be paid from the state since we will print our own money. When citizens exceed these limits they will pay the bills from their salary or from unemployment allowance, so that they see a reduction in their income and realize the consequences of waste and unaccountability, respecting from then on our joint effort. If we print money will be able to buy from landowners the first quality food that it is now exported abroad for the rich and their yachts We will not eat any more rotten food because of the accuracy and speculation of landowners.

The unjust privilege of the rich to get the first quality will stop and the food consumed by the poor will be recycled and used as manure.

The cease of the privatization of natural resources, which gangs want to control through their associates governments, is absolutely necessary. They can privatize their homes and themselves if they wish, but not the lives of people with the snatching of our land of our natural resources. If we do not wake up for our necessary union soon they will take everything that you have for just a bottle of water! The greed and cruelty of profit defies paranoid brutality that is beyond the wildest imaginations. Do not be surprised, because I know through the Knowledge of Myself what minds are capable of when they live in darkness and have money as God.

Some urgent projects: full abolition of tolls, free parking on public roads, abolition of taxes for vehicles' circulation , free driving licensing and free allowances for the building of houses, abolition of municipal taxes, lapse of all the debts of the weak, which the state will take upon itself to pay off. Since the state will print its own money there will be no longer need for revenue offices nor will we have to face tax evasion anymore since everyone's ultimate goal will be common good. The fines

for houses built without allowance will be deleted. There are no “arbitrary” houses, only arbitrary politicians, who came up with arbitrary and illegal laws. If someone wants to build on their land, they will have to consult the community or the municipality so as not to prejudice the rights of their neighbours or the environment. A decent communication that will satisfy all of our fundamental needs without disturbing our fellow man as we do not wish to be bothered by others.

4) Education

In education a whole range of learning is necessary in order to restore our primary need, self-knowledge, in practice and in theory, the temporal words of the explicit teaching of our dear Christ, “Therefore all things whatsoever ye would that men should do to you, do ye even so to them”, “Love your thy neighbour as thyself” and “Love one another”, not kill each other. That’s the way that children will come out as decent and wise citizens for individual and global progress. While now they learn only letters that prepare them just for the manning of the corrupt system and for the competition of cheating trade. It’s like they are being told indirectly “do to others what you don’t want them to do to you.” This results in stealing and killing each other because of the morbid mentality incorporated on us by the criminal system, the unscrupulousness, the divisions, the wickedness, the subservience, the irresponsibility, the pimp, the falsehood and the individualism.

Education as well as the study of foreign languages will be free to everyone, since the state that will print its own money will pay for the teachers and for the books. This will slowly eliminate private schools and tuition centres with all their useless learning that is transmitted by politicians to dis-

tract people and serve their economic interests. The letters themselves bring arrogance, exploitation, jealousy, competition and schizophrenia. The world that we live in is the absolute proof. Ruled and directed by the “over-educated” for many -many centuries, we see where the humanity is heading: the growing debacle, and the innumerable brutal suffering. The foxy pre- planned division of private and public learning for the exploit of the poor. The children of the rich have the opportunity to study and afterwards to rule with their degrees over the poor and to dominate every key position. The rich, if they wish, they can choose private tutors, but they will not be preferred for key positions in the state. In key positions we will put dignified servants of common good in order to sweep away the immunity, the bribes and the corruption, which are altering our consciences.

When the state prints its own money the benefit for the young children will be huge for they will not have to watch TV to be told what to do. Neither will they go for easy jobs selling their bodies or trafficking drugs, committing scams and crimes. Most importantly, when they feel more and more the care of the state, they will be awakened and become responsible individuals participating actively in the common good.

5) Pensions

Pensioners will receive adequate pensions to live decently at reasonable levels, in return for the services they offered when they were working, including those who did not work, but they are in need due to age.

6) Justice and human rights

With strict and fair laws, same for everyone, no one will be left unpunished, when they blackmail, abuse, steal and kill a fellow man. This will gradually decrease abuse, fraud and crimes. The guardians of fair justice and security forces will be paid satisfactorily by the state, so that they won't be lured from offenders to increase their salary and lose their dignity. This will totally disappear bribes and compromises.

The world's rotten system has trapped humanity in a vicious circle. The gurus of the global economy, print the money and share it as they wish, creating poverty, unhappiness and misery to a part of the society and wealth and prosperity to another, so that they are in constant war with each other, the privileged with the unhappy with result the abuse, the fraud and the crime, so that they remain undisturbed in obscurity.

As despicable the crime is, the state can easily limit it with a strict application of exemplary punishment. Today the illegal circuit of courts do not apply strict and preventive measures, only to maintain bribery. When the state itself selects honest judges who will strictly enforce the law, as good as possible, for the real security of citizens, then legal practitioners' circuit, maintained by the illegal acts, will become unnecessary and they will be offered another job by state for the common good. Everyone who has an unnecessary job today will be needed in the new society for we will have so many essential things to deal with. We will dispense off the garbage that we have taken as useful and will enable ourselves with useful work for the common good.

Until the necessity of seeking the Knowledge Ourselves, which feeds us with love, kindness, awareness, understanding and dignity, has been spread, we will continuously up-

date people with headlines and with television spots, warning severe penalties for those committing illegal actions, until they assimilate they do not have any other choice.

The impunity and lawlessness that terrify the world are designed by the rotten system so that we do to have time to focus on the Knowledge of Ourselves for awakening and clarity. They are forcing us to focus on our many problems and filling us with fear and insecurity, introducing afterwards their henchmen as protectors of the people and their disguised ministry offices as “protection of the citizen.”

The fear of the strict enforcement of the law will bring the illegal in their senses until they realize that they have no right whatsoever against their neighbour. In order to provide a healthy society we need healthy people.

The wretched conditions of prisons will also change radically: healthy diet, exercise, music, manual work by cultivating the land, live daily seminars, video lectures and examples for the return into our consciousness and healthy participation in society. For the time being prisons are schools for even higher crimes. They will turn into true reformatories so people will never have to in there. To regain our humanity: love, respect and dignity through the sublime of the Knowledge of Ourselves.

Finally, we will the revision of the Constitution and the elimination of all the “illegal” laws.

7) The media

We will create our own channels for continuous enlightenment, prevention of health and avoidance of poisoned food, alcohol, tobacco, drugs, prostitution, gambling, fraud and crime. Now the media promote images which enervate human beings. The aim is to show the opposite. We can run,

for example, videos that will encourage self knowledge or videos with words of great men and teachers, training of the body, appreciation and recognition of our magical planet that sustains everyone and everything with its innumerable, noble goods. It is much-needed to realize that it is our duty to preserve as much as possible our life-giving planet, our home, in the same way that we take care of our little houses in which we live every day with our families, because new visitors are coming every day.

Dear friends, I fully understand the misuse of the valuable time given to us every single blessed day, as the crafty makers of the dark world's system steal our time with the use of the media and turn it into trash. Especially with television, which has become a personal cinema for human mutation not only in houses but in public places also. They have managed to accustom people into investing hours watching satire of the repeating trash of political parties that are appeared us representatives of the people. Hours in front of the TV watching sports that make people sick with fanaticism and oppressed from their divisions. More hours watching violence and porn. Even more hours watching chatty reporters and presenters who "care from genuine love" to inform people but in fact sick them with the divisions of political parties.

So most of our time is spent unconsciously every day to obtain garbage in our brain, which are increasing hypocrisy and dangerous schizophrenia, infecting the entire humanity. And when we come across a gentle message about our lives, with incredible internal prospect development, joy, peace, freedom and clarity, not only we do not put a little of our time but we reject it, or fight it until extinction. We are afraid of any reminder of love, kindness, dignity, respect and appreciation of the supreme gift of Life.

So, for the time being, I come into the uncomfortable position to apologize for my DVDs, with one hour duration each, for I know that all our time has been stolen by the “trash bins”.

I hope through the words of my heart to infuse some hearts to awaken, to understand where we really need to give our time.

With this noble distinction and choice, we can create an incredible beautiful daily destiny, attracting our fellow men, for development and fulfilment of our hearts.

REMEMBER AS OFTEN AS YOU CAN ONE IMMUTABLE LAY: THE MISERY YOU EXPERIENDE TODAY IS THE RESULT OF THE CROP OF CONSECUTIVE THORNS IN OUR MINDS AND OF THE INDIFFERENCE FOR THE CULTIVATION OF OUR INNER WORLD. THE KNOWLEDGE OF THE OURSELVES IS A UNIQUE OPPORTU-NIENFOR EVERYONE TO ESCAPE FROM THE PRESCIBED PAINFUL DESTINIES THAT THE CREATORS OF CHAOS AND DARKNESS HAVE DEVELOPED FOR ALL PEOPLE.

8) The defence mechanism of state

The defence mechanism will protect state borders - though the borders will no longer exist when the world has been awakened and has been brought together-for the safety of citizens, informing tourists and immigrants on the laws of the state to prevent arson, abuse, fraud and crime, because a visitor has absolutely no right on the house that is hosting him, to arbitrary, to steal or to kill the host. The punishments will be instituted by wise legislators to make an example for delinquency against humans and animals. We will inspire other countries as to not be equipped with weapon systems and killing each other, but to be armed with love, kindness, respect, understanding and innermost peace, for the gradual disappearance of all weapons.

We have been divided by some dark persons and we have learned to live with our differences by working, stealing and killing each other. Now it's time to learn our similarities and how we can diminish our inner discord through the Knowledge of Ourselves in order to really learn how to live with each other. For we have so much in common! Inner peace we are all looking for, freedom, happiness, sleep, food and water!

With reconciliation and selfless, noble and effortless collaboration we will disappear the gun industries because our hands will cultivate the blessed land, and people won't die from lack of food and won't look into the trash bins to find something to eat. While now the lying rulers of "homelands" have put people's hands into making drugs, alcohol, gambling, poisoned food and weapon systems to our mutual extermination.

9) The working issue

The state will not deal at all with the arbitrary deprivation of the property of the rich, as some evil parties proclaim. Nor will it put any barriers to prosperity, but will instead promote collective evolution. The goal of the state is to reduce the gap between rich and poor and to eliminate the exploitation of people by the bosses.

We must all contribute to the gradually disappearance of polluted thinking of exploitation, which established as normal the distinction between 'masters' and 'slaves'. That's why exploitation is perpetuated. Each slave, to escape from his boss, tries to take advantage of someone else and becomes boss himself. If not, requires more consideration than the boss with less work. The boss, when he gives more reward, tries to steal time forcing him into overtime. So, we still steal one another in a different way and we perpetuate the com-

petition of the wretched exploitation by the inevitable scams, prisons, revolutions and wars.

When people are awoken and understand that we are all maintained by our mother nature with the sun, air, water and earth and the myriad of goods that it offers us for free, they will cease to be slaves of small bosses. They will simply cooperate on the development of the general good. Then the realization that we should not have lying rulers as bosses over our shoulders will eventually come because they support the small bosses and our divisions. Once we understand this we will move on to the final realization for the breaking of our slavery's chains, which is the fact that we shouldn't have on our backs the money printers torturers, because they support the big bosses and the lying politicians. So the pyramid of darkness will collapse without revolutions and weapons which the bosses have created to kill the enslaved peoples.

These amplified from prefabricated corrupt parties that divide people into communists, fascists, socialists, imperialists and so on, so that all peoples are always into artificial divisions. Great responsibility for the above bare the "drones bosses" who are promoted from governments because they played their role well. Through divisions no consolidation can occur and without consolidation we cannot come to power. So power is always maintained by money printers and financiers, and they know it too well. That's the reason they create armies, law enforcement, courts, prisons, madhouses and the whole plot of the dark state apparatus and put their own people in all key positions. Their range includes from lying politicians and countless rails of various divisions of the media to professional assassins. Their henchmen are like dog killers, as soon as they give the command they rip you off. Having become mindless, without any initiative, bosses have

even removed from them the right to ask or wonder "why should I kill him?"

To escape from the vicious circle of masters-slave, we will pass to the gentle learning collaboration collective development that will benefit the common good. The salaries of the (co) workers need to be as high as not to promote competition with the pioneers ideologues researchers and engineers because without the cooperation of others they cannot implement their ideas and inventions. That will gradually move us from individualism which has taught us to exploit and kill each other, into cooperation and volunteerism. Our salaries will not be set from the big bosses through their politicians employees anymore. Salaries will not be just enough for rent and food, with long exhausting labour and forced employment of women so that the rich can increase the illusion of their wealth from the hangover of their greed, while their employees are working until they die, in some cases prematurely. Instead it is the time for the worker to feel as a partner and not as a slave. This will decrease more and more the separations of families, the depression, the suicides, the frauds and the crimes caused by extensive poverty.

Many unneeded jobs will disappear by ensuring food, shelter and clothing. Prostitution, frauds, bailiffs, lawyers, drug traffickers, tax offices, and generally all the corrupt state circuit, which forces people to economic oppression and steals the most valuable commodities, time and dignity, will be eliminated. Better to pay someone for not working until a genuine effort for the common good is settled, rather than having him paid by the exploits, destroying both himself and his surroundings. The power of entrepreneurs to create fake "unemployment", which forces people into starvation wages and psychosomatic brutal blackmail, will be removed. Our fellowmen will get kidded anymore beneath the earth in mines

and metal mines of the conspicuous gangs. The salaries will be determined by the state, for the decent living for all of us if we decide to print our own money. Instead of the godfathers moneylenders oppressors with the rest of their guild who determine people's lives.

Take for instance the example of a man who has in his land fruit trees, vegetables and water. Of course he will never need to work, buy mutated food or be driven to the hospital and to premature death, because he will be self-sufficient and will have ensured his survival. Also, a country that prints its own money will never be forced to go begging from usurers or to submit to their terms.

So when the people of a country learn to cultivate their land, they will be self-sufficient. No need to import food or to borrow from their wicked oppressors. But deprivation and land grabbing by greedy invaders is forcing people into slavery, them and their children. Do not forget the past. Each liberation of the people from their oppressors was succeeded because of some pioneers, who have inspired the world with the necessity of uniting and reconstitution. With our grouping all of us become the forefront for our liberation. As the late Theodoros Kolokotronis and many others did, with the only difference that the current revolution will not happen with guns, but with unique weapons the awakening, understanding and clarity of our hearts.

Here I will like to make a parenthesis. Do not forget that some of us are seeds of dark ancestors. "Co- Greek", as some members of the parliament who are presented as "friends" of our country are shouting nowadays, are those who poisoned our beloved teacher Socrates and sent many others who invested into the Knowledge of Themselves into exile. And since we banished the light, the darkness has been successfully established until today. Myself, as a bright descendant, who

has been awakened and accepted the supreme teaching, I feel the obligation to fight as their representative to expel the darkness within me first and then from those who surround me and to bring the bright season. Simply because our nature is light, not dark, like the one they have imposed on us by those who worship only money.

When will we finally understand that governments and their money printing masters we have sold our lives and that we are, since then, their property? Like pimps in order to maintain their expensive living lavish prostitution and sell our fellowmen. That's what the current misanthropy misanthropic leaders poor countries: all wide smiles of hypocrisy.

There is no worse prison than the prison of our mind, which they have created through the media, with the daily fear, the anxiety, the financial problems so that they rave every single moment. If you're used to such an everyday life and wish to continue this way, you already have it. But if you do not want it, select this message of hope for the turnaround of our internal and external freedom.

The foxy organizers of trade with their tax offices have created side – trade indirectly for those who could open shops and some of them are forced to steal and sell cheap to make ends meet. This is another crafty trick to divide us. The shopkeepers are against those who sell cheap but buyers want them so that they can buy cheaper. So again we have two camps of divided people. First, we create thieves and then we create financial police to catch them. But when the state will cut its own money we will not need tax offices anymore. Those who want can sell their goods in their shops while others can sell them in specially constructed areas. And so we will eliminate the perverse mentality of “live and let die”.

An incredible era for a new bright History for humanity has come! To pass from darkness to LIGHT, and from igno-

rance to KNOWLEDGE. Understand that all evil comes from ignorance of Ourselves. And all good comes from the Knowledge of Ourselves.

10) The immigration issue

All of us are immigrants on this planet. Governments are those that divide us and not allow us to understand that we are coming from the same Creator. The indifference towards the poor conditions experienced by our fellow men that come to live in our country, driven from poverty created by inhuman governments of the dark world system, brings us in conflict with them. The result is the increasing and inevitable reaction and disappointment, manifested in mental and biological disease like schizophrenia, or suicide with alcohol, drugs and prostitution, scams and crimes that works us a domino against us.

We have to offer them genuine interest, which stems from the innermost love and understanding of the Knowledge of Ourselves. As none of us would desire to experience such subhuman conditions and we would long for help, in the same way we have to care for these unlucky and hapless people around us and help them to get out of their unacceptable sad situation.

For the materialization of our love and compassion we will invite the foreign representatives of all communities for information. Distribution of land directly from the state, volunteer work and financial help because we will print our own money, for building houses, cultivation of the land and apparel. This noble effort will light the first spark of hope, showing them that some want to help them. They will be given the beautiful opportunity of cooperation, personal creation, in order not to feel incompetent or outsiders. Frauds and

crime will be reduced until total disappearance when they deal with the saving Knowledge of Ourselves, which heals them and will release them from ignorance, unconsciousness and wandering. Later, the inspiration and awakening for our mutual coexistence and the gradual collapse of divisive partisan labels and borders will eventually come. People will understand that we all belong to mother nature which is blessed with the gorgeous elements of sun, air, earth and water, which are offered free of charge and no government gang in the world has the right to possess and to deprive citizens and enslaves them to a life in bondage. And all the people will learn from a young age that our earth is like a big hotel that serves a big variety of travellers. And that none of these visitors owns this hotel, although it is available from our Creator hotelier for any newborn visitor.

Let's consider with seriousness and realism that this aspect of property and greed is the main reason that we still need borders and wars, which are still perpetuated today by the lack of Knowledge.

11) Nationalism and racism

Let us examine more clearly and with as much sincerity as possible how we have been misled by the dark ideas of those who have set up from the dawn of time the logic of "divide and conquer" and perpetuate until today to keep humanity in the dark with hatred and wars, and the artificial poverty with complete enslavement and misery:

Firstly, our blessed mother nature does not belong to any country. The sun is not Greek, Turkish, Albanian or American. The air does not belong to the Chinese, the Indian, the French or the Japanese, the water is not Portuguese, Romanian, English or Russian, and the earth is not Australian,

Cuban, Vietnamese, Polish and so on. It is so obvious that the Creator of our mother nature did not put boundaries on land, to divide his creatures. But the boundaries have been put by the gangs that have divided the land according to their strengths and we absolutely have to get rid of them.

Secondly, human beings when they come into this world have absolutely no tag of ethnicity on them and that their minds are empty. And depending on which country they will be born, their minds will be sealed by their parents with the respectable label of the country. If they are born in Greece we call them Greeks, if they are born in Germany they are called Germans and so on. This perpetuates ethnic divisions using supposedly homelands; with the tragic result of the wars in order maintain gun industries. And they have managed to convince people to work in these industries to earn money to eat and house themselves and their children, creating weapon systems for our mutual extermination. And if you ask any father how he would feel if his own children were killed in one of those wars, you will see that this is something that hasn't even crossed his mind. We are totally indifferent towards the fact the someone's children are getting killed, as long as we maintain our job of building weapons, to feed our own children. While in fact homeland of all creatures is the same land that sustains us all together with the sun, wind and water that we all share. You see clearly the division that they have succeeded in each person with the issue of different nationalities. They, who are affecting and fanaticize children and mark them with tags of homelands, religions and political parties, are motivated by the conspicuous masters, whose only purpose is to perpetuate the divisions with subsequent wars, that the paranoid gun industries are wishing for.

We can recognize hypocrisy and betrayal of the leaders by TWO criteria in order to understand beyond any doubt that they are servants of the world's rotten system.

FIRST: those who remain party leaders without resigning from the labels and those who are presented as newer saviours of the nation with new labels and banners, are those who are creating their devious destructive divisions to their people. And all of them are presented as representatives of the people, while in fact they are the creators of countless suffering and our own premature gravediggers. Along with the rest of the clan, from the top to the least insignificant, they are possessed by the global carcinogenic disease of mind, the unconsciousness, and that begets the inevitable illnesses sisters of selfishness, hypocrisy, cowardice, fanaticism and arrogance. Let them be the first to join rejecting the all the labels and the parties, in order to unite the people and their lives with love, dignity, peace and prosperity. Then they will become true representatives of the nation. Please understand as quickly as you can that the party leaders keep the people divided; this is how the leaders of nations have divided the whole world of this planet. Consequently, in each country we have intentional divisions, so that the nationalities and the ideas of "homelands" maintain, as I mentioned before, the dirty wars of gun industries. The sooner we understand this, the sooner we will eliminate these sneaky, dirty tricks of people's gravedigger and save our children.

SECOND: Those leaders, who do not print money for their own country to ensure a decent living for their people and their complete exemption from the foreign oppressors, are fake saviours for the nation.

These two criteria are the "trademark" of the lying politician, representing the representatives of poor people. And they

are so simple and definite that they can be perceived even by an elementary intelligence.

12) The prevention of civil wars

Imagine millions of people trapped in the out of cement prisons that we are call cities but in fact are gas chambers, being dependent by money printers and by some farmers who bring us food. If the gurus of the economy stop to give us money, where will we get the food, since farmers want money to provide it? Do you realize the extent of the civil war and the spoils they are able to create any time at any society these financial brutal criminals who hold the whole globe enslaved in their hands? Do you think that these images are distant? So you consider them as pure imagination? Know that they are already happening but very few of them see the light. If we do not unite by abandoning the sick party leaders who divide us and fanaticize us for shoddy and corrupt interests, I am very sorry to say that they are on their way, they will come and we will experience them. It's the designs of money printers who have gone crazy from their god which is money and have become misanthropic and destroyers of everything. Ask yourself why, since they can print as much money as they want, they do nothing to eliminate the gap of poverty and wealth and allow to frauds, prison, crimes and wars to be perpetuated. I hope that if you ask yourself with seriousness we will receive the response from your awakening sweet consciousness that always responds to honest questions. From this single wonder you should understand the cruelty and illegally. But people seem to prefer indolence from awakening. Darkness from light. Today we have another opportunity to open our eyes. Will we seize it? I did it and I encourage you to get to know each other as well as the other enlightened

kingdom, the one in our hearts, to expel the darkness of mind in us and avoid giving our vote to obscurantist.

I believe that I do not have to write more about the treacherous games on homelands divisions and parties, because for adults the things are so clear thanks to their maturity and experience. We are so awake and aware through technology that we mustn't tolerate such obscure ancestral traps and to transmit them to our children also. Because tolerance in darkness and illegality is complicity. Up to a certain age we are not responsible for the labels that we carry; we had no choice because if we were young and our parents make the decision on our behalf. But after puberty, we have the option to refuse compromises and take our personal responsibilities for our daily journey. We can sit back saying that others have defined our destiny, to stray from our responsibilities. Each one of us knows inside him where he belongs: to genuine or to hypocrites.

I try to awaken young people in particular for the pitfalls that are awaiting them, because adults do not wish to change their hard disk, which is already burned. They are used in living with misery and hypocrisy. The perpetuation of traps is based on influencing every blessed new generation that does not know the dirty work of cunning demagogues and needs to be informed before they burn their hard disk as well. So those unscrupulous men prefer a superficial life, think they are leaders and privileged over the rest although they perpetuate the most horrific evils. While with just a simple shift, if they seek to know their divine Self and accept their wrong path, they can contribute to an unbelievable change for themselves and everyone around them, so that humanity lives in an inner and outer paradise. Because, as long as we remain slaves with the acceptance of the dark ideas will enslave our children as well and will transmit to

them the dark ideas. Slavery or release of every man takes place first inside him from the ideas that he carries, dark or bright. A dark idea will lead to slavery; a bright idea will lead to freedom.

With two simple, healthy and collective ideas the destiny of the world can change. With two obscure ideas global mafia has enslave and dominate mankind: by printing money and by spreading the rule of “divide and conquer”. In order to achieve these two fundamental plans, that support and perpetuate their rotten system, they sought consolidation with those who are the same to them and they managed to implement their purpose until today.

In exact the same way, as an antidote for the release of every people, we need the awareness and awakening that we join us- complete waiver of divisive and corrupted parties and the printing of money from the united people for the materialization of our own goal: the extinction of poverty and our liberation from the dark oppressors. Only then we can stop the looting, the revolutions, the national and religious wars, and as a consequence all gun industries will close down.

Allow me to express one humble opinion from my personal experience. Things are very simple for people of Knowledge, who have found in them the simplicity of heart. And for others who live in ignorance and the complexity of their minds, the same things are complicated.

Epilogue

Those are, my dears, the men of the world's rotten system. They are presented as saviours and mentors of the people for a better life, while the gravediggers and perpetrators of dark history, to perpetuate mercilessly over every blessed upcoming generation. They are responsible for the decline of the people, appear to offer service and behind their camouflage they dominate the unscrupulousness, the betrayal, the selfishness, the servility, the greed, the arrogance and the hypocrisy. All of them promise that they give their best. For what though? For one thing only: the milking and the killing of the people, in the same way that shepherds do with their lambs and horses' owners do with their horses, once they break their legs they kill them on the spot because they do not bring them any more profit.

These are the links on the have heavy chain that ties hands of people. They cycles seem independent to each other in order to mislead, but they are all offshoots of the dark world system to befuddle hapless and enslavement of peoples. They even use variations from country to country, forcing us to accept that if the same has happened to other countries as well, the miserable conditions are normal, that's how the media suppress the reaction and the awakening of people.

Do you want them on your backs? You will undoubtedly have them, if you remain indifferent towards the discovery of your divine Self.

If you do not want them, get to know your true Self, to achieve the clarity that we all carry within us and they will leave on their own, as darkness disappears when we turn on the lights or with the sunrise of the majestic sun. The maintenance of darkness or its disappearance depends on us.

Let us start thing about it and communicate it in any possible way, to assimilate that each country can be released by the antidote of the fundamental awareness of the most simple reality, WE MUST PRINT MONEY OF OUR OWN. Why only our rulers? From where did they get this right? Until when will we tolerate this cunning ploy by the evil of darkness? Have we agreed in remain in indolence and accept anything?

They play chess with people of chessmen by printing money and making them suffer in countless, brutal ways. By our awakening we can stop playing their game and start our own, printing our own money. And this is something different: we do not enslave anyone, but instead we liberate and inspire other people on how to free themselves.

I feel that the time has come now, with their schizophrenic immoral behaviour, to seize the opportunity that those driven by their minds have given us, and to wake up and act. This is the most convenient opportunity to overthrow the dark world establishment. Liberate ourselves and the children of our children.

After awakening the people of all countries and each governance, let's come up with a world currency until we fully understand the global consolidation and the necessity of cooperation by noble volunteering that will bring the demise of the devil (in Green devil means διαβολικό coming out of the word διαβάλλω = to calumniate) money.

This noble collective vision is an individual and global recruitment message for the disappearance of darkness, with the incomparable difference that this is a voluntary invita-

tion. While invitations of mobilization which are supposedly “for our motherland” and the extermination of our enemies, are mandatory: to kill! And if you do not want to go, the leaders of your “mother country” that create wars, kill you so that you do inspire others.

Please try and understand the difference of this message from all the others, of course everyone in their time: if you realize it, it will become your talisman and the release paper for us and our offsprings. Because it clarifies the way for internal and external release. Internal release with the pursuit of Knowledge of Ourselves, which is offered in a practical way through the teachings of the true Teacher. And external liberalization with the denial of our rights to the lying parties. Let's learn to vote for ourselves as pioneers in the new brilliant season. You must make up your minds in order to experiencing your release. I could not liberate each one of you. I am just experience my release and I am showing you how to release yourselves, each one of you. It is your own choice and effort.

Mankind is oppressed daily by attacks of intentional economic problems, illnesses, frauds and crimes of the dark triangle of money printers, rulers and the media. Therefore, suicides, revolutions and wars, civil, ethnic or religious, are perpetuated.

What are you waiting for the counterattack, which will lead to the disappearance of chaos and darkness? Do you expect aliens and angels? We are our own aliens and angels, but you do not realize it, so everyone pays the price for their ignorance.

In this essential message the unexpected opportunity to make a difference in everyone's life is offered. And everyone experiences the participation for their release. Today is the time for our most noble and decent counterattack: spoils with-

out bloodshed and revolution as the dormant ancestors, caused by the global rotten system and perpetuates the darkness. But only with the subtly powerful weapons Knowledge of Ourselves, our consciousness, love, kindness, respect, awakening, confidence, hope, faith, understanding, clarity and decisiveness. This is the most real NOBLE REVOLUTION FOR EVERY HUMAN BEING.

Our personal fixation requires from us to perpetuate slavery, not only for ourselves own but for all the next generations as well. Now it's time for our own awakening and liberation to get away from slavery and live freely and with dignity for our children. This is for me the ultimate act of every human being worthy of our Creator. Because our Creator equals freedom, love and peace and belongs to freedom, love and peace. While the lying politicians equals slavery, hatred and war and we do not belong to slavery, hatred and wars at all.

The necessary and liberating effort for a governance by visionaries of the general good and the printing of our own money will attract the interest of other countries for their liberation, as well. At the same time it gives the opportunity to the lying politicians to get away from their unscrupulous rulers as well. With complete obedience to their bosses, because they are richly rewarded, they enjoy immunity for their wrongdoings and privileges - having sold their conscience to money printers - trapping and affecting people who sell their consciences to their "rulers". As a result, everyone is alienated with this sick mentality, the selfish compromises and the killing of each other.

However, the ultimate opportunity to release themselves if they want is offered, and unconsciously their bosses, because ultimately we are all the same substance, the same Creator. The same subtle energy weaves us in our mother's womb. But because of our ignorance we have addressed the learn-

ing of our differences. Let's try to learn our similarities, to operate tuned as the divine universe is uniform, there is no separation.

Eventually all of humanity is trapped by dark thoughts of some ancestors. Ignorance and unconsciousness perpetuate our misery. Internal slavery and filth of our mind will disappear with the knowledge of oneself, which gives consciousness, freedom and purity in every person. And our foreign slavery, which he achieved with his gun money will disappear with the same weapon of money we would cut.

The links that have made the dark progeny and today the chain of global rotten status quo, only to slavery and the destruction of humanity with the predetermined continuous fall. Today, with the return of the true teaching in the face of Prem Rawat, as a leader for 45 years of an exciting global project for uniting the nation and improve the lives of the weak have become steadfast foundation that invites everyone to break the chains of slavery , to become a volunteer loops to create a global chain otherwise. This chain is a garland decent, noble brotherhood of human beings with a view to continuous development for our upliftment. Let's leave behind the darkness experiencing the bright present, which creates a bright future for the coming generations blessed us. This though is not called respectable supreme creations of success as our benevolent Creator.

Let's not be influenced by the wicked detractors and interpretations and the noblest our purpose. Those appear as your guides, if you do not drive in the kingdom of the heart in a practical way to experience the inner freedom, your drive in their pockets and in their minds, to have your slaves = containers used their ideas.

Those who are trying to discourage you from your new healthy way of uniting and cooperation will be:

- the guards of our divisions, especially the members of the Parliament that have made up today's rotten politics, that's why they are paid, this is their job, and doing it with the "garment of sheep" as representatives of the people.

- those who remain indifferent because they want to feel superior with others below them.

- the stranded who have given up hope.

- the truly divided, for they do not wish the union because it is through divisions that they relieve their internal war. This war is the worst because it has no ceasefire and surrender. It is raging forever and sicks people, then why do wars with their neighbours to feel victorious. While the knowledge of oneself will learn how to overcome the divisions without pursuing wars with our fellowmen.

- the bosses, who will see that they will lose their slaves and will not increase their wealth, would not fill the jug with the sweat of the poor.

- and the opponents of the dark triangle money printers, lying politicians, the media, with all their different clan masquerades of their miserable circus. Why would intuit that they will lose their dark game and long-term criminal plans.

The reactions are numerous and unavoidable: a food other like it, others do not like. So this noble vision, others will like and others I would not like it. Be careful, therefore, not astonish you and miss your ultimate opportunity of your freedom and of the children of our children.

I hope it will disappear gradually the seeds of divisions with the awakening of the consciousness of the people and will not grow back trees with fruits criminal who kills living beings blessed. Knowledge of ourselves we become AFYP-NISTRIA and armor for any war we want to make us the seeds of division. Now we live in the most beautiful season, the true Master has come to join the first man through to the Cre-

ator and externally with other people, guiding and inspiring all humanity.

What to fear when students become powerful supreme power of life itself, which creates, sustains and destroys everything in no time? Her divine superpower become students to nikate any war and your apprentice's infinite power and infinite wisdom. Embed holy, majestic polite and vision, the combination of creatures, such as the mother tries to collect and reconcile her children, who fight and killed because some have divided the wicked, to sell their knives and pistols with killing them. THOSE WHO ARE TRAPPED FROM ANCHIENT SUPERHUMANLY THOUGHTS WHICH ARE EITHER UNWRITTEN ON WRITEN HISTORICALLY AND THEIR INFLUENCE PEOPLE'S BRAINS, USING THEM AS EXECUTIVE DESTRUCTORS FOR ANY KIND OF LIFE.

What we need is the patience to grow continually and must be accompanied by true love, respect and understanding for the creation of a large group of selfless volunteers will unite to serve the country. And let those driven by their minds their dreams for globalization of slaves, because they have forgotten. Remind them of the law of the boomerang. Those who want to avoid it, resign from his vision of enslavement of our fellow men.

Let's make a difference today and remember that the greatest journey begins with the first step for everyone. The POWER IN THE UNION AND THEREFORE IN AWAKENED VISIONARIES OF THE COMMON GOOD as together the visionaries and the general evil. But there is one big difference: they are united by selfishness, fear, hypocrisy and subservience. We will be pooled from personal selfless choice for the general good, courage and authenticity.

Anyone touched by this true message we communicate it, for we start implementing the most ideal and decent our vision. And only the notification message put everyone one stone

for the new noble edifice us. Even if you do not feel prepared now, do not stop the disclosure of this message to find the original core-prepared and determined, as it is for the good of us all. Later can come is your turn to inspire those around you. Here, consciously or unconsciously promote the media, darkness and chaos, infecting each other with tragic results, everyone paying the price for his stupidity. By promoting a more hopeful and decent message will feel proud of helping our fellow man. This will lead to faster release than the oppressors of darkness.

So let's prepare for the next election, do not vote for anyone but ourselves, our VISIONARIES OF COMMON GOOD. Do not expect them to solve the problems that they created. Then it is as if we have completely steal intelligence.

None of us are stupid. Instead we are intelligent. All we can govern themselves and we know because we do everyone a personal level. Why should we continue to behave like idiots and let us denigrate the lying rulers, why not let the indescribable force our heart to make us masters of ourselves totally rejecting their obscurantist? Feel it is time to stop moving only from the mind but to coordinate with our heart. Instead of being driven by their minds they will be driven by their hearts!

If you invest in this so simple and selfless message of transformation and understanding of each of us is a powerful defensive weapon for the eradication and prevention of suffering and the sick crime. We need to create each of us the circumstances surrounding the peace, dignity and prosperity. This is our divine nature.

Till we meet again and try to invest with sincerity and seriousness in unparalleled divine knowledge of oneself, which is freedom and salvation for every human being. We finally have a polite standard regime, which wanted the Creator of all creatures, all Masters who came and will come and all the

creatures that are on the blessed planet. Up to us to do the wise choice.

Remember that what is proposed here to become a reality, we need participation. Because if everyone laurels that will make someone else would remain a theory paper. Observe only the daily bombardment of financial problems. They are continuously trying to unfocus us. Stay focused!

My hope and encouragement to everyone to search for the true teaching of each season, which comes to us inspires and awakens us to recognize the God within us and be worthy heirs.

I greet you with the love of my heart
With respect and appreciation

Knowledge is the spade to dig the earth inside of my heart. This is where I found the endless water of true joy. Why to run to the circus of illusions, trying to find joy in muddy water and poisons? Knowledge is like a well that has water in it, and offers maintenance for every traveller. Everyone is presented as wells but not in the water and whoever falls in or stays trapped there forever or dies. Knowledge reforming mankind and turning the wheel from the degradation and the innermost apolitismo in evolution and culture. Knowledge is a leading therapist. And when we want painlessly removes all infectious qualities of mind-ignorance, selfishness, jealousy, hypocrisy, greed, unscrupulousness, disastrous for us and those around us that is the cause of fixation in our everyday illness and decay. Knowledge is the life preserver for each cast-away. Is the jacket for the whole world. Ignorance of oneself is the vehicle of hatred, disrespect and darkness. Knowledge is the body of love, respect and enlightenment.
