*How indescribably I thank You, our  
Beloved Master, for weaving the  
Magnificent and Incredible Story of  
My Life, revealing to me that You are  
our Lord that most of us have been  
waiting for, and anointing me to real-  
ize that I am an eternal creature of  
yours and heir of your Divine  
Eternity!*

I warmly thank my beloved mates and brothers in Knowledge Costas Panagopoulos, typesetter, and Helen Sergiou, translator, for the kind collaboration to complete this book and I hope that it is constructive for the hearts of our fellow human beings.

## *A few words about the author*

*I* happened to be born on Christmas Day in 1947 in a very poor family with four children, who have been orphaned by a father since I was a 2-year-old child. I was born in a district with a low standard of living—in the vegetable market of Athens—and I spent my childhood in the cafes of the area where I learned to smoke and gamble, and in the taverns and bars where I learned about alcohol and lust. I was so obsessed with gambling and alcohol that they became second nature to me—completely embedded in the daily habits of so many years—that neither my marriage nor my children could pull me out of this miserable life!

*In a short time, until I was discharged from the army, I could count that I had gone through at least twenty-two professions. In search of a better wage, I was constantly changing jobs and from a young age I started by dusting a barber shop for the tips. Then I worked as an ice cream vendor with a donkey and a carriage, a grocer, a waiter, a shop assistant, a photographer, an employee in billiards, a roller coaster, and a paint salesman. At the age of 16 I became a sailor and then an immigrant for two and a half years in Australia. I was also a worker in a factory that made screens, a worker in a car industry, a confectioner, a manufacturer of gym bags, a shirt ironer, a painter, a blacksmith, a builder, a distributor of fibers by a van, a driver of vehicles that curried water for civil works, a distributor of orthopedic articles and leaflets, until I decided after my marriage to become a taxi driver, so as not to have a boss. My temperament was, and is, that of a bird that flies out of the cages of this*

*world. I mingled with all the castes of this world, especially due to my last job as a taxi driver for 38 years!*

*Imagine a child who from the age of 7 anticipated every day for the moment to finish school, run home to throw the schoolbag, and go to play soccer and gamble! I had become an expert in the twisting game which was popular at the time, in 1960, and since not many cafes and billiards existed, we played outside in the streets with coins heads or tails, twisting them in the back of our palm. I remember that 3-4 times a week we bought pasta and bread for our home; there were no maintenance resources from anywhere and it was a matter of survival. So, I had become an expert in these games, so that they were almost integrated into my True Nature. Gradually, as cafes opened slowly-slowly in our small neighborhoods, and I had grown a little, about 14-15 years old, and as there was not much policing in those years, I started playing cards at the green felt table.*

*For a child, playing cards and backgammon were so tempting that the passion that had been developed from the twisting game and the necessity of profit led me very quickly to become a gambler unimaginably passionate. Imagine that gambling was so powerful on me that my brain cells were thinking even in my sleep about gambling and dice so that even in my insomnia I planned my tomorrow's card game. When I had a job I went to my job, but my mind was on the moment of finishing and go to the café to play. I remember becoming so addicted that whenever I gained money from dice or cards, I lent to my teammates who lost in order to keep playing and, as a boomerang, I ended up losing.*

*My poor wife often came to the café with my brother and his wife to take me because after the neighborhood café closing, we had found another one in Thissio area which stayed open at night and we were going there to continue playing, not going*

*home for 30 or 48 hours, especially during the Christmas holidays. Out of shame that I lost all my weekly allowance, when I got paid on Saturday, I went straight to the café and had no money to give my wife going home on Sunday morning. Twice I wanted to disappear, not to feel that I existed but the existence of my children kept me going and I kept promising myself and my wife that I would give up cards, but one promise followed another. It was impossible for me to break free from my embodied —my second nature— destructive gambling habit. Imagine that my long-term dream and my ultimate goal were to retire in order to be able to be in the café all day! Honestly, I envied my retired teammates because I was forced, after the end of my work break 2-5 at noon, to stop gambling and run back to the job I was given by each boss I had.*

*As far as alcohol is concerned, I was so addicted that I remember having a bottle of whiskey on the back of my bed so as to sleep. And as soon as I woke up, my tongue had to taste whiskey so that I could get out of bed. And every hour of the day, whether gambling or working or being in the car, I definitely had to have by my side wine, beer or whiskey to take sips-sips depending on the occasion. My hands started trembling, my stomach was aching unbearably, I was taking pills to temporarily stop the pain, my headaches and the constant cigarette cough were bothering me unimaginably. The incessant vulgar swearing, the unbridled lust, and the decay I felt, made me feel so deeply ashamed of myself, seeing my increasing misery and degradation from human to subhuman.*

## Dedication

*I* feel the need to express to you the reason why I have dedicated my Life to our True Master and to His Supreme work. Because he showed me a practical way how to come into contact within me with the Indiscernible Divine Energy, Life itself (God)! Then Life itself showed me that it was the one who wove me in my Mother's womb without any intervention from my biological mother during my weaving. Therefore, the Inner Apprenticeship that my Life offers to me has made me realize that This is my Primordial Mother who wove me in an inconceivably wonderful way. It simply uses our parents as its partners and mediators so as to come into the world as new visitors, to recognize it, to realize its Indescribable Magic and its Magnificent Environment, which has created only for our fulfillment and evolution!

Thus, when I realized that I am Its Creation and I have made absolutely nothing in my body with my own hands, not even the Sun, the Water, the Air and the Earth, which have sustained us continuously for centuries, so I am totally one of its Miracles and a Gift, so, I belong only to It! That is why I mention it after my realization as my Primary Mother Life! Because the fingers that I have now to write to you anything about It, and the experiences and realizations that are so kindly and generously offered to me, are all its. So, recognizing that everything is its, having absolutely nothing of my own to offer it, the only thing I can do with its Gift, the Choice which it has given me, is to dedicate my whole Existence to my

Mother Life and to Its True Representative, who introduced it to me inside of me, through his Gift of Self-Knowledge!

As a natural consequence, with the Grace of our Mother Life and our Master, who have allowed me to write what I have written so far, I dedicate it all to the whole of the Human Nation as information. I hope and wish with technology my writings will reach even the most remote part of the Earth, touching some heart, and maybe it will become interested in discovering and recognizing its Principle, Life itself through the Knowledge of the Self! Our Current Living Master Prem Rawat makes it possible for those who sincerely desire it in this Incredible Era that we live NOW with him! In this book, I recommend the way in which Man, and consequently Humanity, can be liberated and saved.

My statement comes from the experience of investing in our Self-Knowledge. Only through the Living Knowledge of the Living Master can the Liberation and Salvation of Man be achieved now that he lives, and not after death as it is advocated by various religions. Which, of course, requires investing part of our time to become disciples of Life itself, because only It offers the Supreme Experience that all human beings seek, some consciously and some unconsciously. In the Bible the evangelist JOHN in Chapter H' and verse 32 says, *"And you shall know the truth, and the truth will set you free."* Also, in verse 36 he says, *"So, if the Son makes you free, you shall be free indeed."* No religion can save Man by its rules and formulas. And do you know why? The reason is because Life (God) has absolutely nothing to do with religions. It is Freedom in itself and cannot be molded by religions. You just need to become a student of Life itself in order to be free. And for this to become possible, it sends each different time a Living True Master. Whoever accepts this will be able to be saved! Whoever-

er rejects this in slavery will succumb. It is in our hand. We have been offered the magical possibility of Choice.

I do not try to replace in my own words his Savior and Blessed Words. I simply confess the Indescribable Love, Devotion, Gratitude and Respect to our Beloved Master and at the same time I dig out the harvest I have gained from the magnificent apprenticeship of the Knowledge of Self!

I recommend him to you in order to be interested in experiencing the Incredible Magic that is inherent in each one of us. He offers us a practical way to discover it so as to make our daily trip as beautiful as possible!

## Introduction

Self-Knowledge is a purely personal Inner Practice, the Highest Experience and learning the Art of how to become acquainted with the Life itself within you, which is surrounded in its entity by the most wonderful attributes of Divine Love, Divine Peace, Divine Freedom, Divine Bliss, Divine Wisdom and every noble and beautiful that flows from its Pure Source within us! These Divine qualities do not reside in the realm of the mind. The mind is the residence of the senses, the imagination, the thought and the perception only for learning the material world that surrounds us. The Highest Learning of Our Self-Knowledge resides on the Indiscernible Pulse of every BREATH, and provides the incredible Choice, Opportunity and Possibility to anyone who wishes to experience it.

Our Creator, who weaves his creations = our bodies, into the bellies of our Mothers, without any intervention from them or ours, has placed an Internal mechanism Invisible to the external eyes, but Internally existing, so that Man can —his Creation— to experience whenever he wishes The Divine Feeling with its deepest mechanism, which has been identified with different names of Humans: either soul or consciousness or heart or the deepest being of ours. The Essence where one feels the Highest Inner Fulfillment is not in the words, but in its depth and only the one who experiences it knows it!

I feel the need to inform you with my written words hoping to inspire even one heart, because if one is touched by this Inner Magic of his, I am absolute that he will become the Bearer of the Noblest and Most Wonderful of His Work, which has been man-

ifested incessantly with an increase for 54 years. He started it locally in India when he was 9 years old, when his father, a former Honorable Master, left him as his successor before he died. So, at the age of 13 he started on a global scale, where he found me and showed me an Indescribable Inner Path, because I knew only external paths before I met him!

Let me express one of the most important realizations of Inner Learning from the Divine Knowledge of ourselves. If the Supreme Power had not sent in every age the Incarnate True Enlightened Masters, the Human Nation would have disappeared by ignorance, carnal worship, disrespect, arrogance, hatred, and the schizophrenia of the mind, being drifted away one by another! But fortunately, with the Grace of the Infinite Kindness of our Creator, the Living True Masters come to us as lifebuoys to the shipwrecked and as beacons in our darkness offering us the most MIGHTY WEAPON, the “KNOWLEDGE OF THE SELF”, which vanishes ignorance along with all the evils that flow from it and annihilate us.

With the help of the power of Mental Discipline, carnal worship is dominated and the student discovers in himself the Highest Feeling of Respect, and eliminates disrespect, realizing within himself the Simplicity of Life itself. He eliminates arrogance and feeling inside the indescribable Mental Health, full of the deepest Gratitude, he eliminates the schizophrenia of the mind! This incredible Inner State can happen to students who invest in the Highest Learning of Self-Knowledge!

I hope that when you search in the websites some speeches and excerpts of the PREM RAWAT Global Fascinating Work, the time of your attendance will be very constructive.

NOW it is OUR INCREDIBLE TIME to change personally so as to change the History of the Human Nation, feeling each one of us as a participant, to leave the Most Pious and Dignified Traces to our Blessed Future Generations. Opportunity, Possibil-

ity and Unexpected Choice, are NOW HERE! We are very dynamically inspired by the Indescribable Universal Work of our Master which is already manifested all over our Planet!

Let us unite all the visualizers of the “General Good” for the realization of the most Magnificent and Noble Vision of our Mother Life! The World Union of Its Creations for the elimination of slavery, pain, misery and wars! Like the Mother and the Father who seek to reconcile their children to be loved again, because some misanthropes came in and divided them, in order to give them weapons and all the similar so that they could hate and kill each other.

Now it is time to wake up; the scattered brothers to hear the SWEET CALL of the Master, to unite and not allow again criminal manipulators to impose on us the “divide and rule.”

PEACE ON EARTH AND WELL-BEING IN MAN  
WHAT OUR JESUS CHRIST HAS PROMISED!

Not religiously, but for every Human Existence on the face  
of our Blessed Earth!

EXPERIENCE IT, IT'S HAPPENING RIGHT NOW!  
IT IS THE BRIGHTEST TIME SINCE THE HUMAN SPECIES  
WAS BORN!

## **Socio-political Issues, Realizations and Experiences**

Our Self-Knowledge dominates our interest in the General Good, in Justice and in our Beloved Peace and Freedom! Do not think that Knowledge isolates us from the community, but on the contrary, it pushes us as a separate unit for awakening and consolidation of Peace and Divine Beauty inside and outside us!

### ***You have a great responsibility***

---

Keep in mind that you have a great responsibility with the ones you vote because you represent your children and others who do not vote! I have one wish; I have no other more important! Go back to your consciousness to start waking up, to realize the rejection of your divisive parties because your mind that you have given to their minds will send you either to suicide or to madness like many of our fellow human beings.

Everything works like a DOMINO; no one can escape and one day sooner or later the evil will knock on our door.

I remind you that all the current rulers are our early undertakers. Understand our necessary reunion!

Let us unlearn to vote for those who have been prepared for us by the rotten system with the candies of WILL, WILL, WILL, in order to learn later to vote for ourselves in the unifying and human-centered movement of the visualizers of the General Good.

Only in this way will we create new rails to take the train where we, the united people, want and not let the artificial oppositions go on their rails continually by deceiving with dishonest methods so as to keep us in divisions. Divisions bring all the tragic sufferings to the peoples and through this cunning trick the world dark system is perpetuated.

### ***The cunning world system***

---

Each state or power singles out the most vulnerable, the most ambitious, the most insecure, the most selfish, the most hypocritical, the most physically attractive, the most unconscious, the most enslaved, and puts them in the net of the world rotten system. It places them into key positions with the lure of money and promotion, and transforms them into rhetorical trappers and they in turn trap every generation, and thus the global mafia grows and perpetuates. And with the consolidation of the camouflaged industries below, “for the benefit of the people,” they circumvent the debauchery, the dependence, and the destiny of the crowds.

The music industry, the entertainment industry, sports industry, the media industry, “education” industry, money industry, gambling industry, alcohol industry, prostitution industry, drug industry, the medicine-diseases industry, food industry, politics industry, classical science industry, philosophy industry, “spirit” industry, technology industry, weapons industry, gang industry, and so on and so forth.

Now, the trapped fans of every industry know their set up criminal game, and if you ever want to be un-trapped, I recommend our Liberating Self-Knowledge. If you do not want to, at least let the new generations be informed in order not to be trapped, so as for the gigantism of criminal colossal organizations to stop.

We do not come here to the Magnificent Paradise from our Creator to be slaves and unhappy but to be FREE and HAPPY! The proof of the real joy is innate in all the blessed little children as we were as well, but they buried it in us and transform us into human-devils, while our human nature is to be HUMAN-GODS! We can today, with the Knowledge of ourselves, feel again truly HUMAN-GODS!

***The money that the unconscious has  
enslaves peoples and corrupts them***

---

Money intervenes in almost our entire life. How can we not imagine our life without money? Our culture without money? Our society without money? How can we not see the opportunity that technology has given us? The time has come to stop Trade and start Distribution. It's time to stop selling and start sharing. Technology and science allow us to do that.

Never has it been found something to be as bad for people as money. This destroys states, leads people away from their homes to adventurous life, entices and corrupts the honest and pushes them into lewd deeds. Money taught people deceit and disrespect, said Sophocles (Ancient tragic 496-406 BC). I absolutely agree!

The necessary and imperative pursuit of money has brought about individual and global catastrophe with indescribable tragedies. The greatest tragedy of all is that we have become so attached to the pursuit of money and we have been completely alienated from God within us and now we are life-long prisoners to our tyrants and we constantly vote for those who consider us as mosquitoes and they are presented to us as our representatives because they “love” us very much. They will drink our blood with a straw little by little, and when we have been completely weakened, we will curse the day we

were born, for those who will not have contact with the Savior Knowledge of Ourselves. However, it will be too late!

I have the exclusive right to issue money, and I lend you the money you use.

And what do you want as a rent?

Interest, that is, more money!

But since only you have the right to issue money, where can I find more money to pay you interest?

Ha ha ... you won't find it!

Then;

Then you will be indebted, you will be confiscated and you will live as a slave until you die.

When a state does not define its currency, it becomes a slave to those who lend it to it. Do you understand why you are never going to pay back?

Why should some have the exclusive right to issue money and lend it to us to live on? Therefore, we and our children will always be enslaved to the usurers on their own terms, who will want our misery and our whole country to be conquered as it has already been done by their own, who have given us as “our rulers.”

So, it remains to issue our own money and in order to do that we must replace them with genuine, honest servants of the people, so as to take the reins of our lives and get rid of our false leaders! That is why we have created a socio-political

movement of the “Visualizers of the General Good” to find real people to work together for this noble purpose of our liberation and for the General Good! For this reason we rented a room to get to know each other face to face, to gather regularly, to exchange views and to work together honestly and responsibly for a better world!

Let the New Year be the BEGINNING of a constant effort full of passion, awareness, dignity, to shake off the dark history that has been imposed on us from the depths of centuries. Let's create a new Light History for us and our blessed generations to come!

They issue money for the slavery of peoples. We will print money for the liberation of our people and we will awaken other people to adopt it.

And when the world brotherhood is achieved, then we will not need money because everything is made by our hands and not by money.

Today We Can Make a Difference! The Strength in Unity!

### ***The benefits of issuing money from the real government of the Visualizers of the General Good***

---

Let us now look at the wonderful results that can result from the obligation and care of the new state to the people.

First of all, elimination of the stress for tomorrow because they will not be chased by any debt since they will have their basics secured. Rent, food, clothing, by the salary of community service, water supply, electricity, heating, telephone and free transportation, so that we can all live with dignity. Recovering the hope in them, that at last there are some representatives of the people who want to reduce the problems to extinction, and not to create and increase them as the former un-conscientious politicians did with their predatory cliques.

They will have no anxiety about their studies, nor will they think about migrating, but they will have their choice. The salaries of all associate employees will be sustainable, for dignity. They will not be forced to resort to prostitution, gambling, alcohol, drugs, fraud and crime in order to cover their natural needs, resulting in reduction in suicides, divorces, prisons, hospitals, insane asylums and wars.

The media of the new state will present daily programs for the Self Knowledge and Peace education in order to promote the exaltation of the heart and the realization of Peace, Love, Respect, Freedom, Prosperity and Dignity. Instead of paying the unemployed, we will have community service everywhere, especially for the safety of the citizens as much as possible.

Each neighborhood will have its police station in villages, islands, cottages, suburbs, cities with continuous patrols on a 24-hour basis to prevent theft in houses, shops, cars, motorcycles, etc. that lead to crime. We will develop the IDEA OF THE GENERAL GOOD and the individualism along with “my life is your death” will evaporate. Also, the gradual total disappearance of all the “gangs of state”, which are presented as if to protect the “state” as a ministry, tax offices and state games because the state will not need to drain the people since we will print our own money.

And in education, as a priority, we will incorporate the Salutory Self-Knowledge for Internal Development. And then the noble collective development follows. When we discover in our hearts Love, Understanding and Respect, we can effortlessly replace hatred, unconsciousness, and disrespect of the mind that have prevailed so far due to ignorance of ourselves! Love, Recognition, Appreciation, and Respect for our Mother Nature that is the Conservator of all of us, and training the body with a healthy diet, so that young children cannot be trapped in criminal substitutes.

This is the real feat and true service of a ruler being a servant of the people. And not the fact that they are constantly changing every 4 years and with the media, which are theirs, they deceive the people 24 hours a day and push them into division, alcohol, gambling, prostitution, drugs, fraud and crime. Today we are given the incredible opportunity to make the beginning of the uprooting of the rotten root and to re-establish a Peaceful and Just World, worthy of our Creator and our Noble Enlightened Ancestors! These are the indisputable fundamental rights of the people that must be guaranteed by the state.

### ***Today's dark world history***

---

Today's dark world history is so tragic that all the events are calling us from everywhere to WAKE UP and BECOME INTERESTED in a collective effort, to join our forces and to do whatever we can, so as to jointly solve the problems we face from the indifference of the governments, which have exposed us to fraud, drugs, crimes, wars, the sale of the whole country —if anything is left— and generally to a pre-planned darker future.

If we realize, even a little bit, the responsibility we have as parents for our children and grandchildren, we will feel great shame but at the same time it can awaken us to get up from the chair and start meeting in places for a serious discussion for a new Bright History! Because as long as the politicians still put us to sleep with their false promises and we think that they will change our lives for the better, this states, and I feel sorry about it, our nonsense. And I feel that human beings should not accept languor and enslavement after so much tragic suffering caused to us by our early undertakers.

As long as we are indifferent to our much-needed reunion, let us not shout about the suffering we are receiving and we will receive more and more.

I hope that my so obvious simple prophecy does not come true but unfortunately, it is the fate of our foolish divisions until we learn!

### ***The dark ones are waging wars for recruiting children masses***

---

Wars are also waged for recruiting children masses as a sacrifice of the murderers of their dark bosses, who have special organizations and gather the orphans for their emancipation with subhuman beastly works to the helpless children. The obscure big bosses who anoint their own “sold” as rulers of the peoples, who have been given their whole life, mind, soul and body to the “satanic world organization”, there comes a time when they are asked to sacrifice in return for their anointing peoples that the dark ones want. They artificially put the rulers of different countries to start arguments to end up in a war to fulfill their required sacrifice for their god of darkness Satan, who is also an incarnate man as the Divine Energy (God) comes in human incarnation (Masters). And if they do not obey, they threaten them and their families with death, and so they succumb justifying their obedience, that they could not do otherwise since the whole family would lose their lives. That is why there are lodges everywhere in every country as centers of decision and satanic organizations of sacrifices with blood and human flesh with the lure of money, ranks and glory.

Imagine the artificial poverty they create for the acquisition of consciences and flesh. And workers in the arms industry, disguised as “defense ministries” in every country drink beer and whiskey to the health of their gunsmiths because

they are given jobs even though they are forced to make weapons to kill people. Just as a people take orders from a pseudo-ruler, so the small amount of people, a group of pseudo-rulers, take orders from other rulers, closest to the pyramid of the “world mind”, which is completely obscure but rules everyone into darkness and total destruction. The proof is the chemical, electronic and nuclear weapons that have inspired its cloned students who made them and they are ready at any time to destroy all kinds of life on our Blessed Planet.

Like the clique of state economists, in order to gain their favor and secure their position, they make starvation and misery wages at the behest of the rulers, completely indifferent to the poor people and interested only in their own selves. So, the pseudo-rulers obeying their obscure bosses for their favor, securing their position, their travels, their luxury, their big salary and bribes, and their human guards, are completely indifferent to the misery of their people which they cause themselves as intermediates of their dark masters.

Just as there are contracts of assassination on an individual and group level, so there are contracts of murder and destruction of various countries of the dark source (mafia) with the intentionally placed subhuman pseudo-rulers of the unfortunate peoples.

That is why our True Living Master has come to stop the irreparable destruction of humanity with his Divine Grace and Divine Love for our Human Nation!

### ***Our fundamental priorities***

---

Our fundamental priorities in the individual level are to know our Divine Self! And in the collective level, to realize the much-needed union to work together for the General Good! Unfortunately, the cunning manipulators of the system

teach us as a priority a lot of garbage and make us their production units. They make the acquired needs with countless substitutes of our true innate joy, and they take us more and more away from the "Knowledge of Ourselves!" And in the collective level, they divide us with their deadly labels of a party, ethnic, racial and religious, and under the pretext that they label us they incorporate our sick fanaticism, they create dirty wars, and we kill each other in the face of our Blessed Planet to perpetuate their dark history.

If we do not wake up and realize our two aforementioned primary priorities, we will participate in the indescribable miserable history and load it on every blessed future generation. I would feel unbearably ashamed and would not want to live in this world if I did not participate in the effort to change the dark and inhuman structures of this corrupt world system which are presented to us as civilized leaders of the peoples.

Today we are invited to come together, to unite in order to work together for the liberation of ourselves and our children, and we close our ears to the noblest and most effortless invitation, and when the warring demagogues call us blackmailing us against our will to fight for our mother homeland, we run in fear and unite like sheep and our patriotic leaders take us to slaughter us. And those who create wars watch on TV in their fortresses-villas their people killing each other.

That is why we have created a socio-political movement, for those who envision a peaceful and free world, to have the option of freeing ourselves from the global dynasty of darkness.

I remind you of communicating the true and awakening messages because the more we wake up, the faster we will shake off our enslaved hypocritical false leaders and their associates.

## ***The two criteria of pseudo-leaders of the world dark system***

---

If you study this text constantly until you understand it, you can change your destiny by inspiring those around you for a peaceful and happy life. Therefore, it is necessary to realize the two criteria of the false leaders and their associates, in order to wake up from the deception, so that we can save our future blessed generations as well.

- 1) A government that does not reject the label of its party and prefers to have the people divided for civil wars, works for the “divide and rule” that their bosses have put it in this role.
- 2) And a government that does not issue money for its people to free them from the usurers, who go like beggars to their masters for loans, so that they always have every generation indebted and enslaved, are employees of the “rotten world faceless system”. What other criteria do we need to wake up?

Do we sleep too deep, and are we worthy of our fate?

And in order not to admit it, do we constantly blame those who we vote with our own hands? Seeing that, they are always pre-selected by the global mafia.

To change the dark situation, my dear friends, we need awakening and sincerity. The utopians, the indifferent, the desperate and the well-to-do of the system say, “A cuckoo does not bring spring”. I answer to them by asking, aren’t other people cuckoos? So, it is not just a cuckoo; we can be countless cuckoos, to bring the spring of the most incredible Bright History with the help of our contemporary Master who has prepared the ground very well for 54 years all over our planet!

## ***The dark systems***

---

The dark systems shape the circumstances in such a way that everyone can sell their patent no matter how destructive it is. They have created a cunning reasoning as a given in all areas, which says that if I do not take advantage of him, someone else will do it. If I do not rob him, someone else will do it. Every alcohol dealer thinks that, if I do not kill them, the drug dealer will kill them. And drug dealers think that if we do not kill them, the arms dealers will kill them. As a result, death hovers over everyone's head every moment, as if we were in “high security prisons” with the most expert exploiters, swindlers and criminals.

They instill fear in our minds with the destructive media every day, to trust for protection more the dogs, the cameras, the iron fences, the bodyguards and the weapons; the tragic result is to be afraid of one another and to have forgotten the courage of our heart and the trust in God within us.

The worst thing that happens to man every day and all day is the disconnection of our contact with God within us! And the world mind with the cloned minds of unconscious people has achieved this in innumerable ways, and especially through fear, trapping one generation after another from the depths of centuries, and thus, we perpetuate deep darkness.

## ***The theft of our hope, our trust and our attention***

---

They all ask for our hope, our trust and our attention to make us their fans-clients in their ideas, songs, theaters, sports, gambling, alcohol, drugs, parties, dogmas, heresies, philosophies; each with a different lure. In the same way the fishermen throwing different baits, their first obvious act — according to the innocent children— are presented as friends of the fish to feed them. None of them is different from the

cunning motives of the fishermen, whose purpose is to catch them in order to eat them or to sell them. Each of them has a special cover to bite us.

In order to get rid of all these wolves in sheep's disguise, we must have a sincere relationship with our Inner Companion and our Truest Friend, who is the Salutary Knowledge of ourselves and offers us such Clarity so that we never fall into the traps of werewolves. That is why I recommend you our Master who offers the practical way to start an inner acquaintance with our Supreme Self! And by saving ourselves, we inform our children and those around us if they too want to be saved. If they do not want to, we have done the duty of our heart and we are calm in our conscience! I hope you take full advantage!

\*\*\*

*“The fine you pay for your indifference to the public is that your fate is determined by idiots”.*

PLATO

\*\*\*

*“Know what you are worth as a human being, and become God of yourself!”*

SOCRATES

I do not parrot what I write to you but I confirm and remind you of the timeless words of our Beloved Masters of that time because I have experienced them from the Divine Knowledge of ourselves which our Beloved Master offered me, otherwise I would not write all these to you.

### ***The criteria of shame for each government***

---

- How is it possible that the brain-moved leaders, if they do not learn from the Knowledge of the Self and ignore the kingdom of the heart, to inspire the people to discover the

kingdom of the heart where the inexhaustible wealth of our Wisdom, Harmony and Freedom reside?

- How is it possible for selfish leaders to inspire people to be selfless?
- How is it possible for unbalanced leaders to inspire people to balance?
- How is it possible for the leaders of individualism to inspire people for the idea of the General Good?
- How is it possible for unconscious leaders and their associates to guide conscious citizens who have nothing to do with Shepherd Syndrome?
- How is it possible for the indecent to inspire people for dignity?
- How is it possible for the disrespectful to inspire people and have their respect?
- How is it possible that arrivists inspire simplicity in the people?
- How is it possible people who are unhappy inside to inspire people for inner happiness?
- How is it possible for the trapped to untrap the people?
- How is it possible for the illiberal to lead people to liberty?
- How is it possible for liars to lead people to the truth?
- How can hypocrites inspire authenticity in people?
- How is it possible for the obscurantists to lead people to light?
- How is it possible for leaders who are unaware of themselves to inspire people to evolve internally with our Self-Knowledge?

If these criteria are not enough for the leaders and their associates who are untimely undertakers of the people, then something very serious is happening. Either we are so infected that we do not care at all about the quality of our leaders, or

we are in complete languor or we have the global cancer disease of indifference. Fortunately, however, without any exception, there is the possibility of choice through our Self-Knowledge, for those who want healing and transformation!

***This has been written in the book I gave to Kyriakos Mitsotakis***

**AS A CITIZEN OF THE UNIVERSE I DENOUNCE  
ALL ETHICAL PERPETRATORS  
OF CRIME AGAINST HUMANITY**

*The most illegal: It is the state which is dominated by obscure gangs and you impose illegal laws whenever you want, guided by your big bosses.*

*The most arbitrary: It is the authorities because you have plundered the Blessed Land and made the in-plan for your system and for the rich and the out-of-plan as small plots and arbitrarily for the housing of the poor which is a fundamental right of every human being. And you make him arbitrary and run after him all his life with predatory fines up to madness and suicide.*

*The most chief frauds: It is the authorities because under the pretext of “business activities” and especially with the “tax office” instead of the word “mafia” you are exploiting peoples with astronomical sums of money every month. Billions of euros in tolls from millions of cars, billions from rental rates 15 percent from millions of houses and shops, billions from tolls, billions from promoted gambling, billions from “enfia tax”, billions from fuels, municipal fees, billions from public roads that you made private parking lots, billions from tax authorities, and so many other intriguing tricks, draining people as they*

*wish and so formally, as if we were obliged to feed the drones and enrich them with our sweat until we die.*

*So, only by issuing our own money Kyriakos Mitsotakis, will you be able to realize your statement to eliminate the “mafia circuits” because the noble state will not need to use its citizens as collectors of the “mafia circuits.”*

*\* The most criminals: they are the ones who issue money with the accomplices of their political bodies, who create civil, religious and national wars around the world and mislead people with the imposed criminal violence of artificial poverty and force them to do innumerable evils in order to survive. And all these happen due to your arrogance, greed and lack of awareness of the Supreme Gift of Life!*

*Whereas, if we learn from the Divine Knowledge of ourselves, we will become conscious and we will respect the Incomparable Divine Gift of our Life and little by little we will reject crime and everything related to it because we will respect the Life of everyone else! Who will respond in your conscience to my denunciation; from the “obscure global economic mafia” or from political “governments”? I hope that it is not another voice roaring in the desert, as the evangelist PETER says in Bible in Chapter C’ and verse 13. “And who wants to abuse you if you become imitators of the good?” And in verse 14 it says, “but if you struggle for righteousness, you are blessed “do not be afraid of them and do not be troubled.”*

We might read them and see them, but it also requires practical effort in order to avoid such miserable facts. As far as I am concerned, in order to realize what I am saying, we have created a socio-political movement of the “Visualizes of the General Good” so as to work together to change the miserable situation in our country and to inspire other countries! But so far, “Voice roaring in the desert!” I will hope until the

end of my life that there will be some people who will understand my message.

### ***Experiences in the taxi during my work***

---

I also share some experiences in the taxi while working and sold some books of timeless poems, which our Master whispered to me in my soul and I was the listener and the writer at the same time, and he offered them to me with rhymes so as to be sung by students of Knowledge when the time comes.

In order to avoid the same comments from the passengers in the taxi which I had to listen to for so many years —before I received our Master's Salutary Knowledge— and my head became a rubbish bin, the passion that grew more and more to speak for his message inspired me to make invitations to give them information. And when they came into the taxi before they started talking to me I gave them the invitation and immediately the comments and questions started, and thus I got rid of the routine verbosity and gave them a choice to investigate for something incredibly important for the rest of their lives.

Observing with his Grace the promotion of the message made by our Master, inspired me to do the same as much as I could in order to contribute to the faster informing and I created 4 different forms of promotion: Book writing, CD with background music to listen to in their car, or in a DVD player on TV to have a substantial choice, those who wanted to get away from the routine of love songs and the bad news. And then when I learned to use a computer, I still promoted his noble message on Facebook and on YouTube with many videos, and I gave about 300.000 invitations in 38 years from 25 to 35 every day with verbal information face to face. Some came and took the Knowledge and what a deep joy I felt, that I was

offered the Incredible Honor to promote the Noble Message of our Master!

After a while I realized that I was training without knowing it, because I got to know all the different mental make-ups of each person, classifying them into 4 categories: Recipients, negatives, scoffers and opponents. With unbelievable comments and questions, with customers' tears, negative words of the priests because our religion when he was young had called him a Satanist through shallow journalists. All these added a lot of experience to me and I increased my understanding and patience.

Once I took as a second race a priest, after I had first asked the girl I had as a first passenger. I also gave him an invitation, so that the girl could see that the message is for everyone and so that he would not be left uninformed and underestimated. When the girl asked me and I answered (I had given her a video of our Master and an invitation to our events), as I looked at her in the mirror, she shone with joy because her heart was touched. Seeing the priest next to me, he was yellowed and ready to explode, and a little further down the girl got out of the taxi and thanked me with great joy for receiving this unexpected message.

The priest was holding the invitation and he asked me if I was a heretic and I told him absolutely not. Then he told me, come on, this fat Maharaji you worship and also kiss his feet is the antichrist and I am responsible against heresies and I know him. I replied that there are two different pilgrimages; one our parents have taught us since we were little children and we kiss the sacred icons and your hands, and the other one is from the choice of my heart, kissing his living feet out of Deep Gratitude, Deep Respect, Deep Love and Deep Devotion. I realized that he freaked out and he was silent due to the power of my words, and when we reached his destination and

he got out, he threw the invitation on the board of the taxi and shouted to me, “the paper in my toilet is better”, and I managed to answer to him, “is that what the Christ you serve teaches you?” And he left quickly.

Another priest, after midnight, as soon as he got into the taxi in the front seat instead of saying good evening he told me, “I just finished an erotic confession.” I turned to look at him and he continued, “Eh, what can we do my friend, we are human too.” I saw that he was young and I answered to him, the service to our Christ requires discipline, but he was in his joy and did not get into the matter. I thought that he would be an outsider and went for a secure job, like those in the army.

I noticed that most of the Greek priests were negative to my message, while the foreign priests were open for research taking the invitation and video of our Master. Once upon a time, an archimandrite named Theofilos got into the taxi and I took him from Athens to Piraeus, and I told him that the True Living Master had come and we should not wait for him with the “he will, will, will come.” I also invited him to come to an event and he answered to me with respect and humility that he could not come because of the position he holds and the rules of our church since anything outside the church is considered to be heretical. He suggested that I should go and tell Christodoulos about it but I did not feel it inside me when he was alive and I did not go; maybe it was not the right time for him, since we did not meet and he left before me. This is what a high-ranking military officer told me as well when I gave him an invitation. He asked if we film the audience because they are not allowed to attend public meetings other than those scheduled for them.

I once asked a priest, when someone reveals God to you inside you, to come in face-to-face contact like we do now “but invisible within us,” who can he be? He answered to me immedi-

ately, only Christ! I too told him immediately, if you want, tell me honestly, how would the church react if our Christ came again? He replied bluntly that they would crucify him again. Of course, from a real person regardless of his profession, I absolutely expected this answer because I know the wrath that religions have for our Master. The minds feel that this whole structure will collapse, the theoretical one that the Second Coming will, will, will, will, will come, when people will know about the existence of our Living Master. Just like the politicians with the “we will, will, will, will, will improve your life”, and they make it worse with the tyrannical acts of draining, the divisions and wars. Their rotten structure will disappear as well because of the Work of our Master that is establishing and the inner awakening of our fellow human beings.

Many asked me, “Why do you call your Master True or Perfect?” I answered to them: “Because I feel like expressing it. Because simply, he has revealed to me inside of me the Truth, the Perfection, the Divine! That is why I mention him as a True or Perfect Master and I wholeheartedly wish you too to experience it as soon as possible within you! As one teaches you mathematics, you recommend him as a mathematician to others if they want to learn mathematics. And if someone teaches you how to drive a car, you recommend him to others as a driving instructor if they want to learn how to drive.”

I remember a lady who came into the taxi with a sad voice and face and I had a CD on reciting some poems with background music which I had in sections on the main topics that we all come in contact with. She asked me, “Please, where can I find these?” I looked at her in the mirror, she was in tears and I replied that they are mine and I have written them in books that I sell at an affordable price. She asked me, “Can I have them too?” “Of course” I answered to her, with honor and joy. And immediately the sorrow and the tears left her

face and she looked very happy as if hope came alive in her. She greeted me very happily, and I also thanked her with great joy, that I saw that the poems of my heart had a great impact on other hearts.

One time, a woman came into the taxi and sat in the front seat wearing a provocative mini and I noticed that she pulled up her dress to make it even more provocative. I immediately gave her an invitation from our Master and she asked me what this was. I replied that it was about the Knowledge of ourselves so as to find the source of our fulfillment so that we do not depend on the circus of this world. As soon as I stopped at the first traffic light, she opened the door and said to me, come on .ash.... closing the door with a lot of anger because she did not catch me in her nets. I felt incredibly happy that I overcame temptations with the help of the Salutary Knowledge because before Knowledge I was very vulnerable to temptations.

I also share with you an experience out of many which was very funny. Listening to my poems on the CD player, someone came into the taxi and listened to some lyrics and I saw that he was paying attention because I'm sure he would hear such words for the first time. And when he heard the verse "God is in us and we can experience him, to experience Peace and Freedom", he laughed so much mockingly telling me —without having understood that it was my voice— "Listen to that madman what he says, God is within us; since he is so big, how can he fit within us?" I laughed out loud, hearing him call me crazy —in my Unchanging Supreme Experience of Knowledge— and I replied that it was my voice. He was a little embarrassed that he called me crazy, and of course he could not understand to change his mind immediately and the discussion remained in the writing of my poems and I slowly told him to process what he heard that

God is in us! And I reminded him that Christ also told us that “God is in us!”

Most lawyers and doctors are very arrogant; the former because their clients are completely dependent on them for reduced sentences or unfair acquittal, since most bribe and are bribed. Doctors also present themselves as saviors filling the houses with fake pills and have turned them into small pharmacies, indifferent to the health of their fellow human beings due to the bribery of the pharmaceutical manufacturers. From both categories, when I gave them invitations, some of them answered to me saying, “let the people in their problems” and behind these words in their minds they had other thoughts such as, if people learn in them Love, Respect and Understanding, the courts will stop and then what job will they look for, since they are people of only blah, blah? And when people learn to eat healthily and are not dependent on countless poisonous substitutes, what other job will they look for apart from sitting at a chair prescribing drugs and take bribe for surgeries they do not need to do. I paralleled it with the Crucifixion of our Christ between two robbers. Every person who has Christ in them sooner or later is crucified by lawyers and doctors and by politicians who wash their hands of it. Each government delivers the people to the next like Pilate who delivered our Christ for Crucifixion!

I had sold more books and CDs in my taxi than the main store of Konstantinos Papanikolas “Health Ecology” and the bookstore “Pirinos Cosmos” that I had supplied to make the noble promotion of our Master’s message. But then the financial crisis came and at the same time it was time for me to retire.

I had indelible visual and acoustic experiences in the taxi, which I realized as a “mobile university and street confessor.” Many times the passengers felt the need to express serious personal facts and they regarded me as their confessor. I

would not desire any university education of this world compared to this face-to-face communication with all different kinds of people.

### ***The reason why I went to mountain Athos***

---

In the taxi, with the invitation I gave to the clients, when they asked me where he was from and I told them that he was from India, the most religious people associated the message with heresies and Hindu religion. Others cherished the current saints of Mount Athos, led by the monk Paisios, and I decided to go and give him the message, because I knew an internal law. If he had come in contact with God within him, he could understand the Master's message, even though I also knew in my heart that I would meet ghetto people there. And I asked three of my closest mates in Knowledge if they wanted to go together and give them the message.

God honored us to go, and when we arrived, I asked some monks who was the purest monk in order to find out if they considered him in there as a top monk. He was indeed mentioned to us, but to our sad surprise we were told that he died 5 days ago, but he had left in his convent a young student of his to whom he also gave him his name. We were kindly hosted at the Monastery of Iveron for two days, then we went to two other monasteries and then it was time to go and give the message to his student. After the welcome, he asked us where we came from and what profession we do. More questions followed and answers from all of us, concluding about Knowledge and our Master. And when we asked him how he spent his time there, he replied that he was painting pictures for his livelihood and when he finished, I said: Would you like to meet the One you serve, because is he here now? Of course, he was disturbed by such an unexpected question

and in order to avoid the difficult answer of “no” or “yes”, he replied that he was preparing to meet him in another life that our religion has promised, that if you are good when you die you will go to paradise.

We said goodbye to him, noticing the dissatisfaction he felt, because his mind made him think that perhaps we had gone to convert him to some heresy. Unfortunately, this was verified because when we returned, he had called the authorities of the monastery and he reported the incident and they had left us a note in one of our beds. "Please leave tomorrow, heretics are undesirable." And there have been comments among us about the beliefs of religions, which have made people believe in the afterlife that they will go to paradise and put fences in their minds. And so, they do not know the True Paradise that is right in our hearts and we can experience it every Blessed day with the Divine Knowledge of Ourselves! This is the greatest tragedy of mankind, and our Master has come to stop this tragedy for each of us, revealing the Divine within us in order to be completely freed from the perpetuating tyrannical delusion.

### ***The creation of our socio-political movement***

---

With the constant more and more devotion and Love, recognizing, understanding, appreciating and respecting unconditionally the Majestic Divine Work of our Master, in 2013 I started “always with his Divine inner guidance” a socio-political movement because I had tones of sorrow in me from the growing injustice and looting of political gangs in order to awaken the people with my closest mate in Knowledge and “brother” Vassilis who trusted me and followed me.

We had as Primary Foundation “Self-Knowledge is Everything.” with the logo “The Visualizers of the General Good”

which includes all people, animals and our Blessed planet and presupposes the rejection of the most abhorrent —system-shaped— individualism. And I have found the solution to the moral and economic crisis by writing a book “How to get rid of the global economic mafia.” And so, I went to the Supreme Court to the prosecutor's office to submit the declaration of our movement and I ended up in Parliament for approval and getting the deposition protocol. That is why I call the parliament “the temple of the devil.”

It does not matter if our movement did not develop, due to phobia, despair, disappointment, indifference, distrust and individualism of the people. It is currently inactive because we did not have money to pay the rent due to default of some in their participation. We performed the duty of our heart and it was confirmed greatly when after some years I read the first book of our Master who wrote to us: We must unite our forces, develop our inner understanding and do whatever we can in order to increase the realization of humanity and together we must face the problems. These are my own additions — “not individually, but collectively.” And that we all have the Superpower inside of us and we have to bring it to the surface. My heart gave me the logo of our socio-political movement “Visualizers of the General Good” which was perfectly in tune with the encouraging words of our Master! My joy was unimaginable when I read it. Another confirmation of internal contact and guidance!

As I was learning to get to where I am now and write to you, I realized that our Master did not allow it. The reason was to practice fearlessness and perseverance, of course when I started I did not know that but I felt it was like a pre-stage for something much more serious that would follow. Did I not know that they would put obstacles and intimidation in me when I am going to wipe out the intrigue of gangs and all the

parties which compete with each other for subsidies and loans from the state?

There was constant fear and despair of everyone around me saying, “What are you going to do alone Notis? Will they not take your head? How will you fight the sharks?” And the frequent thoughts of instilling fear from everyone in my mind kept saying, “Where are you going barefoot to the thorns?” I knew that not even one in the million we could change the situation on our own tearing down countless colossal organizations. But I also know the other side of the coin which they do not know, that our Master will help us in everything, as long as our vision is in tune with that of our Master!

And my “brother” Vassilis and I were trying to inform the people with leaflets because we did not have the money to talk on a channel that had a lot of viewers. And we were constantly asking each other questions and being surprised that no one came to our invitations. And he made me realize why our plan was interrupted. Because his own plan has priority where he prepares me now, to use me for what I have asked for: the Therapist's Super-weapon and it is unimaginably more Important and more Active for all of us. As he prevented me from buying a plot in Vari area, because the purchase would be made with the money of gambling from the hippodrome—it was before I met him—and he reserved for me another flow in the journey of my Life. And when he found me, he freed me from gambling and I made an honest purchase of a plot of land in Anavyssos with my work, so similarly, with the movement he prevented us from continuing because he reserves for me another flow for the rest of my life. Let us remember the profound saying “every obstacle is for good.”

### Knowledge, Realizations and Experiences

Finally, for the first time in the history of our Planet our Current Master Prem Rawat offers the Unexpected Choice and the Highest Opportunity worldwide.

A practical way for those who want to experience Inner Peace, Freedom, Love, Wisdom and Clarity!

#### ***Today's Babel***

---

Let's pay attention to something basic; each one for himself.

We are constantly asking for a change from others. Are we asking for a change of mindset from ourselves? To replace the base and destructive qualities of our mind such as selfishness, indignity, hypocrisy, jealousy, disrespect, hatred, arrogance, greed, confusion, rivalry, with the noble and saving qualities of our Self-Knowledge such as disinterestedness, dignity, genuineness, joy, respect, love, simplicity, understanding, clarity, collectivity?

A world cannot be built with ideas of the mind without the feelings of the heart of Peace, love, respect, clarity and dignity.

We have a centuries-old experience today: the roar of ideas like our well-known Babel. Humanity has been derailed. Although we have not realized this experience, we need to realize it as soon as we can, so as not to participate in perpetuating the global catastrophic trap of the negative qualities of our mind.

Let us finally become more responsible and more conscious!

By returning to our pure heart, as we were children!

## ***Change of destiny***

---

With a single deepest realization that we are responsible with our foolish indifference to the disgrace of humanity, our destiny can be changed to an indescribable degree of beauty! That is why we need the Knowledge of ourselves, in order to consciously learn again from our Creator within us our humanization!

The Noblest Learning which contributes to the evolution of everything!

## ***The vicious circle of artificial outlets which are dead ends***

---

All the artificial outlets which the human minds make up in order to find peace, joy and freedom, on the contrary are dead ends, so they constantly try to invent new ways but in the end everything is dead ends. Peace, Freedom and Joy are right in our hearts; the discovery of our Divine Self, realized through the Divine Self-Knowledge in a practical way which is offered today by our True Living Master, Prem Rawat!

## ***The General Good***

---

Only our Creator and his Magnificent Nature that sustains us express the absolute Selflessness! Because they are interested in the General Good!

Only then, when we realize that we are part of our Creator and our Mother Nature can we think and act for the General Good, as our Master teaches us with his Miraculous Work and silently our Mother Nature with its manifestations!

We can become the same when we realize their absolute selflessness, and that they do not distinguish absolutely anyone, since everything is their creatures! Until we realize this

unchanging reality, we will suffer in our unconsciousness, divisions, arrogance, selfishness, greed and hypocrisy.

And in order to reject these deadly qualities of our mind, necessary, like the air we breathe, we must learn with the Divine Knowledge of ourselves, in order to be integrated with the Divine qualities of our heart such as Consciousness, Brotherhood, Simplicity, Selflessness, and Dignity!

- Until we discover the Truth within us, we will simply present ourselves as true.
- Until we recognize True Love within us, we will simply pretend that we love.
- Until we discover the Simplicity within us, we will simply present ourselves as simple.
- Until we realize, to become Visualizers of the General Good, we will live divided in the loneliness of individualism.
- Until man is given the opportunity to access the Supreme Joy within us, he will run into the circus for joy, like our unfortunate fellow human beings we see looking for food in the bins.
- Until we deal with the Divine Knowledge of ourselves, we will live in the inner darkness of ignorance and we will pretend to know.

### ***The invisible shovel of Knowledge***

---

Just as all deeds arise from thoughts, so all diseases arise from the sick ideas of the mind, jealousy, selfishness, hatred, cunning, hypocrisy, anger, greed, disrespect, audacity, deceit, competition, and we must uproot them as we uproot the weeds for the tree to bloom to give us its fruits so as to have our health. If we do not uproot them, we will not eat fruit and we will get sick. And because we do not care to eradicate them, they are growing more and more and we are getting se-

riously ill and this disease is very contagious and fast. As a result, we have countless hospitals, prisons, insane asylums, fraud, crimes and wars continually until now. Ignorance of our Self carries the ugly qualities of the mind resulting in destructive acts.

I recommend to you the invisible shovel within us, the Knowledge of ourselves, because in our minds even these thorns or weeds are invisible, which is the only one for any uprooting to heal our mind. The Salutary Knowledge of ourselves offers us the Divine qualities of our heart, the joy that you cease to envy because you are happy (fulfilled), selflessness, love, clarity, honesty, meekness, appreciation of all the goods that we have, respect, courage, authenticity, simplicity, recognition, understanding, gratitude, and our daily journey with these qualities becomes incredibly magical, enchanting those around us. Just like the rose emitting its invisible aroma and beauty attracts us all to admire it and others cut it.

Our Self-Knowledge holds the beautiful qualities of the heart resulting in dignified deeds. The Choice here has indescribable weight for the rest of our Life! It is not a choice of kataifi or baklava, whiskey or vodka, spaghetti with minced meat, or squid, bouzouki or theater. It is between mortal and Eternal.

I hope you take full advantage, my dear friends!

### ***Our Divine Breath***

---

Have we sat for a while to ponder that without our Divine Breath we do not exist? Do we know anything about this unexplained Miracle of Miracles?

How sad, to be given to us every moment for years and to leave without recognizing our Mother Life (Creator of our Existence)!

Our Breath is our driving force and when we realize this, the simplest and deepest event, then little by little the conscious person will understand the external delusion and what is simplicity and humility.

During our sleep our body does absolutely nothing but at the same time the most Essential Invisible Act takes place, the coming and going of our Divine Breath which offers us the Highest Gift of our Life! Similarly during Self-Concentration (practice) with Knowledge our body does not do any work. You are conscious in the focus of Breathing with the techniques of our Master and the most Essential Invisible Learning takes place! Connection and Guidance from the Life itself (God) within us! That is why it is incredibly important that we do not cut off from our fundamental dependencies that is the Focus on our Divine Breath and practice Knowledge, because if we cut off we will be sucked into the pseudo-luxurious acquired and transient dependencies and sooner or later we will be recycled with them and we will lose the Supreme of the Supremes learning that we can become heirs of the Divine Eternity and not heirs of death.

Let us ponder this indescribable fact. Our Divine Breath is completely weightless and holds the weight of our body. Once the weightless is gone from inside us, our body will tangle immediately down with absolutely no function. And it also keeps, as weightless, all the planets floating and everything that exists in the unexplored Infinity. And we, not even in a moment of our day, give it our attention and our Unceasing Gratitude for the Divine Gift of Life that offers us billions of moments until it leaves us. This, even if it is not said, is the greatest human tragedy.

Two things determine our Life: Our Divine Breath and the thoughts that have two sides like a coin. The dark ones of the mind which are destructive and the Bright ones of our heart

which are Creative! Only when we cleanse our dirty mind and connect it to our heart, then it will emit the Bright thoughts of our heart! This is the Perfect Harmony of the Soul of our mind and body that only with the Highest Knowledge of Ourselves can we experience what seems impossible to human beings. Our Breath allows us to think and not the thoughts to breathe. Therefore, our Breath is the “A and Z” and the “Omnipresent and Everything Fulfills” written by our fellow-mates of the time of our Christ in the verses of our Bible!

### ***The four forces***

---

Man is enchanted by the three forces of matter, money, mind and body and he wastes his whole life to acquire them carelessly ignoring that within us there is the fourth invisible Power of our Soul which keeps us alive and we can do anything. Apart from the fact that he has consumed too much energy and wrong passion, he also has bad companions inside him who accompany him until the end of his life. One of them is the fear of losing what he has acquired, rightly or wrongly, and how to maintain it. Another one is the competition, which is too damaging, to increase it, which has the tragic result in living in the hell of his mind every moment until he reaches death faster for recycling. The True and right passion is to first know God within us through the Knowledge of ourselves and to realize the existence of our soul with the goal of learning our Eternal Creator that only He can guide us unmistakably for an incredibly beautiful everyday destiny. In the bible according to LUKE in Chapter IB' verse 29 *“And you do not ask for what to eat or what to drink, and do not be suspended in the air.”* And in verse 31 it says, *“But seek the Kingdom of God and all these things shall be added unto you.”* So, it is so obvious that only with the Knowledge and the Power of God

can we defeat the power of the mind and all the destructive habits of our body.

### ***The invisible inner ring of every human being***

---

In our inner ring every moment, every minute, every hour and every day an invisible struggle unfolds between our mind and our soul. Man constantly wins the battle with his mind and constantly loses his soul, not understanding that this victory is at the same time his defeat, since one of his parts is defeated and therefore sad. Each mind seeks to show its power to impose or enslave or level another mind so as to feel victorious. That is, a joy over the sorrow of the other, a victory over the defeat of the other. And this happens because we cannot defeat our minds, we compete with all means, rightly and wrongly, in order to feel satisfied with the victory over the other minds. This relentless competition slowly makes man incredibly selfish and uncompromising to the end. Sick competition and individualism are cultivated by the global dark school system. Under the pretext of the best degree, the insidious thorn of jealousy develops and manifests itself at all ages and at all levels. From individual hostility to group, social and global one, we reach the point in building super weapons systems with the most admirable goal of eliminating more people and any form of life.

Now, fortunately, there is the other side of the coin, our silent and simple soul! Our soul has indescribable potential and indescribable goodness because it is a creation of God, while our mind and body come forth by the man and are shaped by our parents and the world around us. The soul has absolutely nothing to do with the qualities of the mind, and that is why it strives in man and constantly invites him to listen to it in order to teach him how to be constantly victorious without

harming anyone and absolutely without competition in any level. This is where the Divine Knowledge of Ourselves enters so that the soul may recognize its Creator within it, and if the man wants to invest his mind in the innermost highest learning of his soul, the end of division and the inner war will come. When you become a learner in your inner ring with seriousness and sincerity with your Divine Self, you will always be a winner, master of your mind and body, and the mind will feel a winner as well due to the daily fulfillment and bliss that your soul feels as long as both coexist within our body. And thus, you will never need your self-promotion and the applause of the spectators outside the ring to feel the temporary joy at the expense of your fellow man. For me this is the True Winner, when he dominates in his inner ring over his hypocritical mind every minute, every hour, and every day, inspiring with his soul Peace, Authenticity, Respect, Dignity, Kindness, Compassion, Wisdom and true Devotion for service, to the inner collective evolution of humanity!

Anyone who wishes to experience what I write, I recommend the Divine Knowledge of Ourselves!

### ***The Supreme Prize***

---

Body gymnastics seeks out the show and therefore we have the group or school gymnastics shows. Similarly, the external individual or collective triumph seeks the external display, the applause of the people. On the contrary, the inner gymnastics of Self-Concentration in our Self-Knowledge and in our inner triumph over our mind and body seeks the disappearance from the world because it has found the inner recognition and applause of our God!

Everyone is fighting for publicity, for prizes, degrees, etc. and they say: if I do not become “something” I will be zero.

They forget that death will make us zero anyway sooner or later. While to achieve the true “something” is to know our Creator within us who created us. Because the “something” of matter will make you chase it until you die, since there will always be someone superior to you and will supplant you. If we knew that within us with our Self-Knowledge we would win an eternal prize with rebirths to serve the Divine Work of our Master, would we deal with the rubbish of this world, wasting our most precious time with TV serials such as “The Survivor”, “The Big brother”, “The voice” etc.? Eh, we would definitely be crazy. According to MARK Gospel in Chapter H’ verse 36 in the Bible it says, *“For what will benefit a man, if he shall gain the whole world and lose his own soul?”* And in verse 37 it says, *“What does the man want to give in exchange for his soul?”* What would you choose?

Everyone is looking for standing high acquaintances to have access to our selfish purposes. If we ever understand what we lose, constantly chasing acquaintances for enslavement and to feel recognition, we will cry and be ashamed of our incredible shallowness that we are indifferent to knowing our Divine Self who has created us and we are his royal Princes or Princesses! A Prince does not depend on anyone but his father, the King! He cannot be enslaved, but serves humanity for its Exaltation! I hope that someone will be touched by what I say because he or she will change course towards Eternity.

Beyond the external “Survivor” which is about trying to survive with the lure of money, a car and fame, capturing millions of people on TV, wasting their precious time for months —as in other games— if we are interested in meeting our Supreme Self with the passion we consume the external “Survivor” as players or as spectators, an incredible Magnificent Victory awaits us within us towards the Divine Eternity! Seeing that, the True Supreme Survivor takes place right inside us without competition

with others. Knowledge teaches us how to fight to defeat all the passions of our mind and body and to emerge victorious from the corruption and delusion of this world. So, the Supreme Prize is offered by God within us, through the study of the Knowledge of ourselves, which offers us the unexpected and incredible Honor of our Beloved Master!

And the prize, my dear friends, is not material such as gold medals and belts, money, or degrees that all go in the trash when you leave, but Eternal. The learning of the soul to be re-born for service with every True Successor Master! Unbelievable, isn't it? And yet it's True, if you try it seriously and honestly! Let us seize now the Highest Opportunity with Wisdom that we are given this incredible CHOICE!

### ***The defamers (hostile)***

---

I feel that I have to clarify something that has been perpetuated for centuries regarding the religions and our True Living Master. Not that I will protect our Master; that would be foolish. Of course, our Protector, and Lord does not need any protection but my heart feels the need to express the reality no matter how hard it is for those who cause it. What work will the representatives of God do when they take off their robes? Imagine how easily they become representatives of God those who want to. How is it possible for me to become a representative of someone I do not even know and who has not personally given me his mandate? And be self-titled as his representative because I parrot the writings of his students?

I wonder if they did not have the scriptures to read and parrot them, what they would talk about. And also, about whom there would be theological universities worldwide and religions. Once a sly guy who had set up a pizza shop, when someone else opened a shop with better pizzas near him, his sly mind sensed

that his shop would close and he had a policeman friend kill him so as to keep his shop. Think now, countless sly ones who have entered into religions appropriating God as his representatives, how many they would kill at the first chance just as some did in their dark past. As far as I am concerned, politics and religions have the same rationale with different roles. The former are as representatives of the peoples and the latter as representatives of their imaginary God.

In the Bible, in MATTHEW gospel in verses 23, 27 it says, *“Woe unto you, Scribes and Pharisees, hypocrites, for you are like whited tombs, which indeed appear beautiful outward, but are within full of dead bones and of all uncleanness.”* And in the verse 28 it says, *“So, are you. Outwardly you appear righteous unto men, but within you are full of hypocrisy and all unrighteousness.”*

The religious court of the Jews condemned our Christ and crucified him because they did not accept him as the Messiah and attribute his resurrection as a historical myth. But we accepted him because of his Divine Teachings, in which he advised us *“Do not do to others what you do not want others to do to you.”* which includes Love, Respect and Dignity. And he told us that *“The kingdom of God is within us.”* For me he is a successor of our Socrates, of “Knowing Thyself” simply in a different body just like our contemporary Master. Regardless of the fact that they did not show us how to know him inside us because the way was hidden by their opponents, but they suggested mental prayers to us and this is a very good means. Fortunately today is our time, when our Living True Master Prem Rawat has come and shows us the way to come in contact with God within us, and from the very good of prayers we jump to the very best so as to evolve. As you come in contact with a person face to face, in the same way we come face to face with our invisible heart to the “Kingdom of God within

us”, for full learning of his Divine Eternity! That is, we do not stay in the saying “the good stuff has been offered” but we move towards the saying “the better are about to come” that are waiting for us to discover them within us.

Then they had donkeys and covered the distances like our Christ. Today we cover incredible distances by airplanes like our Master, something which the minds of the people of that time could not imagine. He was once met by some of our predecessors, and today we have met him before the coming generations. Unbelievable but True! It would be unfair if God did not give the opportunity to people of other eras to get to know to their Lord in His Divine Timeless Living Teaching!

Today, however, the Work of God is different. He did not send him to be crucified again, but to eradicate the darkness of the wicked and to show the Divine Light among the people who want it. Those who do not want the Light and want their dark deeds let them sit in their darkness and as a natural consequence the darkness disappears at the coming of the Light! So, let us take advantage today, in this Incredibly Magnificent era when our Beloved Master came and built a new building and invites everyone no matter what kind of darkness they are into, if they want to be transformed, they can participate in the construction of this Great Building!

**HELLAS your greatness!**

## **They died between 500 and 322 BC**

The cause of death was the envy and ingratitude of the Greeks.

They killed, Crucified our True Enlightened Masters who came to awaken the peoples for inner evolution and until now their murderers rule with multiple masks. These things happen always everywhere by people and not only by the Greeks. Let us not be confused with the labels; we are all fellow travelers and live together in our blessed planet Earth! The labels that some people have plastered on us and we still carry them with so much fanaticism are the cause of our perpetual annihilation through the sick wars.

Let us now cooperate for the General Good first in our country, to understand the rejection of the labels of the parties that have divided us and then, more awakening will follow to be united worldwide. Let us slowly erase from our minds the fanatical ideas of the homelands in order to finally stop the dirty wars which are denouncing the Supreme Divine Gift of our Mother Life. Socrates told us, *"I am neither an Athenian nor a Greek; I am a citizen of the Universe."* And our Christ was not a Greek; he was a Jew but we accepted his Divine Teaching even though we all know about the galleries that the Jewish Masons have in all countries and cities, dividing the whole world so as to kill each other with the storm of fanaticism for the "as if homelands" and sell their weapons.

It is so clear for our Current Master as well, because the clergy have him first on the list as a leader of a sect and anti-christ and they discredit him on the internet because they are afraid of the awakening of the people. For those of you who defame him and call him the antichrist, if you see his Work for 54 years since he was a 9-year-old child, your mind will be terrified so much that you will constantly run from shame and have nowhere to hide. I am writing to you now not because I am irrelevant without knowing him, but I am writing to you from the prestige of my apprenticeship 45 years from our Master, and two public speeches, personal speeches of ex-

pressions of indescribable Gratitude that offered me the indescribable honor of becoming his student. Thus, now I can cry out and write about Him incessantly in public.

You are no different from those who gave vinegar instead of water that Christ asked of them, to have a testimony and comparison from those who hate him and those who worship him. It's good to judge ugliness and to shout out the Truth, but you not only do not judge ugliness, but falsely accuse the True Representative of Life (God). Now, I wish you repentance and confession in your God, so that you can recognize our True Savior of this Glorious age for your Salvation!

### ***Now that our Master has come in my Life***

---

When our Master came into my Life and revealed God to me inside me, showing me the practical way to get in touch, I gradually withdrew from the priests, the kissing of the icons and the scriptures because I now communicate directly with my Creator within me. Where's the weirdness? Did they not parrot me through the scriptures that the Kingdom of God is within us? So, since I found the path that our Master showed me inside me, why should I go to listen to them or kiss their hands and icons when I have him in front of me and he allows me to kiss his Living feet when he gives us Darshan? According to evangelist JOHN in Chapter A' and verse 27 it says that *"I am not even worthy to untie the leash of his shoes!"*

That is why they killed the True Masters in order to keep their work that would be perpetuated by their great-grandchildren. Who does not want the law that forbids them to commit their illegalities? Of course only the illegals do. When a prosecutor opposes the mafia, what do they do to him? Do not they kill him? When one does not agree with the gang establishment, what do they do to him? Do not they kill

him? This my dear friends is the solution of the dark ones to the Masters, to kill them for the continuation of their work. We all know that the cold-hearted cliques remove any obstacle presented to them to perform their dark works. And who killed our Socrates? The sophists who taught their students for money and Socrates gave us the Knowledge of God of course without money. What would they do next? How would they teach if people knew God in them? What do you do with their pseudo-philosophy? To let them sell you the philosopher's degree? When you can come within yourself in connection with the Divine Source of the Wisdom of our God? I imagine those who have rejected and discredited our Master. How much they will envy and hate him, especially the clergy of the religions since he has overturned their notorious lies with his Human Divine Work and as the World Ambassador of Peace! The Divine Love of our Master forgives all so that we can alleviate to feel his Love and to be freed from the inner hell of our mind and to experience the True Inner Divine Paradise which lies in the hearts of all its creatures.

### ***Our inner puzzle***

---

Eventually, throughout our lives, unconsciously or consciously, we all chase different experiences so as to be fulfilled, the same way as children seek to find the scattered pieces of the puzzle to complete it in order to feel happy. I, too, could not complete my inner puzzle until our Master found me and showed me the most important piece that was missing to be fulfilled, which is within us but I could not find it because I had been taught to look outside of me for everything I asked for. That is why I inform you that this Incredible and Salvation piece that we all seek so as to feel complete is within all of us. And this is called the Knowledge of Self and we will find it

in the address called INSIDE US! From within us begins the search for joy to be fulfilled and within us there is the Source of the Supreme Joy that fulfills us so that we are never dependent on anyone or anything outside.

The search for Love begins from within us and within us there is the Divine Source of Love! The search for Peace begins from within us and within us there is the Divine Source of Peace! The search for Freedom begins from within us and within us there is the Divine Source of Freedom! The search for Wisdom begins from within us and within us there is the Divine Source of Wisdom! The search for recognition begins from within us and within us there is the Divine Source of Recognition from our Creator who has brought us to Life and when we experience it, then, we will laugh at our descent that we run everywhere and do everything to be recognized.

The mind makes us think that now that the world has recognized us we have become important; from zero we became the number one. We are all number one but we do not know it and we crave for conquests to be recognized. Look at it in the written form as well; our Self-Knowledge is always the Number one! Any zeros we put behind it —what we have conquered— get value because of the one, i.e. 1,000,000,000. If our conquests —whatever they might be— we put the zeros in front of the one which is the Self-Knowledge, i.e. 000,000,000,1 are completely useless without any value, while the one, The Knowledge, never loses its value as a Number One.

So, when we put anything in front of Knowledge and underestimate it, we are fools because you see the example, all zeros in front 000,000,000,1 and our achievements are completely useless. Whereas preserving our Dignity first with the Divine Knowledge of ourselves 1,000,000,000 with all the zeros behind our achievements have value because they will be used under the sound guidance of Knowledge for the General

good of humanity and not for our part to pretend, rob and kill for our useless conquests.

Even if it is not said, it is the Supreme Blessing and the Supreme Success of man with the help of the Self-Knowledge that our Beloved Master connects us with!

***First you become a student of Knowledge  
and then you realize that you are the Son of God***

---

First you become a student of Knowledge and then if you are devoted, you pass into the awareness and you feel that you are the Son of God! In the Apocalypse of the evangelist JOHN in chapter KA' and verse 7 it says *"and he shall be my Son."* In a speech in Barcelona when our Master was young he said, *"How incredibly proud I feel to be a creature of my Creator!"* And he said to us: *"You too should feel the same, incredibly Proud that we are creatures of our Creator!"* The mind can never imagine or feel the feeling and experience of the student who experiences the absolute relationship with his Beloved Creator! It is a Divine Feeling of Love and Security like the feeling a small child has with his or her Beloved Mother in her arms, who feel ONE!

It is like the adopted child, when we are born our Mother takes us by cutting our umbilical cord, since we were conceived in her blessed womb and we part with our Mother Life who gave birth to us and weaved us in the womb of our biological mother. And when we grow up and deal seriously with our Self-Knowledge, we recognize our Primary Mother Life (Indiscernible Divine Energy) within us, and then we understand our biological Mother as well, that she is a Divine Mediator of her and we must recognize her with much Love and Respect for her care since we live to this day. And not only that, but we have the incredible LUCK to live today when the

True Representative of Life who introduced us to her has come, to spend the rest of our Life with her in her Divine Eternity! This seems like an elusive dream. Not even the most imaginative screenwriter can imagine it.

### ***The Loyalty to Knowledge decodes the verses of the scriptures***

---

Our Master's Liberating Knowledge decoded for me the verse of Bhagavad Gita, the Bible of my Indian “brothers.” It presents Krishna in a photograph as their God in a very deep past who leads the horse with the carriage and Arjuna is next to him. Krishna (God) is the Driver, Arjuna (the Soul) is the reins, the horse is our mind that directs the carriage and the carriage is our body. That is why our Master had said that whoever dedicates soul, mind and body then he will have the Grace of our Sat Guru Maharaji, so that we may have the inner Indiscernible guidance and protection of our Master. And Krishna said: *“the time has come before the gates of war — the inner war within us between good and evil. Arjuna I will not fight for you; you will kill the evil within you, and I will always be by your side, the rider of your soul, your mind and your body, whereas the carriage, our body, all three together are one.”*

Decoding: Our Divine Breath is our Indiscernible Protector who always keeps death at a distance as a Driver. My offered soul is as reins to lead the mind-horse under the Driver. And this Breath of mine is right between my ears, in my nose, next to my mind and moves it and guides it along with my body. When the Driver (My Divine Breath) retires, my mind —horse— and my body as a carriage, our material parts cease to function. But our soul as invisible, which we have offered as reins to the Indiscernible Driver in our Breath, has taught us the Unknowable for the minds. It has taught us about Infinity

to our limited minds. It has taught us the unimaginable for our imaginary minds. It has taught us the inexplicable to the rationalization of our minds. And our soul is aware of its Eternity which is unrecognizable to our minds. And since it surrendered soul, mind and body voluntarily to its Lord (Creator) he has revealed to it the Highest Art of Life and the art of death when it will retire for continual rebirths to serve the respective Successor-Master and as a witness for the mankind to inspire and elevate them.

*“Whoever free from any attachment,  
is not overwhelmed by joy in moments of happiness  
and does not sink into sorrow in moments of pain,  
he is at the level of the perfect Knowledge.  
Whoever withdraws his senses from the objects of their  
enjoyment,  
as the turtle gathers its legs and head in its shell,  
he possesses the true Knowledge.”*

BHAGAVAD GITA, verses 57, 58

How grateful I am to you, my Beloved Master, for helping me to experience these Divine Words in action!

### ***The Inner Supreme Work of the Soul***

---

This Inner Supreme Work of the soul of the devoted student to his Master and his Lord is played every day based on the inner evolution towards the Divine Eternity! Not based on the death of mind and body — they came they saw and left like the blessed animals. It is beyond words and fantasies, what happens with the constant provision of connection of the Divine Gift of Life by our Creator who incarnates Himself to invite us and reveal it to us because no one is able to do it. Only the True Living Master as the Only Representative of our Invisible God who

is Omnipresent and within us with his every momentary Divine Breath! It is like having a father who is a car manufacturer and ensures that we constantly withdraw our old car with a new one. As we exchange old cars with new ones, so we make body exchanges with full consciousness when we have dedicated our whole Life —soul mind and body— for the service of the Divine Universal Work of our Beloved Master Prem Rawat of this era! In another era he will have another body but he will teach the same Supreme Teaching of the Divine Knowledge of Ourselves for Peace, Love, Prosperity and Dignity worthy of our Divine Nature!

Do not be deceived that the Master will tell you what I tell you because it is not mathematics but an inner experience of those who have invested their whole life! That is why he does not make promises but instead he speaks of one Life. Because if he says many lives, after we hear about other lives, we will always leave it for the next life -as usual, we postpone something important that is to do today waiting for tomorrow- and we will miss this Life going for food recycling in Earth. He says one Life, to achieve it now in this Life. The Master does not promise you another Life! But he has said for his devotees: they have an Eternal Inseparable Union!

Do not listen to future-tellers, past-tellers, fortune-tellers, and astrologers. They work for a living in a chair with blah, blah, blah, like politicians and countless other professions. The each time True Masters bearing the Timeless Supreme Teaching of the Divine Knowledge of Ourselves and our Mother Nature work unceasingly for the General Good! May we too be inspired, since we are integral parts of learning from our True Master and from our Mother Nature to work for the General Good to experience within us and outside of us our Blessed True Paradise Now!

## ***The individual interest is destructive for himself and for others***

---

As long as man is motivated by his individual interest in any of his activities they will be destructive for him and for others, as long as he is not in tune with the General Good and is cut off from the universal Power that is within all of us. This world drama has been played from the depths of centuries, unfortunately. Today it is time to change the poisonous and inhuman reasoning of our minds which was shaped by previous generations. The Salutary Knowledge of Ourselves can teach us to integrate with the healthy and noble reasoning of our heart! So that our every thought and action aims for the General Good that includes the Individual Good and so, we will never fail.

## ***The Knowledge of Ourselves is like water***

---

Whoever rejects the water that quenches his thirst, purifies him, and offers him Life, he becomes poisoned by the substitutes of his thirst, dirty and smells of decay. This is exactly what happens to those who reject the Knowledge of Themselves; they are poisoned by the arrogance with the drink of mental knowledge and degrees, they get dirty by the hypocrisy that they know and they are living dead. In the Gospel Evangelist JOHN A' in Chapter E' and verse 12 says, *"He that hath the Son hath life he that hath not the Son of God hath not life."* Those who have no contact within them with the Knowledge of God (Life) are living dead. Also, in MATTHEW in Chapter H' and verses 21 and 22 another of his disciples said to him, *"Lord, forgive me for burying my father first."* But Jesus said to him. *"Follow me, and let the dead bury their dead."* Isn't it so obvious that he is talking about the living dead? Can a dead person bury a dead?

### ***In the desert without a camel***

---

I feel like expressing an analogy to you before I met our Master! I was like a traveler in the desert without a camel, without a compass, without a tent, food and water. You can imagine how painful this journey is; you are anxious every moment so that your end does not come. And my experience after I met our Lord! Now that I have my companion the Divine Knowledge of Ourselves, I travel in the same desert of the world every day but I feel like as if I have a camel, a tent, a compass, food and water and I can offer it to any of my fellow travelers!

The difference between this feeling and this tragic picture of the journey without Knowledge is indescribable. Eventually, this world without Knowledge is like a desert without the necessary supplies for the traveler. That is why humanity suffers.

### ***When people of Knowledge take over, only then will the peoples cease to suffer***

---

As long as the rulers do not study with the Divine Knowledge of Ourselves, the people will suffer together with them. When they take on as Leaders (Servants) who will study the Knowledge of Ourselves and experience Peace every day, then and only then will the peoples cease to suffer. Because the Knowledgeable as rulers will promote the Salutary Knowledge from the kindergartens and throughout the whole learning scale and thus, we will have decent societies.

### ***Our Life is the most True and Precious Wealth***

---

Only if we allow incorporating in the palette of our heart the simplest and most essential realization, that even today through an Indiscernible Grace and Power we breathe and we

exist, our heart will be full of Gratitude every day and our foundation will be mighty, unshakable!

We have the most Precious and Abundant Wealth, Life, which is not comparable to all the wealth of this world of delusion. Only the Knowledge of Ourselves can awaken and redeem us! We can make every day a celebration!

\*\*\*

The Supreme Blessing is our Divine Breath, which coming and going fills us with the Divine Gift of Life! When we realize deeply the Highest Incomparable Gift of our Existence, the cup of the heart will be filled with the Divine Feeling of Gratitude and the man will then, and only then, feel Rich and totally Free!

\*\*\*

When we discover Truth and Peace within us, we have achieved the Supreme Success! And these are not just words since our Master Prem Rawat offers a practical way to experience it and not just to believe it or to imagine it.

\*\*\*

What an incredible honor and fortune to be able to feel bliss today in contrast to this dark insanity we live in.

\*\*\*

Let us not be indifferent to recognize within us the Supreme Wealth of our Creator who has put inherently in our hearts because we will be constantly enslaved, trapping our children in the set up circus of delusion and perversion.

\*\*\*

Lack of Divine Love, which we have not discovered in ourselves, since we do not practice the Divine Knowledge of ourselves, unfortunately perpetuates the most horrible martyrdoms by people against people and in all forms of Life.

\*\*\*

To cure this tragic chronic illness, let us seek the Knowledge of ourselves so that we can hope for a new bright story!

\*\*\*

When we discover the kingdom of our hearts, then and only then, will we know our Inner King and we will realize that we are all his princes! We are not at all what we see around us. This formation in humans was incorporated by some who did not know that they were princes and acted as beings without eyes and logic of the heart! Let us not become participants in the perpetuation of chaos and darkness. It is our time to chase it, enlightening ourselves with our Divine Knowledge!

\*\*\*

Allow me, my dear friends, to make a separation for your benefit. Because we identify the word life with what we do to rejoice. When the Master says enjoy life he means life itself which is manifested in our Divine breath at every moment; he does not mean enjoy life with all the rubbish of this world.

\*\*\*

I feel the need to express myself, not for a show, but hoping to inspire a heart, to turn within us, to know the most invulnerable foundation!

It is our Divine Self, which is revealed to us by learning the Knowledge of our Self! Then and only then you will feel fulfilled, peaceful, free and clear! Now, it's up to you when you

take the step! If I knew something more important, I would let you know, but that for me is the most important!

\*\*\*

The whole journey of our Life depends on our every momentary thought and action whether it will be beautiful or ugly. That is why it is necessary to learn the Divine Knowledge of ourselves, in order to learn the Highest Art of Life, how to live internally fulfilled and with full consciousness in the Divine Present!

\*\*\*

Eventually, everything we need is innate, placed in us by the Creative power of God who wove us in our mother's womb. It is up to us now to discover them. I urge an inner turn in our Self-Knowledge because all adults have a little more different experience, that all the turns of this world threw us into ravines and everyone has suffered differently. Let us finally learn from our pain bell.

\*\*\*

A building without foundations will sooner or later be leveled and become broken pieces. You have seen earthquake results. So are people without foundations, Divine Love and Respect, sooner or later their relationships become broken pieces with each other. You have seen wars of self-destruction. They do not kill each other in the insane asylums either. How can this be stopped? When we engage in our Self-Knowledge, we will realize the unshakable foundation of Love and Respect and we will eliminate the hatred and disrespect that lead us to our mutual annihilation.

\*\*\*

Whoever realizes, and empirically, the unimaginable importance of our Divine Breath, has achieved the Supreme Success because he unites with the Divine Eternity! UNBELIEVABLE but TRUE, my dear friends! And as our Beloved Master says, our Divine Breath is the Most Precious we have!

\*\*\*

When we realize and begin to apply the idea of the General Good which includes the individual good, then humanity will surely evolve internally and externally! So, let each one of us try to materialize it from today because today is yesterday's tomorrow, and tomorrow will be like today. So, everything happens in the Divine Present of today!

\*\*\*

Let us observe the thirst for our joy, where does it begin? Of course from within us! Inside us lies its source to quench our thirst! But because we do not know it we are constantly looking outside and drink muddy water from everywhere and we are suffering more and more!

\*\*\*

Today, our inner source is showed to us, for those of us who want to get to know it! When we discover today that the Incredible Opportunity is offered to us, the Peace within us, and we invest, then and only then, we will know the True Paradise within us and we will understand the outer Paradise — our blessed Planet Earth— which sustains us and all forms of Life with its innumerable magical goods!

In the rest of our journey we will be full of Divine Gratitude, Divine Peace and Divine Freedom! The Most Amazing Human Achievement! As long as you are alive take full advantage!

\*\*\*

Everything we need to experience a beautiful daily destiny is inherent in us by our Beloved Mother Life! With the Divine Knowledge of ourselves, if we invest sincerely, we can achieve it!

\*\*\*

When we keep telling the Truth, humanity will be cured of the global mental illness of falsehood. It's up to us to achieve this, starting with being honest with ourselves first! Little by little there will be interaction and we will heal one by one!

\*\*\*

When we discover our Divine Self within us, we will be liberated from everything and only in that way will we feel that we have performed our Divine Work! Only the Knowledge of Truth can set us free!

\*\*\*

Those of us who sincerely wish to know the Truth within us in order to reject the carcinogenic lie that we have incorporated in our every communication and in order to hope for a new personal enlightened story, it requires sincere learning with our Divine Knowledge of Ourselves.

\*\*\*

When we know within ourselves the Divine Core of Life, only then and then only, will we be able to write our daily story with incredible beauty!

***Incredible Blessing to write our story  
in the palette of our hearts***

---

It is an incredible blessing to feel like writing our personal daily story on the palette of our heart instead of learning with our minds the stories of others and copying them into books or parroting them.

And this can be done only with the Divine Knowledge of ourselves because each new day gives us a more evolutionary learning of Inner Freedom, Clarity, Wisdom, Peace and Bliss!

I wholeheartedly hope to seize the Beautiful Opportunity!

## **Our Beloved Master who wove my incredible story!**

*I* felt like going back to the beginning of the thread and express to you how my incredible inner story began, wishing to touch some heart from the writings of my heart to seek the Divine Gift of Knowledge from our Current Master so as to pass in the Inner Supreme Apprenticeship of the Divine Knowledge of Ourselves!

My Inner Story with our Beloved Master began when I was in the army without having known him before and I had not even imagined that I would know him and such a Magical Story would be born!

As I was preparing to recruit, I had a thought of getting a book with me in order to learn something —because I did not like reading— when I would have time after the exercises and lookouts in the watch-towers. And when I went to my brother's house to greet him, I saw in his library a large book of many pages and I pulled it to see the title, and it was, “World History of Religions” and I felt, while telling him, it fits me perfectly that something serious I will learn and I greeted him with thanks for the book.

Finally, the time came and everything was arranged to go to the army. As soon as I got the chance the next day, I started full of thirst long hours of daily study of our religion. Something started to wake up in me and to like reading with more and more interest to the extent of being indifferent to presenting myself in some invitations and in the reports, and as a result, I was de-

prived of my furloughs. My friends were unhappy that we did not go out together but I was deeply pleased. The time came and my captain asked me why I was absent; I explained to him, to read more, and he asked me again, Kontomichalos, are you Jehovah? I had absolutely nothing to do with it I replied; I just like to read about religions.

After all, my company and other companies in the army finally found out and a friend offered me a New Testament with translation by Mr. Panagiotis Trembelas which I still have after 53 years as a souvenir. I read several verses and they touched me so much that I decided to serve our Christ and where else could I do it but in the church? I searched and I found an address which was in Charilaou Trikoupi str. in Athens and I visited him without delay full of zeal to indicate to me how I can start as a worker of our Christ in the clergy. His answer was, "Do not enter the clergy or monasteries; if you want to serve Christ serve him outside in the world". I felt disappointment but at the same time relief because unfortunately I heard and saw things that I would not like to see from the representatives of our Christ! And thus, I felt calm that I had done my duty and since a translator of Christ words advised me not to wear the robe of the church, I saw it as for my own good.

I had the feeling that our Christ would come again and with great confidence and seriousness I began to express to those closest to me that his Second Coming would come! I was thinking that it is impossible for this downward misery of humanity not to stop and it was transmitted by word of mouth to captains and majors that Kontomichalos says that the Second Coming will come! I had also given time limits for Easter Holy Saturday, with our own data of time, not knowing that timeless does not have our own meaning of the time, of our calendars and clocks. In the New Testament PETER II

Chapter C', verse 8 it says, *"In this let us not mistake, dear ones, that for the Lord one day is as a thousand years and a thousand years is as one day."* And in verse 9 it says, *"The Lord does not slow down his promise, as it is considered slow, but he forbears for us, not wanting some to be lost, but all to come to repentance."* And so when Holy Saturday came some colleagues had stayed with me and we eagerly awaited the Second Coming!

As time was passing without any Presence no one mocked me because they knew my Respect and the seriousness of my words that came from my heart and I remained steadfast in my vision hoping that one day it will happen! And yet it happened beyond all expectations and imagination as you will read below. I had not heard of the whisper of my heart that it was not my vision. Because if our Christ had not come and I did not know about him, how could I have envisioned him? And if our Master had not found me through his disciples who would have accomplished these REALIZED SUPREME VISIONS?

The more I read the Bible, regardless of my unsuccessful first attempt, something in me grew and I felt stronger in discipline and purity and I could not remain still without doing something due to the longing I had to serve our Christ in action, not only with parrot words of the scriptures I read and was inspired by. And then the noble idea came to me to serve him in something very serious: to prevent life being taken away — a crime. And I called the state sociology service to tell me if there was a "crime prevention branch." I was told that I must have finished high school to go to the university to study psychology and criminology.

I went crazy from this answer too, because I had only graduated from elementary school, I did not like studying at all because I liked playing ball and the twist of coins much

more in order to gain some money for some pasta since we were 4 orphans from a Father that I lost in the made civil war of political gangs, which I understood later when I went to the army. My hope to serve him collapsed after their answers and I envisioned deep in my heart that if I lived in the time of our Christ, it would be incredibly enough for me to wash only the floor that his Divine Feet would touch! After a while when I finished my military service I met my wife and proposed to her because I felt that I would be wasting my whole life in prodigality, hoping to avoid the habits of the past that is omnivorous, cigarettes, alcohol, gambling and lust which I mentioned above.

### ***The unexpected Encounter was predetermined by our Master***

---

Forty-five years ago in 1975, when I was working as a taxi driver, I got two clients and they were talking on the road about a film they were going to see. And although the working conditions in a taxi were very difficult, many of us waited in the taxi driver's cafe for a break which a driver would do so as to work. I was touched by the title they mentioned and I stopped my work with the risk that my boss would not give me work again if I presented few kilometers to him. And so, I went to see the film "The Exorcist" at the Radio City cinema in Patission str. in the center of Athens. At the entrance I met two students of our Today Living Master who were handing out invitations to the public and I also happened to be a recipient with the address in Kalamaki area.

I remember something shocking. Going there for the first time, dark thoughts kept coming to scare me not to go. They whispered in my mind that it could be black magic, to commit crimes; how do you go alone? I remember that my search was

very strong and I was not at all interested in these threats and I went. After many years with many battles and victories by the Grace of our Master, he helped me to understand that they wanted me dead because I would not serve them. They had rented a room and I could go to listen to the experiences that each student told in their own way of expression for a Gift given to them by their Master which he called it KNOWLEDGE!

After I went every day and listened to them because they inspired me with their sincerity and selflessness, I quickly informed my brother, my cousins, an uncle and my friends, feeling that our Christ had come without having seen our Master and nor had I received His Knowledge! My friends told me that I lost my mind a little from the great joy I felt, wondering how Notis, a gambler, lustful and euphemist, tells us about the coming of Christ! My brother and my cousin's wife took it very seriously but my cousin laughed at me and did not want me to inform his wife until the time came and they both got the Knowledge! None of my friends took it; we were just for taverns, and gambling, and the only one who got to our Master it was me who accepted him. Finally, the time came for me too. And in six months I received the Gift of Knowledge through an instructor who was sent to us from India!

For the first 7-8 months I obeyed my instructor's recommendations which were three: first, not to show anyone the techniques, allowing everyone to go their own way to receive Knowledge from its Source. Secondly, one hour of self-concentration every day, and thirdly, to be in touch with the speeches of our Master and in the company of the students who have received the same Gift in order to inspire one the other. I started a gentle inner turn to get to know and get acquainted with another space and transceiver which we call consciousness or heart or soul or the deepest being of ours. (Let's not stick to

words!) I felt so human, so happy and so peaceful that I wanted to dedicate myself completely to what I was doing, which beautified my life more and more day by day!

I was married, I had two blessed children, we were expecting a third, the financial situation was very difficult and my wife was completely opposite to what was starting to transform my daily life for the better and more beautiful. Unfortunately for that time, after 8 months of beauty, joy and humanity that I invested in my instructor's recommendations, the insidious subtle deviation came and I stopped concentrating. The natural consequence was that I returned to the miserable daily experiences of the past, where the patch of my habits had been attached up to the deepest cells of my being. My abstinence lasted for about four years. It pushed me so far away from my inner home, crushed me and disintegrated me with the routine, moldy vile experiences of this world, but at the same time it strengthened my sense of shame and my sense of returning to our Master's realm.

He had shown me the beautiful sanctuary that exists within us and from which for the first 7-8 months I had felt the inner joy, the inner freedom and the inner peace. And so I knew that there was the real compass which makes the journey of my daily life beautiful and clear! My repentance was so strong and the invocation of the help of Knowledge within me for the search for liberation was so sincere that I immediately began to practice. I came in contact with the environment of the students of Knowledge and its spreading! And so I resumed the practice I had promised when I received the gift of Knowledge!

This true repentance, the true pursuit, freed me from the material experiences of mind and body and self-concentration made me very strong in self-discipline. He taught me how to discard painlessly and gradually all the substitutes of this world

which I thought that they were achievements of my free choices. The Salutory and Liberating Knowledge awakened me to see that all my free choices to the outside world were heavily locked chains which never unlocked with any key except the magic key of the KNOWLEDGE of our Beloved Master!

You can imagine how much Gratitude and what Love is created afterwards to the penitent prisoner for life towards HIM who gave him the GRACE of his Liberation! This indescribable Love and Gratitude to our Master is so torrential that it breaks all barriers! And I begged him because I knew the Mercy of His Grace from my release. Can I, please, recommend you and give the message of hope to my fellow human beings around me because I know that they suffer from lifelong submission to their desires and perceptions and the unbearable weight of their chains? And of course the answer of my Redeemer was and is: of course inform them because only for this purpose I exist. To release those who have realized that they are slaves to their passions and sincerely seek their release! And those who are not slaves to the desires of the flesh and the senses of the mind but are slaves to perceptions and human mental knowledge and prejudices and do not know the other form of inner chains and are slaves to their minds; may these people as well know that there is a Redeemer for everyone and everything! And he has allowed me with his Kindness and Grace giving me the most pleasant and Noble Opportunity to inform everyone both orally and in writing! Therefore, what I mentioned above in the word "I succeeded" was only sincere repentance and the search for liberation from the past of the artificial false paradises of this world circus which the human minds created and had trapped me like the moving sand that our Master has said! I do not parrot but I experience it.

The much-desired and indescribable in words sweetest result of my repentance and my search is his Accompanied Goodness, Love and Grace!

So that with the practice of the Gift of Knowledge of his, the flow of the wheel of my life changed and the rest of my daily journey is so beautiful that I feel like I am chanting it to every human being so that I can see my other fellow human beings with this glorious Inner True Happiness to travel this beautiful journey of Life, which provides us with the possibility and opportunity for inexhaustible learning of our Infinite Inner Wisdom!

### ***The Marriage of my Soul***

---

My first Supreme Inner Experience after my return was when I sat under a fig tree to pray to St Irene Chrysovalantou after a ride I had as a taxi driver. My soul was ecstatic and next to me was our Master in the form of his age at that time and someone put me the wreath of the inner Marriage of my soul! In the Bible in the book of JAMES Chapter A' and verse 12 says, *"Blessed is the man who endures temptation, for after he is tried, he will receive the crown of life, which the Lord hath promised to them that love him."* My mind was constantly trying to erase my unprecedented experience that it was a fantasy, but I answered it. Like today, those who met me after the material marriage I had with my wife which they had not attended, may doubt about the wreath. However, I am so absolute that they put a wreath on me and my wife when we got married, as absolute as I am on the wedding wreath with our Master even if everyone doubts! And this Supreme Divine Experience was becoming more and more established when I remembered what I had read in the Bible: Apocalypse verses 2:10 *"Be faithful until death, and I will give you the crown of*

*life.*” and I was steadfast for the Most Invisible Divine Fact of my soul so that I was flooded with Divine Bliss, which I could not express to anyone, not even to my family, because it is unproven and they would call me conceited. But now I reveal it to you because so many other inner Divine Events follow, which confirm all the above-mentioned facts and that is why my devotion to our Beloved Master is absolute!

This Divine Experience of Marriage is accompanied by a photograph which was also given to me by my knowledge-mate Hadjikos in which our Master anointed with the diamond Tiara as in “Marriage” his brother Raja Ji. This photo always reminds me of the time when we were young students and he used to send us his brother as his representative and other instructors and inspire us with the Love, Hope, Joy, Respect they received from our Master and stood like stakes in the small trees so that we are not uprooted by the winds of doubt, forgetfulness and the habits of our passions. Until we too grew up with deep roots in the Divine Land of Knowledge and our instructors continued their apprenticeship in other roles. And so, I never forget his Divine Love and his Salvation care from afar as well and I am always indescribably Grateful.

### ***The Oracle***

---

Another Supreme Experience that was offered to me was in the hall in Joseph of the horns str. in Makrygiannis area, where we went as young students of Knowledge, we stood up and expressed what everyone felt about Knowledge in order to inspire each other and at the end we sang a song which also contained this verse “You Are Me and I Am You!” As I was singing and feeling these words, an inexplicable inner stream passed through me from my scalp to my toes and I was filled with Indescribable Awe and left at the end without saying any-

thing to anyone. Because each inner experience is offered personally according to the investment of Love and Devotion that you feel for your Master and I did not want to disturb their “waters” as everyone felt from their own learning investment. And of course, I did not seek confirmation of my personal inner experiences as long as I knew that the inner path is completely personal.

After a while I realized that this experience too, was offered to me in order to understand that finally this Superpower is within us and also to confirm to me the Divine Saying of my then mates of our Christ, “The Omnipresent and everything fulfills”, which I could not realize or experience through reading and listening until the God in me allowed me to be fully aware of what is Omnipresent with the inexplicable current that penetrated me throughout my body!

The Omnipresent after all, is our Divine Breath, without which absolutely nothing works! It shrinks and expands the universe and gives Life to everything! After a long time of apprenticeship and honest learning I experienced that this experience is an “oracle” to those devoted to the Divine with the revelation and Grace of our Master!

### ***Three days of fasting for awakening inner guidance***

---

Another Supreme Experience was in the two-day event in Birmingham where on the first day there wasn't Greek translation —lack of translator— but I went to the two days event even though I did not speak English. On the second day we had a translator and the Master began his speech by saying, “I also fasted for 3 days” and he turned to the seat where my cousin's wife was sitting and she shook her head in surprise because she remembered the words that I had told her 2 months ago that I had an unprecedented experience of fasting

3 days with oranges even though I worked 12 hours a day in a taxi and I was omnivorous. I went crazy wondering about his report and my mind told me that it may be a coincidence.

But analyzing the case that he mentioned it on the second day that there was translation and so I could hear it because if he had said it on the first day, I would not have understood it and this increased the consolidation in my soul that our Master was our Lord in me, the one all humanity is waiting for!

### ***My Voluntary Marriage of Devotion***

---

On my 33rd birthday at Christmas I felt that I should also have my Voluntary Inner Marriage of Loyalty to our Master no matter how far I sometimes deviated as if I were failing my material marriage but the right time came and showed me why I was deviating because I had not learned to be constantly focused on my Divine Breath! Because due to our Breath everything happens in every moment and when you are focused you are never trapped because the same Divine Indiscernible Energy immediately helps you not to be trapped.

And so, you know that only with the Grace of your Master you can always be a Winner, if you constantly ask for his contact, his guidance and Help through your focus on our Living Divine Breath! In the Bible in JUDA Chapter A' and verse 24 it says, *"And to him that is able to keep you faultless and to set you before his glory blameless rejoicing."*

### ***Protection and Salvation from certain deaths***

---

After years of my apprenticeship in the Salutory Knowledge, he allowed me to realize that these certain deaths and so many other bad incidents, strokes and disabilities which were prevented, were not just a phrase we attribute as "luck" and nor to applaud God in me who literally saved me. But to realize His Abso-

lute Protection and Presence within me and that there is no accidental death for me. Our Master (our Lord) will inform me within me during the inner conversation that takes place in my self-concentration when I will leave this body.

I have told this my family and they laugh and wonder at the same time if our father really does know something and I understand them but the reason I have told them is so as to believe in our Master that he is the One that I have told them, when the time comes for me to leave. In the Bible in PETER B Chapter A' and verse 14 it says, *"Because I know that in a little while I will lay down my body"* as our Lord Jesus Christ has revealed it to me too. My destiny, by His Grace, I have completely dedicated to my Beloved Master because He literally saved me from death from what I mention to you and I exist to this day. It is for me an Unbelievable and yet True story!

### ***Salvation of the 1st death in Chalkida***

---

When I was 13-14 years old with 6 friends we left Kou-moundourou Square at night for Chalkida with 3 motorbikes and I was sitting in the back. In the old National Road I fell asleep on the motorbike and I realized it when my friend who spoke to me did not get an answer and woke me up scared, grabbing me from behind with one hand and telling me, "No-ti, wake up, you sleep, hold on, because in a little while we arrive." Luckily I woke up and I was held because we were really close indeed.

As a student of Knowledge afterwards, he helped me to understand that This Power that is within each of us made my friend wake me up without him knowing it. Because if he had not woken me up, I would have relaxed and I would have fallen back and the cars that were coming fast on the highway

would have dismembered me. By the way, when I worked in the taxi for many hours every day my eyes had seen a lot.

Once on a large motorcycle in Vouliagmeni Avenue the one sitting back would seem to have fallen asleep and I suddenly saw him leave the motorbike doing buttocks and fortunately no other cars were coming behind him, otherwise they would have dismembered him. This unforgettable incident reminded me of my salvation on the motorbike I had slept on.

### ***Salvation of the 2nd death in the ocean***

---

Another experience of salvation was when I boarded with a friend of mine 16-17 years old on an old ship, a pirate truck that we caught in Italy, because it never reached Greece for unknown reasons. We were on our first voyage in an ocean passage called "Beis" which had another name by the sailors as "Ship Cemetery". The night we were passing by that spot we were caught in a storm that raged for hours. The waves covered the boat and we cried incessantly in the cabin because we thought that we would never see our families again.

From what I understood after my apprenticeship since this ocean passage swallowed large boats as our colleagues had told us we were miraculously saved. After 6 months of disembarking because the captain did not pay us at all to send money to our families in the ports, we accidentally read in the driver's office where my friend's father was reading the newspaper, that the ship "Ypapantis" of the ship owner Katsoulakos sank. After many years I connected it with the literal deaths that he saved me and the ship sank after our departure.

### ***Salvation of the 3rd death in Australia***

---

Then I embarked on the Transatlantic “Australis” as a steward assistant so as to flee to Australia because I had no money to leave as an immigrant, something which I did on our first trip. And there I had another experience of salvation!

In a park in Melbourne where my girlfriend and I happened to be at that night, we heard a commotion and screams as if they were drunk. She knew about the unpleasant incidents of hooligans in Australia and immigrants from other countries, about whom the newspapers wrote for serious offenses and crimes.

She panicked and told me, “Noti run because they will kill us”. I did not take it seriously but she pulled me violently and very scared and we ran quickly to get away from the hunt and the screams we heard behind us when they realized that we were running. It was incredible Blessing when we arrived at the exit of the park looking to find help from anything. As we looked at the left we saw a taxi coming and it stopped to pick us up since we had raised our hand. The cannibals reached us on the rear of the taxi while the taxi driver was starting to move screaming to eat us. The driver reassured us telling us that fortunately we were very lucky that it happened to pass by, because in the parks there are also crimes.

### ***Salvation of the 4th death also in Australia***

---

Another experience of salvation! In another park in Melbourne, I went with a friend and two Australian girlfriends for a walk before noon and we did not manage to go around it at all when some other cannibals appeared in front of us and surrounded us as wolves do in order to eat the sheep. Maybe they distinguished us as immigrants from our poor English and the accent of the Australian girls, and because that was

the time of immigration there was intense racism among young people with savage beatings. And unfortunately we got to know personally what we heard from former immigrants who had been there for a long time. The beating we had from about a dozen hooligans with kicks, punches and sticks is indescribable.

Luckily, our girlfriends got away screaming or they let them go, and we were very pleased that they did not suffer the same torment as us. We were both with our face on the ground completely dizzy and in terrible pain from the blows to the head and body and the cannibals ran away when they saw a crowd gathering hearing their screams. We went out of the park folded from the beating and we found a taxi that took us to the cafe where our friends and my friend's brother were so as to take care of us. I avoided hospital treatment because I was illegal since they would definitely send me back and it was too early. A conclusion of my gratitude, if some reason inside them had not stopped them, they would have killed us; our faces were deformed and repulsive, that is why I mention it as salvation!

### ***Salvation of the 5th death in Saint Panteleimon in Vouliagmeni***

---

Another experience of salvation! When I got married after the army, I was working and for a period of time I worked with two different taxis; as soon as I finished with the one I caught the other one for some service. One night at the New Airport in Vouliagmeni Avenue as soon as I disembarked the customers I felt a great need for sleep and I heard my thoughts telling me to go to sleep at home and I replied, "Let me sleep here in the square and when the plane comes and my turn comes my colleagues will wake me up." I remember my thoughts persisting,

urging me, "Come on, in 15 minutes you will be at home and you will sleep comfortably setting the alarm clock whenever you want to go to work." I was affected and left because I was very sleepy, whereas in previous times I stayed and slept at the airport until the plane and my turn came. Leaving the airport, nearby on the left it was the American Base and I quickly fell asleep and I went up to the dividing islet of the road and hearing the bang on the sidewalk I woke up and instinctively I pushed the brake and turned on the right and went down on the road again towards "Neos Kosmos"; otherwise I would have gone to the opposite side of the road and the drivers going down to "Glyfada" with high speed, we might have had some more dead people because of me.

I remember that while driving I cried out of gratitude because I realized that I was saved and I continued with steady hands on the steering wheel to get home as fast as possible before I fell asleep again at the wheel. Just before the traffic light of "Agios Panteleimon" I had fallen asleep and I got up on the right sidewalk, I crashed sideways on the walls of Vouliagmeni Avenue between the columns of Electric Supply and hearing the noise I woke up tightening the steering wheel with all my might shouting "my Madonna" with terror. I crashed into the pillar, of course the car stopped, the steering wheel was bent towards the dashboard by the terrifying force I had put, the upper half of the pillar broke and sank the upper part of the car, the lower part of the pillar sank the front part and the upper part of the hood about half meter.

A car that saw the incident stopped and the couple in it were immediately interested in taking me to the hospital but fortunately I did not have a single scratch. I thanked them very much for their humanity and I called the Glyfada traffic police. From the condition they saw the car their first question was, "Do we have dead?" I answered them, "No." Fortu-

nately, I was alone and they did their bureaucratic duty and left. I called my boss and my brother at the same time to come and go to the first aid. Maybe I had suffered something internally from the concussion in the car crash because it was an unprecedented serious experience.

After the first aid that everything was ok, my brother and I went to my house and when my wife opened the door she immediately asked me, “Noti, what happened? I saw you a while ago in my sleep and I dressed you in white to put you in the coffin.” Of course, I told her that I had a serious accident but thank God I escaped a certain death because if I had hit the pillar first, the steering wheel would have entered my abdomen.

I remember the other week I read on the front page of a newspaper that the poor guy Papaioannou, the bouzouki player, after his work he too crashed while sleeping on the coastal road at Moschato area in a pillar and the steering wheel went into his abdomen. After a period of apprenticeship with our Salutory Self-Knowledge God inside me showed me that the thoughts that sent me to sleep had “prescribed me as dead” and sent an ethereal telephoto to my wife but my soul led the steering wheel to crash between the pillars; otherwise if I had crashed into the first pillar, I would not have written to you what I write now.

### ***The Blessed Church Saint Panteleimon for remembrance***

---

I will be as brief as I can, but I feel like telling you this because what I am writing to you is not a novel to have a good time but they are all different pieces of an inner human puzzle completed by our Master which He has begun allowing me to witness, moving as a different piece of the puzzle. When I was betting at horse racing, —before I met our Master— I won with 20 drachmas 80,000 drachmas (10 drachmas gave

40,000) with two outsiders that were recorded in my mind because it is connected with the story of Knowledge until today.

Since I was extreme in gambling I knew that I would lose again the money I won and the next day I went to Vari area to a real estate agency to buy a plot of land because I was working as a taxi driver on the Varkiza-Athens route with a fare, taking people from the starting point at Zappeion and I had met a lot of people. But unfortunately for that time, the agent was missing and they told me from the store next door that he would come in a week or so. And until the agent came back I lost the money because I bet a lot so that I might multiply it thinking that this sum has already been won. I remember that in my unscrupulousness I was not very upset because I was integrated with gambling as long as I bet on horse racing or cards or dice.

In 1990, of course, I had acquired Knowledge and I had detached myself from everything because in 1980, on my birthday, as I mentioned before, I had my voluntary inner marriage with our Master and in order to reach this decision it took some continuous purification discipline and the gradual disposal of much garbage in the mind and body. In the Bible, To the ROMANS letter, Chapter S' and verse 6 it says, *"Knowing this, that our old man was crucified, so that the body of sin might be abolished, so that we should no longer be slaves to sin."* And my heart inspired me —because I had become conscious and a housekeeper— to go and buy land to put the caravan I had bought for our children and to be close to the sea because then we were being chased for free camping near the sea. And I looked for land in Anavyssos area because when I had races to Saronida and Anavyssos I liked it more because it was less crowded and it was further away because it was very crowded in Saronida.

After years of learning from the Salutory Knowledge I heard the voice of my heart telling me, “I prevented you from buying a plot of land because the money was without any effort of working but of gambling, “wind picking and scattering.” Look now, how much you enjoy and appreciate the purchase of your plot out of your work.” and I felt so relieved and happy, despite the many bills I paid to pay it off. This purchase in Anavyssos had two lessons because in the imposed insidious robotization of technology and the wheel I had forgotten the deaths that the Grace of our Master had saved me because we attribute everything to luck!

And I found two plots in Anavyssos because we had three children, thinking also our grandchildren when they would be born to enjoy the summer season. So with an advance payment and affordable monthly bills, five minutes’ drive from the plots to the best beach of the Saronic Gulf and a characteristic neighboring sign and a small church. Unbelievable but true, they called it Saint Panteleimon. Years later, the instant death that awaited me in Agios Panteleimon at the traffic light of Vouliagmeni Avenue appeared in my memory. Immediately I realized that it was a reminder sign to continually increase my Gratitude and Absolute Devotion to my Beloved Master!

### ***Salvation of the 6th death going to meet our Master for the first time***

---

At the age of 33, before my voluntary marriage from which I abstained for 4 years, I started exercising and disciplining for purification because I had a feeling of who I was going to see. Therefore, I had to feel clean inside like the smudged mechanic who washes his body and changes his clothes to go to his wedding. So, I too washed my mind every day and rejected the hedonistic habits of my body and went by my taxi to see

our Master for the first time in Italy. In the Bible in PETER'S letter A' in Chapter B' and verse 11 it says, *"Beloved, I beseech you as strangers and wanderers, to abstain from carnal desires, which are fighting against the soul."* We went 5 mates because we did not have the plane fare and we paid for the fuel and tolls at 1/5 each. I remember getting up at 6.00 in the morning taking each of my knowledge-mates from their homes, loaded with the essentials for such a long and first-made journey.

There it was another experience of Salvation from certain death. I fell asleep in the taxi after a 20-hour journey with unprecedented experiences of fog, storms and straight long distances with a 180-200 km run to catch up with our Master's program. A moment later I realized that my soul woke me up and I realized that I was not controlling the car and immediately I saw an exit and when I went out I immediately saw a recess for sleep, in which as soon as I stopped I fell asleep immediately because the brain energy was exhausted and we escaped all the 5 of us from certain death. I did not tell them anything about the fact because they asked to drive my taxi while they did not have an international license and they were also amateurs in driving and I could not give it to them in order to have some rest. We started in the morning when the battery of my mind was charged and in the evening we arrived in Rome in the middle of a terrible storm and we all immediately fell asleep because we were exhausted. In the morning we set out for the program full of joy that we would see our Master!

### ***My first meeting with our Master***

---

As soon as we entered a large room in which the program would take place I met the most Incredible but Unbelievable and True Surprise! I saw the students-premies in front of me

walking in the corridor on the left in queues and I looked to see where our Master was who would give us Darshan (that is, to see him all by contact). As soon as I turned our Master turned his head and looked at me in the eyes allowing me to acknowledge that he was our Lord who “I had announced his Second Coming in the army” and I felt that he was waiting for me. Until I reached about 30 meters in front of him, I thought of kissing his feet as a sign of recognition.

The armchair he was sitting on was higher than our heads and his feet reached our chests so that those who would feel it they could touch or kiss his feet. As I was approaching as the 5<sup>th</sup> in the queue I saw that opposite our Master there were two students who gently touched on the backs those who were passing by so that they could move quickly so that there would be no delay because we were thousands of students. The miracle for me was that I kissed his Divine feet 4 times crossed —symbolic of the Holy Cross that crucified him to humanize and perpetuate the Salvation of the human race— and they did not touch me to move on but waited for me to finish and for our Beloved Master to fulfill the wish of my heart!

Then when his contact presence ended and he spoke to us from the stage, as soon as I heard His Divine Voice I burst into unrestrained tears “like the little child who finds his Beloved Parents again after many years of loss”! After his speech ended I asked myself, where and how these loud and unstoppable sobs manifested because it was something incredible and unprecedented! And I received an answer from my heart, that my tears were mixed with various feelings and contained the deepest Shame, the deepest Repentance, the deepest Gratitude, the deepest Respect, the deepest Love and the deepest Happiness because I experienced the Supreme Divine Parable of our Christ the “Return of the Prodigal Son” that I saw with my own eyes the Love and Compassion of our Master who ac-

cepted me after such a long shameful abstention! Since then, the intuition of my Soul that he was our Lord whom I was waiting for since I was in the army where I had announced him became more and more established!

After many years of learning I fully realized that, because he gave me the feeling that he was waiting for me when he looked at me in the eyes. When I was purifying myself in the gym to go for the first time to meet him clean, after my 4-year abstinence, since God is in us, did not our Master know for whom I was preparing my purification? These are mysterious and unbelievable for the people who do not deal with the Supreme Knowledge of Ourselves. However, they are Divine Words of our Christ in his then Divine Era, which I experience in our present time from our Master! “That which is impossible for men is possible for God!”

Infinity has no limits and it is beyond the laws of nature because Infinity has made everything!

### ***Public outcry to our Master***

---

Another Divine Experience, fulfillment of a wish of my heart! In another program again in Italy in a majestic amphitheater in Palatino in Milan I felt myself to get up when he came on stage before he started talking and I shouted with all my passion “Boley Sri Sat Gurudev Maharaji Jay” and everyone immediately got up and we shouted it three times and when I stopped and sat down they all stopped and sat in the blink of an eye like one body all of us.

In the evening he invited those of us who wanted to go out to dinner together to a wonderful restaurant and when we finished dinner he had a Supreme Surprise for us. He showed us in a special room of the restaurant a wonderful video in which descending from the glider he humbly told us that “I am the

True Representative of Knowledge!” Another Divine Gift to consolidate our souls, remembering the Divine Words of our Christ who had said to his disciples, ACCORDING TO JOHN Chapter 14’ and verse 6 Jesus answered, *“I am the way, the truth, and the life; no one goes to the Father unless he goes through me.”*

At the beginning of our dinner in the restaurant, it came to my mind that I had read in the Bible about the Last Supper but then after the Inner Divine Learning it increased my understanding. In the Apocalypse of evangelist JOHN in Chapter D’ and verse 20 it says, *“Behold, I stand at the door and knock, if someone hears my voice, and open the door, I will come in to him, and I will dine with him and he with me.”* In Chapter C’ and verse 6 it says, *“These are the words of the Holy One, the True One, who has the key of David who opens and no one closes, and closes and no one opens.”*“The Last Supper” then, is the most Sacred Moment of Self-Concentration when the student connects with God within us to express Gratitude and Learn about the Inner Evolution of our Soul! I feel like to express to you that the “internal evolution” is indiscernible and has absolutely nothing to do with the need for demonstration and recognition such as the “competitive external evolution of vanity!” And no one can stop the student from having contact with God within us!

### ***The Given Visions of the heart in the army***

---

Then the Incredible Visions of the heart that were given to me in the army continue to be fulfilled at different times beyond any imagination and expectation. I am experiencing today his Divine Second Coming which my heart was shouting then in the army because our Lord revealed to me that he is the One I was waiting for! In the Bible in PETER B Chapter B’

and verse 21 it says, *“For prophecy never came by the will of man, but under the Spirit of the Holy Ghost the holy people of God cried out.”*

For God's sake, I do not pretend to be a saint but he urges me to become one. Because it is written in PETER A Chapter A' and verse 16, *“You become holy, for I am holy.”* According to MATTHEW Chapter S' and verse 48 it says, *“So you are perfect, for your Father in heaven is perfect.”* The Second Coming is a personal revelation of God within us from our God Himself when you are devoted! It is not collective as religions have told us. According to LUCAS Chapter IF' and verse 20 when he was asked by the Pharisees when the Kingdom of God was coming, he answered and said to them, *“The Kingdom of God does not come to be observed.”* And in verse 21 it says, *“They will not say, behold, here it is or there it is, because look, The Kingdom of God is within you.”*

Is our religion waiting for the Second Coming of the Messiah and the coming of the antichrist as well? Who rules for so many centuries? Christ or the antichrist? The antichrist lives in the minds of the world and his disciples have surpassed him; what reason is there for him to come? He will surely be ashamed because he has nothing more to do than what is happening today, so do not wait for him because he is present in every mind that has no contact in its heart with our God! The antichrist is the ignorance of our self and from there arises “myriads of one evil follow.” And our Christ is the Knowledge of Ourselves; he is “the Omnipresent and everything fulfills!” What else do you think God is apart from our Divine Breath? Since without It absolutely nothing works? According to MARK Chapter IB' and verse 27 it says, *“He is not the God of the dead, but the God of the living. So you are very misled.”*

## ***By what characteristics will we recognize our Christ?***

---

Question: “By what characteristics will we recognize our Christ” since each people has its own characteristic? Imagine now if we ask 7 billion people about identification features, seeing that we each have different perceptions. Some have painted him with blond hair and others brunette and in the works of his Resurrection also the actors perform him to be in some films dark-hair and in some others blonde. Will he dye his hair to satisfy the different perceptions of his followers? Or will he come to us again in the manger and go on a donkey to give his speeches? Then they went to put out the fire definitely with a container, today they go with seaplanes. God, my dear friends, is not perceptions and ideas; He is only Higher Inner Experience with the Grace of the Living Master as the Only Mediator of every age! In the Bible to the JEWS letter Chapter IC’ and verse 8 it says, *“Jesus Christ is the same yesterday and today, and forever.”*

## ***Worker (promoter) in the Exciting Work of our Master***

---

I have also been offered the incredible honor of experiencing the recruitment as a worker (promoter) in the Exciting Work of our Master which allowed me to give this title that I feel, and which I longed for in the army, to serve him in a similar field “Universal Organization for the Prevention of Crime and the Salvation of Souls.” In the Bible PETER A Chapter A’ and verse 9 it says, *“Enjoying the end of your faith, the salvation of souls.”* Why do I mention “Salvation of Souls”? Because many prisoners around the world who were transformed by His High Message, besides the fact that they became fervent promoters to their inmates, they confessed that if they had known our Master before, they would never have gone to

prison and now they will properly admonish their children for the message so that they too do not end up in prison.

And so the lifelong prisoners who were in “high security prisons” saved their souls and when they come out they will not commit crimes again. And their children, too, will not fall into the unconscious for crimes and prisons because they will not be trapped like their fathers and they too will save their souls. How Incredible Divine Blessing from our Lord who has been to so many prisons around the world and they saw him deliver his Hopeful and Salvation Message!

### ***Washing his car***

---

And what I was given in the army, to envision for our Christ “that it would be enough for me to wash the floor that his Divine feet would have touched”, he fulfilled it in my favor.

In a program at the Intercontinental Hotel, before it started, a Knowledge-mate of mine George Hatzigiannis asked me, “Noti, do you want to wash Master's car?” I said, “With great pleasure” with indescribable joy! He said that also to two other mates so as to do it faster and more relaxed and after we started washing the outside, it was time for the inside, and when I leaned back to wash the floor the vision I had been given about 15 years ago in the army emerged and I was filled with awe.

I was saying to myself, my God and my Lord I cannot believe what is happening now. What can I say to them now? They will laugh at me or they will call me imaginative. The children didn't know what had happened to me in my personal story of My Life in the Army! And I have not told them about it yet. I may give them the book if it comes out and reading my unknown story of the past, perhaps they will understand.

And I say to myself, not only has my vision been fulfilled, but it is beyond all imagination and expectation. Because I experienced not only the vision but also to have an absolute student-Master relationship, and not only that, but he has revealed to me that he is our Lord which is something much more than a Master! And not only that, but he has allowed me to kiss his lively feet in the Darshan he gave us. Then I realized the incredible fact, that without George knowing that he told me to wash the car, our Master spoke through him to fulfill the unimaginable and unfulfilled wish of my heart because this vision of mine was completely out of time and place.

Pay attention now, how this can happen, since I experienced it! First, God (never forget) is “Omnipresent and everything fulfills!” Therefore, he is in all of us! Since God gave me these visions in the army, how else could I have envisioned them if I did not know of his Coming or if I had not read the Bible? So since He gave them to me, only He could fulfill them for me because only then could I Recognize Him! Confirming also his Divine Words which are said according to LUKE in verses 18:27. And he answered them, *“What is impossible for men is possible for God.”*

### ***Farewell at the airport***

---

When the program ended, I asked my Knowledge-mate George—who was the mean of these incredible events to happen, without knowing anything yet; only when he too receives the book will understand—from which airport will he leave? Can I say goodbye to him? He appreciates me very much because he knew the true devotion and Love I have for our Master, and he told me: “From the New Airport in the private departures and I beg you to do it very discreetly.” I got into my taxi and waited outside the parking lot for him to

come out with his driver to follow him. The first traffic light made us stop and I went next to him in the back seat who was sitting and he turned and saw me and I bowed deeply to him with my two palms joined in my Divine Breath!

With great discretion, I did not approach him next to him and I was constantly behind him until we arrived and the Master's car entered the entrance to pick up his plane, but they did not let me in and I asked the guard at the bar which opened for the pilots, "how will I be able to say goodbye to him?" And he suggested me going down to the golf course and I could see his plane. Fortunately, I saw it because my heart was pounding with anguish to greet him and from the gate I was shouting, crying, my Master, my Master, my Maharaji —like the little child when his parents are leaving— and the incredible miracle happened.

Looking at the plane, he greeted me from the cockpit with his left hand and I went crazy for a moment from the joy of seeing me! And when he took off, happy and sad at the same time that he was leaving, I was offered the Incredible Supreme Experience of all, listening to the Divine Indiscernible Silent Voice in me telling me. The Invisible Threads of Love, Respect, Gratitude and Devotion are inseparable and annihilate all distances and time, and since then for about 38 years the sadness and crying that happened to me when he left the programs where I went to visit him have disappeared! I also remembered the words that our Christ had said then! Apocalypse JOHN Chapter H' and verse 17: *"For the Lamb in the midst of the throne will feed them in a living fountain of waters and God will wipe away every tear from their eyes."* This parable for me means: When we are thirsty we look for water everywhere because it is a basic need.

However, when someone has given you the tools to dig to find water in your own plot, you will always have your own

water and you will not try to find it elsewhere. So, the absence of joy that we feel inside of us makes us run everywhere to feel happy because it is a basic need like water. But when our Master reveals to us the Divine Source of True Joy within us and he gives us the way —the techniques— to always rejoice, the hunt ceases for good and all deception and wandering. That is why I call it also one of the many Supreme Experiences! When you are not hunting, you are Full and Free! When the innumerable false needs of the acquired external joy, which have been created for us, submit you to chase them, you are completely empty and a slave.

### ***Our Master's Holy water***

---

Here is another Sweet Divine Experience full of learning! My Knowledge-mate Hatzikos —his sweet soul may rest in Peace— had given me a very large photograph of Sri Hans Maharaji, Former Master and Father of our Successor Master, who sprayed them with large pumps of colorful water in a program called “Holy” (: a traditional celebration in India for the sanctification of people). I was amazed by the photo with the incredibly smiling faces of his students who were at this Magnificent Feast with their also very smiling Master and I wished I was there too. Guess what, this wish of my heart was fulfilled as well! The first time I went to India with my Knowledge-mates for a 3-day program, we were told when we arrived that our Master would do “Holy” and the next day I experienced this miracle of miracles which I had seen in the photo of his Father with his students!

Experiencing the indescribable joy that our Master sprayed us with the colorful water and he was playing on stage as a child plays “water-war” with his students, I realized the incredible difference that the foolish premature undertakers, the

false leaders of the peoples, put the poor people in wars with bullets, mortars, grenades, bombers, missiles, chemical and electronic weapons with the horrific result of global assassinations until today. So obvious: With the “ignorance of ourselves” the hell inside and outside of us with death, horror and pain manifestly painted on the face of all involved with moral perpetrators the puppets of political governments because their big bosses are invisible.

With the “Divine Knowledge of Ourselves” the Paradise is inside us and outside us with smiles and dances together with our Beloved Master! When you find within yourself the source of the Supreme Joy that is our Mother Life, you do not need to chase outside any joys of this world. Like when you are full you are not looking for food in the fast food restaurants that are vestibules of hospitals.

### ***My written contract for the relief of the sufferers***

---

Another indelible experience was offered to me at the age of 45, on 22/2/1992 an unforgettable date that has been recorded in my heart with the characteristics of (2) I made also a written contract “Dedicating my life for the relief of the suffering”, having my daughter who spoke English translate it for me and I sent it to our Master's house by post. My Indescribable Joy cannot be expressed in words, except with the constant effort of focus that fulfills me every moment when I am one with our Sweetest Divine Breath, in the way shown to me by our Beloved Master!

### ***My first expression in public in the Intercontinental Hotel***

---

When he came to the Intercontinental Hotel again, at the end of his joyful and hopeful speech he gave us the opportunity for questions and expressions.

When I raised my hand, after 17 years of apprenticeship, he gave me the chance to speak as he always does with all of us with so much politeness and kindness! I expressed to him my Deepest Love, my Deepest Gratitude and my Deepest Respect, for the Supreme Divine Gift of Life that he revealed to me inside me and allow me to enjoy it at all times! He answered me, "Knowledge is like the seed. When the seed of Knowledge grows, it fills you with Gratitude, and you continue to enjoy it!" And he gave the chance to another to speak. At the end, when we left and I was left alone, I answered to my Master inside of me, since I could not answer to him there due to the number of other students who waited to express themselves. "I thank you so much since with the Truth of your words you confirm to me your sweetest Divine experience! And it inspired me explaining within me "the seed of Knowledge" in the material field with our Mother Nature in action!"

When I bought the plots in Anavyssos and transformed the barren area into a beautiful tree-planted area, I watched every seed I had planted with care and love become a sprout, then a small tree, then slowly branches came out of the body of the small sapling as hands, then smaller branches embedded in the large branches of the small tree just as the Indiscernible Divine Energy (Life) weaved our hands on our body and wove our fingers embedded in our hands in our Mother's belly. And now the Divine Magic is in a complete Miracle!

In the small integrated branches the fruit was made to be offered to us by our Mother Life through our Mother Nature and in us she has woven the integrated fingers in our hands to receive the fruit from the Blessed seed that was transformed into a tree, giving our fruits to grow, live and be delighted! Can you imagine? If she had not woven hands with fingers, how would we cut the fruit from its Blessed Trees? And how could we have made what we see on its Divine Planet that has been offered to us?

Doesn't this thought fill us with incredible Awe, Admiration, unceasing thanks and continuous Gratitude?

Like us from sperm-seed it transforms us in the womb of our biological Mother into a body and all the other organs and limbs in order to grow to make our fruits-descendants for the perpetuation of our species. Like every seed Life has taken care to perpetuate its species with other seeds in the fruits it produces, in order to preserve us in Life with its nutrients in incredible varieties. And when man is pleased and aware of what is offered to him our hearts are filled with Divine Gratitude!

And so the words of our Master “When the seed of Knowledge grows, it fills me with Gratitude” made sense completely, which he confirmed to me empirically from the apprenticeship of our Sweetest Mother Nature when I cut the lemons in our plot! When our grandchildren grew up, I made them cut the lemons explaining to them the miracle of that moment, that our Creator offers us his fruits and nuts with the branches as his hands through his tree and he has made in us hands on our body in the womb of our Mother in order to cut them full of Gratitude so as to live with Divine Health and Indescribable Joy!

### ***Australia, the two extremely different Supreme Experiences at the same time***

---

In another invitation which he offered us for Australia — where I had migrated from the age of 17 until 19— I went to visit our Beloved Master in a beautiful 5-day program that he does every year until now. When we were in the restaurants he came to see us up close giving us a short talk outside in the area of the walkers as an additional gift of the program. I realized that, as if it were the same time of our Christ —although in a way different— that I had seen every year in the movies

of our Christ at Easter offering his disciples his Teaching in the countryside. Except that today our Master as a pilot crossing the clouds makes programs continually all over the world and indoors in theaters, hotels, schools, universities, parliaments, prisons, radio stations, television, and so much more because of the technology which he uses to accelerate his Noble Message for all humanity to know!

In Apocalypse of JOHN Chapter A' and verse 7 it says, *"Behold, he cometh with the clouds, and every eye will see him, and those who pricked him and all the tribes of the earth will mourn for him, yes, Amen."* In Chapter IS' and verse 4 it says, *"Who is not going to be afraid of you [for me] respect you Lord and glorify your name? Because you are the only saint because, all the nations will come and worship before you because your judgments have been revealed."* In Chapter KB' and verse 4 it says, *"And they shall see his face, and his name shall be on their foreheads."* During the self-concentration (practice) of Knowledge, since he is our True Master, we have his form and his name on our foreheads.

In the middle of the 5-day event he gave us the "Divine Darshan" again to enjoy him face to face. And there again, approaching to kiss his Divine feet that he allowed me, I experienced the Supreme Experience of Bliss feeling that I am in the Presence of our Lord (Living Paradise) and at the same time I experienced the Supreme Sadness thinking in my heart that now I am experiencing this Miracle of Miracles somewhere far away from me other people are experiencing hell dying prematurely of lack of food and water and due to paranoid wars.

Two totally different Supreme experiences of paradise inside me and the manifested hell outside me which kept me in a perfect balance of Understanding, Recognition, Appreciation, Respect, Dedication, Gratitude, and hope that our Mas-

ter will turn the tragedy of humanity into Peace, Freedom, Love and in global cooperation for the General Good! On the last day we were in a special row with some people for questions, or expressions of Gratitude and Love to our Master! There were 5-6 of us left but with the previous ones who got up to speak the time passed and the program ended with songs of Love and cries of Happiness!

Another additional wonderful indelible event in my Divine Story with the Divine Grace of our Master!

### ***Second public expression of a poem to our Master***

---

After a few months he visited us in Greece again at the Intercontinental Hotel. I remembered that I had not had time in Australia to express to him what I wanted, yet now my expression was different and much more essential. I finally raised my hand and he gave me the chance again with so much Love and Kindness, to encourage you in your expression! I remember every word, “My warm good evening! Welcome and thank you very much for honoring us with your Sweetest “Divine” Presence!” I wanted to express what I was feeling but I held on and I did not say the word “Divine” because there were new people who came for the first time so as not to create comments and questions.

I asked him, “Can I tell you a poem from the bottom of my heart?” and he allowed me politely! When I started to turn this Supreme Experience into a poem —which he himself had offered me to write in my taxi in squares and on the streets at the traffic jams and at the traffic lights about 500 poems— after a while, because I knew who I was addressing to while no one knew how I was feeling, my head started shaking and I did not control it at all. I realized this when I was stopped by the applause of some who thought that I had finished the po-

em but I had not said two more turns and I looked at them in amazement because they interrupted me. Then I realized that maybe it was in the program because my head was shaking a lot. I remember my son-in-law and my daughter were in the chairs next to me and he told me when we saw each other in their house, "I could see your head shaking so much and I felt like crying or laughing; I did not know what to do." I explained to him that it would be from the indescribable Awe since I knew who I was addressing to and my body could not bear it at the moment.

This is the most Supreme Experience of all that he offered me and I wrote it with his Grace in a poem asking him to express it so that in the right time it can be sung from the hearts of our fellow human beings.

The noblest effort  
that makes me Happy,  
is to think constantly  
my Master the Beloved!  
There is no higher honor  
on the Blessed Planet Earth,  
for Man to become a disciple  
of the True Master of the time!

You are my Savior  
and my Liberator  
because you resuscitate  
my dead soul.

You are my Savior and Redeemer,  
I will chant it everywhere with the trumpet of the voice  
and through writing  
and in my silence, in my Divine Breath

I feel it is not enough

to praise you every minute  
that you showed me how to unite  
inside me with the Creator  
to experience Peace Freedom  
and daily Divine Bliss!

The Most Adorable Pilgrimage  
happens in the Divine foot-kissing of the Master  
and in my Divine Breath  
where my Divine Life pulsates!

It would be foolish to hide what I experienced so many times and I feel like writing about our Master's Divine foot-kissing! Because when I was little my parents taught me to kiss the icons of our Christ, our Virgin Mary and all our Saints and without shame I believed them and kissed them with true inner Reverence! Until our Master found me and revealed God to me in me, and now it comes as natural to kiss his Living Divine Feet, who revealed to me that he is the True representative of God!

### ***The beginning of empowerment of the wingless wings of my soul***

---

In a program we did about every 20 days at a hotel to invite new guests to see our Master's videos, we received translated videos of his incessant speeches inviting him to all continents. I began to record in the depths of my heart some of his words which seemed to speak to me personally and concerned me very much. It would be very joyful for me if they concerned many others, if not many, even a few, if not a few or no one that did not mean that it would not concern me as well. Because in each of his speeches, no matter how large his audience is, he addresses individually to each person.

I heard him say, "Knowledge has no limits; everything is possible!" I remembered the Divine Words of our Christ which he had said! "What is impossible for men is possible for God!" And in another of his speeches he confirmed it to me by saying, "Everything is possible; dreams do exist!" He reminded me of all the visions I had in the army and he fulfilled them beyond any imagination. As if he was inviting me to start! His words gave me the power of a lion in the inner wings of my heart!

TO EPHESIANS Chapter S' and verse 17 says, *"And receive the helmet of salvation and the sword of the Spirit, which is the word of God!"* When I heard him say to me, "Go ahead and roar as a lion in the midst of so much trouble, darkness and doubt." I answered in my inner conversation: How much I thank you for claiming me to climb the stairs of the "devil's temple — in Parliament" where people of ignorance, darkness, selfish, hypocrites and deceivers come and go hoping to be inspired by us to be transformed into Self-Knowing, selfless, unfeigned, genuine and enlightened!

### ***The Luminous Indiscernible Armor of the student of Knowledge***

---

One of his speeches in Australia was also so motivating that it gave me the impetus of preparing to put into practice word by word of what he tells me! "This is not the time for explanations; this is the time for action. Take out your inner warrior wearing your indiscernible armor, kill all the dragons of doubt and triumph over all those you cannot tolerate." TO EPHESIANS Chapter ST' and verse 11 says, *"Put on the armor of God, so that you may be able to stand against the ways of the devil."* He added, "The point is not to be sacrificed in the battle; the point is to win the war so as to experience your victory

in your inner kingdom of the heart, Bliss, Peace, Wisdom, Gratitude, Freedom, Evolution and the absolute Divine Dedication!" After realizing these words of his so deeply, his encouraging speeches kept coming to my heart and I could not believe in my ears that it was for me, but because I had inner guiding experiences, therefore the confirmation of his words for the intuition that I had during my preparation process increased.

In his next speech I listen and I fly inside me with incredible joy! He mentioned that "I have come to offer you my Wisdom which is like a sharp sword and an incredibly strong arrow. And you can use my Wisdom whenever you want! Be very well prepared; be ready to receive the weapons of my Wisdom." This suggests that our Master has something to send me since he tells me to be ready to receive the weapons of his Wisdom. And he added, "I can ask him for any weapon I want." And he reminded me to urge me what has been said. "Ask and you will find." Remembering the words of our Christ! According to JOHN Gospel 15: 7, *"If you remain with me and my words stay alive in you, ask whatever you want and it will be given to you."* My heart was dancing unbelievably from Divine Joy —without anyone knowing what was happening inside me— listening to the words I longed for! I immediately did it, writing a letter to his house to ask him for the Divine Gift and the healer's Super-weapon. You will tell me, is the Gift requested? Yes, since He urged me! Of course, there would be some reason for his exhortation!

### ***The first attempt to heal our blind "brother" Stavros***

---

I received an answer that his secretary received the letter and I was incredibly happy that it would reach his Divine Hands! After some time thinking that since I do not have a

negative or positive answer he lets me act alone as a child growing up and his father lets him take the initiative to make his own destiny! So, I went to Crete to my close friend Stavros and my Knowledge-mate after I had informed him about it because he is still blind. “Stavros, do you want to make an effort so if we are lucky the Miracle to see your Light can happen?” He said, “Yes, my dear Notis, I look forward to meeting you.” He loved me and respected me a lot because we had been true friends for some time when he did not have the Knowledge, and my feelings were mutual and multiplied and he felt that strongly!

Our Lord allowed me and I went. We had not seen each other for many years because he had moved to Crete. After a prayer of mine with tears of supplication for our “Brother” Stavros to see, it was time to pause waiting for the desired result but unfortunately it did not happen. Our situation of both was very good regardless of the result because due to the Selfless and True effort on my part we were satisfied only with our effort. Discussing afterwards that we would try again hoping for the result we desire! And so the next day came for me to leave without having any sorrow both of us, because all our sincere effort came from our hearts.

I had left lying to my wife —because this effort was of the highest priority— that I would go with my friend Vassilis to Molos to water the olive trees that I have in a few acres, because we would definitely have big fuss and she would call me, natural for her, crazy. And in that way I avoided the fuss and without upsetting her because she is very negative towards our Master. She does not want to hear even his name, she is freaked out, and through it I learned the art of patience and the development of understanding and respect for the other that has not been touched, because each person has his time and his choices. So when I lie, it is only when I want to do

something or a trip for our Master because she becomes unimaginably sad. So, “white lies” without doing any harm to the other and so as not to upset him since he does not want the Truth!

***The personal delivery of my letter  
about the request of the Therapist's Supreme Weapon***

---

After a few months I wondered if I should give our Master my letter personally and not through a third person since I can go and give it to him. And I found out when our Master would have a short program nearby so I could go and give it to him. I went to Barcelona, I copied my letter at the hotel by hand because I had photocopied it to keep it as a souvenir and on the first day of his program I took it.

My Knowledge-mate George who had suggested washing the car also came and because he had contacts with those closest to our Master I asked him, “My dear George, do you know who is closer to our Master to give him a very serious letter to give it to him?” And he answered me, “Notis, when the program ends go down in front of the stage where those closest to him are sitting and you will find someone.”

As soon as the program was over, descending from the height of the seats to the stage down to find someone, an instructor Peter was going up the stairs to find a way to leave, who knew me and we greeted warmly! I asked him if he could give my letter to our Master and he told me, “I cannot but I know who will get it”. And he took me to the nearest of our Master Alfredo, introduced me and without any hesitation gladly he accepted my letter to give it. I said goodbye to them with unimaginable joy and love for mediating for my letter to reach our Lord!

The other day in the program he reported that preachers and representatives of religions degrade people's intelligence because they interpret the scriptures and do not let the scholar give his own interpretation. And he gave an example that was relevant to my case, "As if someone wants to read me a letter that a friend sent me and he loves me, I love him and he respects me and I tell him, no I will read the letter." I could not believe that he said it for me, to make me happy from the longing I had that my letter would be given to him. And at the end of the program two of my Knowledge-mates who knew that I wanted to give it to him, told me, "Noti, the Master received your letter." and "clicked" me that yes, maybe he said that for me, why not? And I was incredibly happy just to accept it to read it. It was as if he fulfilled the wish of my heart! However, I was also waiting for an answer with anxiety and patience so that I would not go to Stavros again without his order!

### ***The second attempt to heal our blind "brother" Stavros***

---

A few months passed and I wondered again, what should I do? Should I wait or go again on my own initiative to my "brother" Stavros in Crete? Since I did not have a negative answer and our Master knew in me how much I wanted it for very serious and joyful results not only for the sufferer but also for the sufferers all over the world! I decided to go again. My heart did not feel even the slightest disobedience and disrespect because I had the basis that the Lord knows in me what I want and why I want it, and since my intention is clearly PURE I will try again. I called him, "Stavros, do you want me to see you again to make another attempt?" "With great joy, to see you again my dear Notis." he answered me. And the day came when we met again in Crete and tried again, now observing myself without any sobs but invoking within me the

help in order for him to see again touching gently and with Love his eyes. After feeling that I had done my duty I withdrew my fingers from my "Brother's" eyes with a little sorrow that we did not have the desired result especially for the sufferer who was waiting for the Miracle to happen to him! I was not affected at all because I felt that if something does not happen, it simply does not happen because it is not the time to be done.

My hope was not diminished at all or that of Stavros. "If it is to be done my dear Notis, it will be done, and if it is not done, we cannot have a demand" he told me "we are trying!" We talked, inspired one another for our constant devotion to our Master and practicing and the next day it was time for me to leave wishing again to wait for the next meeting! As I was thinking on the ship, why the desired result is not achieved since it is in the category of good thoughts and deeds I cried a little and the thought of the feat of Theseus in Crete came to me as a consolation. I asked inside me with a slight complaint like a small child, "My God, Theseus also came to Crete and achieved his feat killing the Minotaur and saving the others who were given to the mythical monster for food every year. To me, how is our good deed not achieved, which is unimaginably beneficial for everyone? And I was reassured with much relief and joy that I came to this reasonable and noble question and waited patiently, also always having the candle of hope lit, that perhaps the right time would come, if it is in the plan of our Master!

### ***Request for a hearing for the Supreme Weapon urged by our Master***

---

After a few months my heart tells me that the time has come for me to personally ask our Master for a hearing since

the subject is of great importance for the Highest Gift and the Supreme Weapon and I must address to our Supreme Lord! Additionally, the thoughts of my heart urged me that since our Master enables me within me to have an inner hearing at any time, why not ask him for an external hearing as well? I decided to do it, something that would never come to my mind, to ask for a hearing from our Lord since he always provides me with Divine Peace, Divine Gratitude and Divine Wisdom; why should I ask him for an external hearing?

You will wonder, as I write to you what my heart speaks to me. Even this is an Incredibly Privileged and Indiscernible Supreme Weapon, knowing when your mind speaks to you and not listen to it and knowing the Divine speech of your heart and obey it! If I did not know when my heart speaks to me, now I would not write to you what I write to you, and if I lived, I would not be one of the most devoted students of our Master!

What I mention as devoted among the few is not at all self-ish that your mind may whisper to you but an incredible Pride of Gratitude because I know that it is not my achievement but it is His Supreme Gift to those who obey him completely! So, I'm writing this to you in order to inspire you to invest you too, so as to become more and more the ones Super Dedicated to him and I do not need to show off.

So, as soon as it was announced again for an one-day program in Barcelona —the nearest place I could go— I booked a seat feeling indescribably happy only because our Master allowed me to get there to ask him for a personal hearing about the Therapist's super-weapon; it is an inconceivable honor for a human being and I am going crazy from Awe now that I am writing to you. It is like an impossible, elusive dream but his words which knocked on the door of my heart to prepare and ask him for any weapon I want made it completely normal!

Believing in the Divine Words of our Christ too, I did it. According to the evangelist JOHN Chapter ID' and verse 12, *"Verily, verily I say to you, whoever believes in me, the works that I do he shall do as well, and he will do greater than these because I go to the Father."*

### ***The delivery of a hearing letter to our Master***

---

When I arrived at the hall of the event I had also prepared a letter to our Master. I wrote to him because it was one-day program that I felt the time had come to approach You, but of course I feel that the right time must come from You to me. And so, if it were not yet the time of our Master for me, I informed him that I am waiting like the seed with patience and readiness. And if you wish to invite me to see you, because I am leaving tomorrow morning, let me know in advance so that I do not leave. And so I was calm that I was fulfilling my duty. I asked the person closest to him to give him the letter but now it was very different from the previous times. Because I was not only asking for his Grace for the Therapist's Super-weapon but I was asking him to see him personally to ask for his Grace! The difference is incredible!

Before the doors opened I went and said that I wanted to give a letter to our Master and they went to ask who could pick it up. The answer came that now everyone is very busy because the preparation is made to serve everything for thousands of people. But they let me in to wait for someone when the opportunity arose. And politely with understanding and patience, with incredible joy that I had reached this state, I waited for about an hour and the time was approaching for the doors to open. I turned to some at a reception desk to tell the closest person to the Master that I had something for him which he is waiting to receive.

Before the doors opened a lady came and asked at the reception desk, who I was, and they introduced me to her. She told that her name was Hillary and asked what she could do for me. I replied with my poor English that was enough for this case that I beg you to give this letter to our Master! I did not know that the rules had changed. And she answered to me that unfortunately I cannot receive anything at all for him; it is our Master's order! I almost got a little shocked but I did not let it happen because only I and our Master knew the process of this preparation and He urged me to get to where I was present. And I opened the letter to her to read it, that he is waiting for this personal hearing that I ask for on such a very serious issue. She was in a very difficult position to go beyond his mandate and I added to reassure her. "Don't worry, I would not insist but our Master is waiting for me to bring him this letter personally, but he may not be able to see me but you must deliver it to him."

I was so sure because absolutely no one can know the personal relationship that a student has with his Master unless the student himself makes it known, as I do now to you; otherwise, if I did not write to you my inner story, how would you know what happened? And she answers to me, "Ok. I have a way to do it. I will take a photograph of it and I will send it to his email." I handed it to her and this effort and desire of my heart was completed. I greeted her with a lot of Pleasure and Respect since she was for me the mediator so as for my letter to reach our Master!

### **Returning incredibly happy that I did the duty of my heart**

I waited without any anxiety in the hotel until I fell asleep, lest an answer come but deep down in me I knew that the right time must come for our Master to me when he judges

when I am internally ready for this Highest Moment which has indescribable global significance. And so, I left in the morning for Greece full of relief that I did the Supreme duty of my heart!

This happened in 2017 and I am writing this to you in August 2020. I am still in a constant study of inner development, self-discipline, patience and readiness at all times, with his Divine Grace! I have constant telephone contact with my “brother” Stavros and he knows that I have made a request for a personal hearing to ask for the Divine Gift and the Therapist's Super-weapon and he is waiting without any anxiety.

### ***I was given an answer inside me for the feat of Theseus***

During this period of waiting, I remembered of the incident when I cried on the boat on my second attempt, thinking of Theseus' feat, in which we did not have the desired result. I was given the answer inside me that Theseus did not go alone and that was why he succeeded. He was given a practical way, a simple skein of thread and was shown a simple way out of the maze when he killed the mythical monster, the Minotaur. To tie the end of the thread to the end of the entrance. And so he defeated the Minotaur and came out of the labyrinth that no one could ever get out of. So, I too need the practical simple way, the Grace of our Master, to accomplish this feat. And it was explained to me from the Inner Ocean of Answers and the decoding of allegories and parables, what the labyrinth is and the Minotaur.

The labyrinth is our mind and the Minotaur is our thought. The beginning of the skein of the thread is our Divine Breath which is the Beginning of everything because through it we think and act. When you are constantly connected to the beginning of the thread, your Breath, you are the

master of your thoughts and since the Minotaur is the thought of the mind you eliminate it immediately, before it gives birth to others and dominate you, because when the first thought dominates you which gives birth quickly to its offspring like the Lernean Hydra that when they killed one head, two were born, the thoughts then have you as their executive body in everything: In evil, in the dark, in ignorance. You are non-existent in the Good, in the Light, in the Knowledge! So, now that I am as much as I can in constant patience and readiness, I feel as if our Master is training me to respond appropriately when the right time comes according to his Divine Plan! As an Excellent coach he wishes to make his student excellent in order to experience his excellent Victory worthy of his Excellent coach!

I observe my preparation as a player of a team-country and the coach of the National team chooses some from each team-country so as the universal match of the national teams-countries between Light and Dark to take place. I try to become as I heard him say to me: The more flawless, the clearer, the brighter and the more serene I can be. And rejection of the horrible qualities of the mind, lust, anger, attachment, greed and selfishness, which have turned humanity upside down and they live in the darkness and slavery of their minds for centuries, because they do not know how to replace them or they do not want to, and so these qualities have become the inseparable tyrant companions of their mind.

### ***Donation of an unexpected and incredible Super-weapon during my preparation***

---

This letter which follows below I had written as a question to our Master and I had not sent it to him, and when he gave me at some point the practical answer which revealed to me

inwardly how to eradicate the dark and demonized thoughts, my heart pushed me to find it without looking for it and reading it, I was surprised and understood that the Incredible Gift and Super-weapon he had given me was the answer to my letter. Another Divine Confirmation of our Master that the Indiscernible Divine Energy (Life) is within us, and since it listens to us, it fulfills our desires, seeing that they come from the same Divine Source and it fulfills them for us!

### ***The Indiscernible Simple Automatic Practical Luminous Super-weapon***

---

- Learning to overcome fear while focus and trust must be integrated into the Divine Breath! Where only our Mother Life is responsible for her Creation!
- How long, our Beloved Master, will innocent people depend on the paranoid warlords who are constantly committing world murders with their pre-planned sick wars?
- And at the individual level, why should an unscrupulous criminal have the ability to abuse, or kill defenseless and kind people of any age with his hands or weapons?
- Why should evil have the power over Life and take it away from humans and animals, and not the Good have the ability to prevent the criminal acts of the dark?
- Why does the Highest, the most Precious, the so Irreplaceable Gift of Life depend on every unconscious to be removed and turn it into the silence of death?
- By what means will we protect our Life when someone crazy has planned or without plans wants to take it away from us?
- You have a precious treasure and you hide it in your house with locks so that the thief does not take it. But his audacity takes your keys and the material treasure by looting your

house and takes the most valuable treasure, your Life, since he kills you.

- Why should a criminal force every human being to buy a weapon to protect his life in a country house or in a city house or anywhere fearing of criminals invading?
- Why should Life, which is Almighty, not have the ability to defend itself so that the criminal does not reach his goal?
- Is it time for the conscious as well to learn to defend and protect his Life from the unconscious in some secret way of the Life itself so that he neutralizes the invisible dark thought beforehand so as the criminal does not get to his act?
- I find it completely inappropriate for the unconscious and evil to dominate the conscious and kind man.
- Why Life, which is Almighty, should be defeated in an individual level by a criminal mind?

These questions that have been born represent billions of our fellow human beings, and yet we can experience the answers within ourselves when we invest in the Salutory Knowledge of ourselves and learn, invoking more and more from our hearts, the disappearance of the dark and demon-possessed thoughts which happens inside and outside of us at the same time.

Then, after a while, I was given the answer to my very serious question by the Ocean of Answers of our Salutory Self-Knowledge! Not a theory for my mind but as an act from my heart which of course is indiscernible and I experience it personally because it is not tangible and does not need applause and recognition from people. It is absolutely an inner practical experience of the Soul from the Divine within us that our Beloved Master revealed to me!

Inside us we need to understand as quickly as possible that we have two different transceivers: our heart with the indis-

cernible positive weapons and our mind with the also indiscernible negative weapons of this world. So, we have the opposites in everything so as to have the chance to choose. We have Knowledge and Ignorance, Love and Hate, Light and Darkness, Kindness and Evil, Clarity and Confusion, Courage and Fear, Joy and Sorrow, Authenticity and Hypocrisy, Selflessness and selfishness, Generosity and stinginess and so on and so forth, and when we engage with our Self-Knowledge and invest sincerely as its disciples it teaches us how to use the weapons of our heart to have an incredibly beautiful daily destiny!

Is there anything more important than Light that removes any kind of darkness for you to see? Is there anything more precious than the Divine Knowledge of ourselves that reveals to us the Indescribable wealth within us of Eternity and its Infinite Wisdom? Is there something else that completely erases ignorance from us?

We have these Positive Super-weapons innate in our heart and we have been taught to use the negative weapons of our mind for our self-destruction and self-extermination. So today, we have the Incredible Unexpected Highest Opportunity of CHOICE through the Sweetest Knowledge of Ourselves! How indescribably I thank you incessantly My Beloved Master for revealing to me your Indiscernible, Automatic, Simplest, and Practical Illuminating Super-weapon! The Lit Lamp in my heart to eradicate the invisible dark and demonized thoughts before they materialize wherever I am, and with the ever-increasing range of action against them.

Like the manufacturer of filaments and incandescent bulbs manufactures any range of light he wants, from small one-watt bulbs to thousands of watts for evening sports stadiums, seeing that, man and his work are limited. So, imagine our Infinite Creator who has constructed us with trillions of cells

within us and electromagnetic waves everywhere, what scope he can give to his devoted students for the disappearance of dark and demonized thoughts, for the expansion and consolidation of Peace, Dignity and Prosperity!

Let us not forget that any action arises from indiscernible thought. And as we have the opposites everywhere, so within us we have the dark thoughts of this world and the luminous thoughts of our God! Now I ask you, can darkness make Light disappear? Never, only Light can eradicate any darkness. In this way the luminous thoughts can eliminate the dark ones but the dark ones never the luminous ones! So, whatever bad or good manifests outside, it comes from thinking.

Consequently, no matter how many human bodies that are workers of evil we kill, we make a hole in the water because the thoughts of evil as invisible, they remain and penetrate other minds and through the writing of countless books they affect them. Therefore, you multiply and perpetuate the bad because there is ignorance of its disappearance. Yes, the invisible thought has the ability to manifest itself in a written act, in an oral act —sound— in a semantic act and in a practical form. Either it kills with hands or with weapons or it operates and heals with hands. Dark thoughts are dominated by the existence of matter.

If there is no matter, it cannot manifest because weapons are made by hands and if there are no hands, there are no weapons. Therefore, the dark thoughts of the mind without matter are non-existent in the luminous thoughts of the heart; as we have the law darkness is non-existent in the Light. Consequently, when we get to know God (Light) within us, dark thoughts can never affect the Enlightened One due to their non-existence.

Fortunately today with the Supreme Knowledge darkness will be increasingly repelled. So, in order to eliminate any ob-

ject we also need an object. But to eliminate an invisible one you cannot do it with an object but only with an invisible one. As a result, the invisible dark thoughts, only by invoking the Indiscernible Luminous thoughts of God within us can we eliminate them so as not realize the evil in the material field. When we learn to eradicate them we escape and we also save our possible victims. Therefore, our dark thoughts and victims will continue to diminish. So, this is the most Essential Service for the Good of humanity. Whoever wants can practice at any time as our Divine Breath works at all times, which keeps us alive! So, we too will maintain our Brightness!

The more we desire to participate in our Master's Incomparable Divine Work with this Indiscernible, Automatic, Simple and Practical Illuminating Super-weapon within us we can Experience the Unbelievable and Unexpected Revolution of Peace, Kindness and Love without any drop of blood. Why do I mention Automatic? Because I remind you that without our Divine Breath absolutely nothing works. It is Eternal, Uncreated, Indiscernible, Automatic, Simple; it brings life and Preserves everyone and everything. We do not need to throw a coin to make it work, as we do in the machines of Coca Cola in order to drink their insidious poison. You see, without any effort at all it offers us the Supreme Gift of Life every moment! Even when we sleep it pulsates nonstop; if it is interrupted that is the end. This transcends all imagination and all human logic.

The Indiscernible Super-weapon of the disappearance of dark and demonized thoughts, I experience only myself in me since it is invisible to others. The Visible Practical Healing Super-weapon is more important for other people because they will also have practical experience from their treatment and visual experience, those who do not need physical therapy.

Our Mother Life has endowed us all within us in our weaving with Incredible Innate Gifts and Weapons which unfortunately ignorance has buried and tyrannizes all of humanity beyond any imagination. And fortunately, today we are alive our Current True Living Master has come and offers us to those we want his Divine and Salutory Knowledge so as to eliminate our ignorance —our darkness— our tyranny. It is impossible to describe in words, the indescribable Divine Gratitude and the Absolute Divine Devotion to our Blessed Mother Life (God) and to her True Representative Prem Rawat, who sent Him to us in order to introduce her to us and to set us free!

***Today is the time of Christ!***

***Today is the time of Buddha!***

---

In another speech he told us! Today is the time of Christ, today is the time of Buddha! Because the Teaching of our Buddha is also the same! Divine Love, Light and Peace! And he strengthened my inner experience more and more, that he is our Lord! Do not find what I will explain to you paradoxical. It does not follow that if you have a Supreme experience from your Master that is enough for the rest of your Life and you will be ok. No, you have to make “Renewal Commitment” every day because you are constantly living in an incredibly big ocean of delusion with countless sirens next to you. And especially in your mind with incessant borrowed thoughts, and obsolete perceptions acquired, nurtured throughout your life by a system of complete ignorance — darkness, whose purpose is to constantly disconnect us from the Divine within us!

That is why we must be constantly focused on the present in order to realize to whom we are students. The evangelist JOHN in Chapter A' and verse 1 says, *“In the beginning there*

*was the Word, and the Word was with God, and God was the Word.*” And in 14 he says, *“And the Word became flesh, and dwelt among us, (and we saw his glory, glory of the only-begotten apart the Father,) full of Grace and Truth.”* Also in Chapter D’ and verse 35 he says, *“The Father loves the Son, and he gave everything into his hands.”* And in 36 he says, *“He that believes in the Son has everlasting life.”* Then for the world, if they had not received the Knowledge, “to believe” was enough, which is also good for today’s people who have not received the Knowledge, but today the “believe” has been replaced by the Knowledge of our Master with “I know”, something that is much stronger than believe. This is what I wish you, from “I believe” to go to “I know”.

### ***The Weapons of our Consciousness are Incredibly more Powerful***

---

In a five-day event in Brighton that I was honored to go, he touched me very deeply when he told us that the weapons of our Consciousness are incredibly more powerful than the laser and X-ray weapons that humans have found. In the Gospel in the Letter to Corinthians B Chapter I’ and verse 4 it says, *“For the weapons of our warfare are not carnal, but mighty with God to cast down fortifications.”* And in verse 5 it says, *“For we cast out thoughts, and every elevation that stands against the KNOWLEDGE OF GOD, and we captivate every meaning in the obedience of Christ!”*

Years later I realized empirically that all the words of our Master are so, so absolute and the unbelievable for me is that he allows me to experience them internally and simply I fly every day in my inner Freedom and Joy!

## ***A letter from our Master***

---

A letter from our Master which he wrote of course to all of us was given to me by a Knowledge-mate on my return from an event in Italy on the bus. As soon as I started reading it with great interest the thoughts of my mind whispered to me, “it is impossible, it is a fantasy” and in the following lines I read the thoughts of my soul whispered to me, “what if what you are reading is real and it is that what you expect?” Of course I was won over by the words of our Master because below he wrote to us things that completely touched the deepest being of mine and confirmed the intuition of my heart that he is our Lord! All his words, he allowed me after years of apprenticeship to experience them, and they push me to make you happy since it can happen for each one of us. Especially these words had nailed me down and my eyes could not believe it, “Neither birth nor death can affect my relationship with you” and it was confirmed greatly since today I have been a student of his for 45 years.

Although we were born very far from each other due to technology and as a pilot it made it possible! We could never have met in 7 billion people without technology if he had not become a pilot to reach each one of us. Even this is the Supreme of the Supreme Miracles, to have written it to us as a young child without knowing him and as his students now to Experience it! Unbelievable beyond imagination but our Master made it True! He inspired me to penetrate with the thought of my heart into an indisputable event which I was not conscious of while weaving in my mother's womb, but now being conscious I can realize that I was woven by the Indiscernible Divine Energy like all of us and it weaves us to the end of our carnal Life! And so, being born, my relationship was not affected in the slightest. Since it was not affected as he

said at my birth and it was done, so it cannot be affected at my death because death is the absence of Life just as darkness is the absence of Light!

When our Breath leaves our body our soul is with it because we are already united in our present incarnation with the Mother of Life! How will Mother Life leave her creation when the Divine Breath leaves? (Life) from the body? There is no death in Life or in the soul as invisible beings, and because of its absence from our body there is death — as a destroyer of matter.

He let me realize that I will incarnate with each successive incarnation of our Master to serve him, as long as he had told us so. I remember when he was 18 years old he had said in a telephone speech worldwide to his students —there were no videos then— that whoever dedicates mind, soul and body then he can have the Grace of his Master! According to MARK Gospel Chapter IB' and verse 30, *"And you will love the Lord your God with all your heart, and with all your soul, and with your entire mind, and with all your strength, this is the first commandment."* According to PETER, Chapter B' and verse 18, *"Increase in Grace and in the Knowledge of our Lord and Savior Jesus Christ."* And at another time he stated that *"the devoted student receives an Eternal Inseparable Union"*! According to JOHN A, Chapter B' and verse 25, *"And this is the promise which he promised to us, the Eternal Life."* And I am a witness, I repeat, that all the words of our Master are absolute because I experience them completely!

And in one of his events he also said globally that his devoted souls are constantly in his events and do not need a seat number —and this is my realization— to give the opportunity to incarnate souls like us to recognize him in the events! According to JOHN Chapter I' and verse 28, *"And I give unto*

*them eternal life, and they will not perish forever, and no man will take them from my hand."*

### ***Heirs of Divine Eternity and not heirs of death***

---

I feel from the bottom of my heart to express to you this Supreme Experience which allowed me to realize that we are "Heirs of Divine Eternity" and not "heirs of death." In the Revelation of JOHN Chapter KA' and verse 7 says, *"And the winner shall inherit all things; and I will be his God, and he shall be my Son."* When Sri Hans, the Father of our current Master, died and left as his successor his youngest 8-year-old Son Prem Rawat all of Sri Hans' older students became students of our 8-year-old Master Prem Rawat. The children of Sri Hans's students who were young also became students of Prem Rawat. So that parents and children were found to be students of the Successor our Today Master. Then when the parents of the students of Prem Rawat passed away, as Sri Hans left his Son Prem Rawat as Successor-Master to receive his disciples so that they would not be orphaned, as our Christ had said in JOHN Chapter ID' and verse 18 *"I do not want to leave you orphans, I come to you"*, so our current Master Prem Rawat when he leaves he will leave his successor so that his current new students will become students of his successor directly because of their parents that we are already students of our True Living Master! And so from their birth the students of their True Master will never be lost by their respective Successor-Master! This is the "Eternal Inseparable Union" which our Master had declared when he was young to his devoted students! According to evangelist JOHN Chapter IC' and verse 13 *"You call me, the Master and the Lord and it is well said, for I am."*

## ***My Supreme Property (Essence) is our Master***

---

For me, my “Supreme Property (Essence)” is our Master! Above and beyond Life itself because He revealed it to me and gave me the practical way to enjoy and fulfill every Blessed Day! According to JOHN Chapter ID’ *“Jesus says to him, I am the Way and the Truth and Life. No one comes to the Father except through me.”*

Without Him my Life was an ungifted gift since I could not enjoy and appreciate it wasting it in the garbage of this world of misery. According to the evangelist JOHN Chapter ID’ and verse 16 *“And I will beg the Father, and he will give you another Comforter, to stay with you forever.”* According to JOHN Chapter ID’ and verse 26 *“The Comforter the Holy Ghost, whom the Father will send in my name, will teach you everything, and he will remind you all I have spoken unto you.”* The sequence I mention above. This is completely established by my current relationship with the letter of our Master that I received 40 years ago that he wrote to us. Neither birth nor death can affect my relationship with him, and this is an absolute fact and not a fantasy!

According to JOHN Chapter C’ and verse 16 *“For God loved the world so much that he gave his only begotten Son, so that whosoever believeth in him should not perish, but have everlasting life.”* What is your doubt, my dear friends? Can't the Indiscernible Divine Energy that created me recreate me? How could it create me? Who can stop it? For me, there is no more solid proof because I experience all the Blessed words of our Master and our Christ and I do not need confirmation from anyone, as if we have an exam and wait for the reward from the Rector to give us their university degree. It is like a “material property” which is passed on to the alternate de-

scendants of the same family except that This is Eternal and not subject to the wear and tear of time!

He let me realize that just as this Divine Superpower wove me in my mother's womb, He will again weave me into His Pious Disciples to serve each of my Successor Masters! Because it is not possible for all humanity to change at the same time; there are no automatic buttons. The today's devotees of his who will incarnate with him who will be the each time successor, we will continue our apprenticeship and work from where we were before we retire from this body—as one withdraws his old car and continues with a new—to inspire humanity to elevate. In one of his speeches he told us: “The outside traveling will one day stop. Know the universe within you to travel forever.” We will not seek to find the True Master wandering as we were before our Lord found us in this Incredible Time and Age!

In this way the dark ones, unfortunately for them, perpetuate their most hated world dark work. They educate their children and the children of their children in the universities of the “elite” and put them in all the key positions of every state circuit and with their pseudo-leaders and journalists perpetuate the divisions with their ill political parties with artificial poverty, organized chaos, alcohol, prostitution, gambling, drugs, crime and wars.

Fortunately today, our Master has come to eliminate darkness as the sun eliminates it with its coming! And in order to participate in the Supreme Joy in this incredible change of the Magnificent Age, it presupposes that we also become workers of his Fascinating Work starting first to work with the Divine Knowledge of ourselves which provides us with the practical way! That is why he invites us all on Earth to participate in achieving Peace and eradicating the misery of humanity!

## ***Separation of Infinite with the finite***

---

My dear friends try to understand the separation of Infinite with the finite. The Supreme Inner learning of Our Self-Knowledge has no limits; it is Eternal! It is completely personal and silent —dumb— because it is done with the inner indiscernible transceiver, our soul, which is taught and guided by the Eternal —the Divine— the Timeless! It does not need notebooks, books, penholders, exams, degrees and postgraduate studies like the external learning for external knowledge which has an end because it is taken by the mortal mind that is limited by death and it is recycled, no one knows in what kind.

Unfortunately, as soon as we enter this world, kindergartens are set up for us and even in universities they teach us things only for our minds and bodies for production units, exploiters and robots. These are the structures of this world from the depths of centuries and the tragic darkness is perpetuated increasing more and more. And fortunately, the Divine Superpower sends us Saviors to get to know our Immortal soul through the Divine Knowledge of ourselves so as to stop our personal tragedy whoever wants it. Whoever does not, it is his choice to recycle the ingredients from where we came from because we were indifferent to the Supreme Invitation and Opportunity to know our Creator and the purpose that he gave birth to us as humans! I am not writing these to scare you or to applaud me, nor am I seeking degrees in this world, but to urge you because each one of us can experience it if we invest with thirst and sincerity in the Divine Knowledge of ourselves!

## ***The Age of Peace and Light is becoming more and more established***

---

I feel that things are boiling and that incredible developments of destruction and at the same time Creation will

overflow in humanity! Gradually the range of Light increases and darkness will disappear more and more for the consolidation of Light and Peace! That is why I am writing my story to you today, because I will not have time to write later because I will be in the practical service of the Divine Work of our Beloved Master all the time! According to MARK Gospel Chapter IC' and verse 20 *"And if the Lord did not shorten those days, no flesh would be saved."* But for the elected, whom he chose he abbreviated the days. Don't you feel that today we have the absolute exaltation of the writings of the disciples of our Christ?

TO CORINTHIANS LETTER A' 6: 9-10 *"Or do you not know that unrighteous people will have no place in the kingdom of God? Do not be deceived; in the kingdom of God there will be no prostitutes, no idolaters, no adulterers, no womanish, no sodomite, no greedy, no thieves, no drunkards, no revilers, nor plunderers."* Because unfortunately all of them are so attached to the pleasures of the flesh that they do not give any time for their transformation, and so they lose the Supreme Opportunity to turn within them to know the Kingdom of our God!

Purification and transformation are necessary to approach the Divine! How can you be in the company of purebred children with such qualities? Isn't it a shame to infect them with these diseases of ours? Our Creator does not drive us away but he gives us the opportunity with the Knowledge of ourselves to become children again!

***We would kill each other  
if the Living Masters of Every Era did not come***

---

I wonder now that I have withdrawn from any discussions without substance, why not just talk about our Master, our Creator and his Magnificent Creation which has created for

us, who sustains us and transforms us, to be filled with Divine Gratitude and to evolve collectively inspiring each other and realizing that we are all creatures, without any exception, we are creatures of our One Creator! Why steal, rape and kill each other? I believe that no kind of creation from the innumerable forms of Life experiences what we experience as the crown of Creation, and we would exterminate each other to extinction if the Living Masters of each time did not come.

Let us learn from our Mother Nature which has created the flocks of birds which fly and dance in the incredible joy of their Freedom playing around to inspire and charm us for the Highest Divine Gift of Life which has been offered to us and to admire our deep blue sky because our eyes were so attached to the ground in our dead games! If you do not find your True Inner Source of Supreme Joy and Serenity, you will be constantly chasing the countless substitutes of this world's garbage dump and you will go mad like so many.

Man who will not recognize in himself his Creator, how will he know the purpose of his Life since he has come as different from the blessed animals and has consciousness as the crown of Creation?

The Supreme Blessing is to be constantly Grateful and Focused on our Divine Breath which allows us to live, and for everything that is offered to us every new Blessed Day!

### **The Age of the Indiscernible Highest Technology has come**

The time has come for the “Indiscernible Highest Technology” which is beyond any imagination of human technology. If we invest in the “Divine Knowledge of Ourselves” those of us who desire an incredibly beautiful world, we will be able to experience it first inside us and then we will manifest it outside us. We will be able to be trained with the Bright Thoughts

of our Heart, to eliminate the dark and demonized thoughts first inside us and at the same time outside us just as Light eliminates darkness.

Let us not forget that we are surrounded inside and outside by our Mother Life that pulsates every moment in our Divine Breath — The Indiscernible Divine Energy which is “Omni-present and Everything Fulfills” written by the Divine Experience that had been given to his disciples in the time of our Christ! And today as human beings, as they then invested in their True Master and Lord, so can we experience THESE DIVINE WORDS spoken then, if we invest in our True Master and Lord of this age! Ordinary people then, ordinary people today as well. People today simply count themselves and others with their false fortunes and frame-degrees seeking recognition from each other. When you are recognized as a disciple by the True Living Master and you recognize him too, only then the tragic hedonistic pursuit of recognition from the world of ignorance —darkness— ceases.

We all know that our Christ at that time did not pay attention to the education of the outside world and to the heads of religions but he chose the simplest ones without competitions and degrees and revealed to them His Divinity! He allowed them to become bearers of the Noblest Message of his Divine Teaching and his Divine Presence! This is exactly how it is today, just in another era. As they were in previous times for me, our pre-Christ Socrates, Buddha, Krishna and other Enlightened Masters!

### **Our True Living Master perpetuates the Supreme Message**

Let me tell you, because you may not have read this verse in the Bible, LUKE Chapter 11 verse 52 *“Woe to you lawyers for you have taken away the key of Knowledge: you did not en-*

*ter in, and you prevented those who came in.*” As you can see, the teaching of our Christ was not just a theory but it gave the key to Knowledge so that those who invested could be set free. With his words he perpetuated the Noble Message of our Socrates “Know Thyself”! This is exactly what is happening in our time. Our True Living Master perpetuates the Supreme Message offering the key of our Salutory Self-Knowledge! The same thing is happening today, some accept his message some do not some sneer it and some fight it. Why is there a doubt? People with Living Masters in the past, for those who recognized them it was their Incredible Present Inner Golden Age. And for us today, people with a Living Master, it is our Incredible Present Inner Golden Age that we are living NOW with him!

If those who copied the scriptures many years ago had deliberately or incomprehensibly removed the important and obvious verse about the key to the Knowledge mentioned by our Christ, how would I validate what I am writing to you? To what does our Christ refer in the verse according to MATTHEW Chapter 5’ and verse 6? *“But when you pray you enter into your treasury and close your door, pray to your Father who is in secret and your Father who sees in secret, he will return to you in the obvious.”* With the practice of Self-Knowledge we close the outer door of the world and we come in secret contact within ourselves with our God! And “Love your neighbor as yourself.” The Knowledge of Ourselves reveals to us the Divine Love of God and after we begin to love Him we love everyone like Him! According to MATTHEW Chapter 10’ and verse 27 *“And no one knows the Son except the Father and no one knows the Father except the Son and to whomever the Son wants to reveal Him!”* What do we recognize the good or the rotten tree from? From the fruits it offers us! According to MATTHEW 6: 18 *“a healthy tree cannot bring forth rotten fruit,*

*neither can a rotten tree bring forth healthy fruit.*” Only in this way can we recognize the True Master, from the fruits of his Today Fascinating Universal Human Work!

The words of our Master are the food for the fulfillment and inner evolution of my soul.

According to MATTHEW Chapter D’ and verse 4, *“Man will not live only with bread but with every word that comes out through the mouth of God!”*

What else could Socrates have been, other than the True Representative of God urging humanity with its Noble Timeless Message to Know God within us!

What else could our Christ have been, other than the True Representative of God, who offered the key of Knowledge and declared According to LUKE 16:20, *“the Kingdom of God is within you”!*

And what else can our Today Living Master be, other than the True Representative of God, who has begun his Universal Human Work locally in his country since he was a 9-year-old child and from the age of 13 constantly travels around our planet for 50 years until now, to offer to those who desire the Knowledge of Ourselves which is our Indiscernible Eternal Inner Treasury! In the LETTER TO THE COLOSSES Chapter B’ and verse 2, *“To comfort their hearts, united together in love and in all the richness of the information of prudence, so that we may know the mystery of God and Father and of Christ!”* In verse 3 it continues, *“In which are hidden all the treasures of wisdom and knowledge.”*

### ***The literal meaning of the word relative***

---

We are all related to the Supreme Divine Energy which has woven us into the womb of our Biological Mother and always

accompanies us until our last Breath! Consequently, we are all brothers!

However, due to ignorance of this indisputable fundamental Truth, the cunning manipulators from the depths of centuries have mediated and divided us since we were children in schools with the rank of superior and inferior in sports teams, in sects, in religions, in parties, in homelands and they have turned us with competition and sick fanaticism from brothers to fierce enemies. With this criminal trick of the divisions that they have incorporated in us as children, they perpetuate in every Blessed generation the organized chaos and darkness on the unfortunate peoples. Once we realize that, is it time to wake up; to turn our inner wheel discarding our mutated configuration? I hope that we will make an inner turn to discover our Divine Nature through the Divine Knowledge of Ourselves in order to be liberated!

***Divine learning is offered every moment  
in the form of the Indiscernible Breath!***

---

So that even if you cannot see your Master live, the contact takes place with his Divine Gift of Knowledge! Whatever realizations the practice of Knowledge offers you, when you hear the Master's speeches he confirms them. This is an unshakable confirmation that our heart is in touch with the frequency of our Master's heart wherever he is; just as wireless communicates with electromagnetic waves that must have the same frequency. How grateful I am to you for showing me to be a part of your Divine Magic wherever I am. My indiscernible attention is focused on my invisible soul in my Divine Breath! When this Supreme Union happens my heart dances to the rhythm of Bliss for its Eternity with our Beloved Mother Life (our God) who has no gender!

### ***The inner development of the devoted student***

---

The inner development of the devoted student is achieved if he obeys the recommendations of his Master who says, “Daily Renewal Commitment to Ensure the Victory of our Soul!” My answer internally to my Beloved Master I am writing to you, because how will you know my inner conversation if I do not write it to you? How indescribably I thank you that you have honored me to experience the Divine Words of our Socrates: “Sovereignty of mind and body and de-identification of soul from matter.” And the Divine Words of our Aristotle: “The Victory over our passions constitutes our first and most essential Victory!” And the Divine Words of our Christ: “Do not do what you do not want to be done to you!”

I could not even approach the meaning of these not even by imagination and yet, our Master has accomplished for me the unfulfilled with his Divine Grace! Experiencing the absolute statement of our Christ: According to LUKE Chapter IH’ verse 27, *“He said, The impossible for man is possible for God!”*

### ***We have 3 Homes 3 Mothers 3 Fathers and we are innumerable brothers and sisters***

---

Eventually, I realized with the Supreme Knowledge that we all have 3 homes: One is our Magnificent and Blessed Planet Earth which is the Magnificent home of all creatures! Our second small home that we build and are all housed separately like a large department store space which houses everyone's shop. The third portable home is our body —as the turtle carries its shell— which is, by the way, our True home! Why is it our True Home? The reason is because the Eternal Truth resides in our hearts for as long as we have this body. And when our Divine Breath leaves for the last time It exists as Eternal

but our perishable body goes where we came from, dust to dust! When we recognize our Mother Life now that we live and are worthy of Her, only then does she inform us that she will give birth to us again as she wove us again in our Mother's womb. It is in her design and not in our design.

3 Mothers: Our first Mother is Life: the Indiscernible Divine Energy that has woven us-given birth to us in the womb of our biological mother without any intervention at all in her womb. The second is our Mother Nature —our Beloved Mother Life— manifested in matter which sustains us all and everything with its Beautiful Innumerable Goods for centuries and centuries. And with Unparalleled Generosity with inconceivable varied foods with the nutrients of her Divine Love in order all her living Blessed Creatures to live happily! And the third is our biological mother who gave birth to us as her Divine mediator!

3 Fathers: Our First Father is God (The Divine Energy that is Omnipresent) (our Breath) because it has no gender; the gender came after GOD. Our Second Father is our True Master who reveals to us our Mother Life within us with his Divine Knowledge, and the third is our biological father who our Mother Life uses as her mediator for the perpetuation of our species. And we are innumerable brothers and sisters but we have not realized it because we live unconsciously. And how will we realize it if we have no contact with our Sweetest Consciousness as an Inner Master? We are all innumerable brothers and sisters because simply we are all of the Same Divine Substance that we all have within us and share the Same Breath and the exact same conservative elements of our Mother Nature, the Sun, the Air, the Earth and the Water. And also, all and everything are made up of 6 elements: Nitrogen, Carbon, Calcium, Oxygen, Hydrogen and Phosphorus.

Aren't these indisputable proofs enough? When will we wake up? Now is the time to make a difference. Awakening and Consciousness are needed so as to send away ignorance-darkness with the Knowledge (Divine Light). We have to become conscious in order to activate the buried and wonderful qualities of our heart: Recognition, Understanding, Appreciation, Respect, Clarity and Admiration to fill the cup of our heart with Divine Peace, Divine Love and Divine Gratitude because without these Inner Miracles we are empty like the tin without oil.

### ***The destructive weapons of the mind and the Salutary weapons of our heart***

---

My dear friends, finally, the Divine Knowledge of the Self teaches us how to discard the garbage that our predecessors have given us and ours that we have created as an extension of them. The weapons they have made for our minds are simply destructive and that is why we perpetuate our mutual destruction. And with the weapons that are creative and are revealed to us by the Knowledge of our Self and are innate in our heart, if we want we can replace them so as not to destroy ourselves and as a consequence those around us. Consequently, there is a reversal for individual and collective creation stopping our individual and collective destruction which we also experience from our sufferings. In the Bible to the ROMANS LETTER Chapter ID' and verse 12 it says, *"The night has passed and the day is approaching so let us reject the works of darkness, and let us put on the weapons of Light."* This simple process is the Supreme Learning of Knowledge which removes the darkness of ignorance, not something complicated that our minds think.

Let us try to understand the weapons of our mind that are our destruction. Naturally, whatever you hold in your hand, you will give to your fellow man. You hold cigarettes, you will give cigarettes. You hold drugs, you will give drugs. You hold alcohol, you will give alcohol. You have a surplus of ignorance, ignorance you will give. You have a surplus of hate, hate you will give. You have a surplus of exploitation, exploitation you will give. You have a surplus of cheating, cheating you will give. You have a surplus of crime, crime you will give. Thus, whatever destructive you carry inside and outside of you, you will transmit destructive behavior first to yourself and consequently to those around you.

And the weapons of our heart which are our Salvation: You hold food, you will give food. You hold fruit, you will give fruit. You hold flowers, you will give flowers. You have a surplus of Knowledge of the Self, Knowledge you will give. You have a surplus of Love, Love you will give. You have a surplus of service, you will provide service. You have surplus of authenticity, you will give authenticity. You have a surplus of cure, you will give cure. Therefore, whatever Salutory you carry within you and outside you, you will transmit Salutory behavior first to yourself and consequently to those around you.

Just as our Divine Breath is so absolutely necessary which offers us Life and sustains us all and everything, so is the Divine Knowledge of Ourselves necessary because it offers us the Absolute Harmony of Soul, Mind and Body and we are Super Fulfilled!

Without our Self-Knowledge it is as if we are hungry and have no food to eat resulting in a very bad condition. And our soul is also hungry from lack of Fulfillment resulting in schizophrenia of the mind which prevails today in all of humanity, of course for those who do not deal with the Salutory Knowledge of Ourselves! It is an inner natural law. An unfulfilled person cannot

function properly. And an indisputable proof to this day is the Global Chaos and Perpetuation of Babel.

The saying “one evil and myriads of evil are coming” is the “ignorance of Ourselves” since we have established the deep darkness for centuries. And the saying “one good myriads of good are coming” is the “Knowledge of Ourselves!” When one by one begins to realize it, his inner evolution has begun too! So that the more we realize it, the faster we will achieve the consolidation of a Global Healthy Society — “Peace, Dignity and Prosperity!”

### ***Two unbelievable events correlated at different times***

---

I distinguish two events: the one event that I experienced in the first meeting with the students of our Master in the cinema with the movie “the exorcist-therapist” and the other event that I am expecting: the “Therapist's Super-weapon” with the Grace of our Master to experience it, after encouragement and inspiration from his Divine Words! I say to myself, my God, what an incredible circumstance that the two most important events of the Magnificent story that our Beloved Master wove for me are absolutely correlated! My beginning with the movie I went to see of “the exorcist-therapist” to lead me to my inner development 45 years in the same title as “student-therapist” in the Supreme Divine Work of our Lord!

The Divine Gift and Super-weapon of the healer, I take it as the beginning of the breaking down of the impenetrable door of the “temple of the devil.” Just like my own beginning of tearing down my old self to pick up the Healer's Super-weapon to tear down the giant door of “dragons of doubt and outdated perceptions.” To support the achievement of the cures, another “Indiscernible and Automatic Lighting Super-

weapon” is offered, the “disappearance of dark and demonized thoughts.” Because they will seek to distort and imitate the Divine facts of healing in order to keep their established deep darkness, where the actors of this dark work of deceiving peoples have been innumerable for centuries.

### ***The Destruction of Destroyers***

---

A very special message for the advanced and Absolutely Dedicated for the Good of Humanity!

Humanity, unfortunately, is possessed and guided from the depths of centuries by complex, crazy, and rotten circuits with covers of the “rulers” and their syndicates who suffer unimaginably within them. And this complexity, the madness and their inner pain, they spread to the people and infect them as well, as a result of which the complexity, madness and crime multiplies by leaps and bounds.

Whatever you feel inside you will manifest outside of you. Therefore, since they feel this tragic situation inside them, having power over the unfortunate peoples, they want to make them suffer worse than them. Like many like Hitler who were sick in their minds of their internal division and war, they were planning in their minds how to kill as many as they could. They channeled criminal fanaticism from the schools to the young children as if it was for their love of their homeland and managed to commit global disabilities and murders of millions of our fellow human beings. They continue getting up to these until today in various countries on our planet with civil, religious and national wars. I feel that we must stop these criminal global calamities and I hope today with the Divine Presence of our Beloved Master that he will help us by participating to make a difference to stop them, so that they

do not commit the same paranoid crimes in the blessed ones to come our generations that are not guilty for anything.

The time has come for the destroyers of our fellow human beings to be destroyed by those whom we do not want to be destroyed. Within us we have the Secret, Practical, Invisible, luminous and Automatic Super-weapon just as our Divine Breath is Automatic. We invoke with the electromagnetic waves of the inner invisible silent words of our hearts, “the disappearance of the dark and demon-possessed thoughts of the destroyers” for the expansion and consolidation of the Salutory Most-All-Human Divine Work of our True Living Master Prem Rawat.

He has finally brought us the unbelievable age when the dark will no longer be able to kill those who will shout the Truth and Peace! Therefore, their death will be caused—from their exhalation that will not return— as their Exhalation from God Himself that is the Divine Breath of us all because they are destructive for the humanity. Do not forget that the “Omnipresent” is our Divine Breath! This is from the mouth of our Master and it is my offered realization. “To always remember that only our Divine Breath keeps death at bay.” As soon as the Breath is gone, it gives him the right to come; as long as it is in us it never allows him because death is absence and not presence.

### ***The True Master (God's Representative) with his Luminous Powers***

---

The True Master has come as the Representative of our God with his Luminous Powers to consolidate his Divine Peace in his home = Planet and the war for the disappearance of the dark forces-criminals against humanity who hinder the Divine Plan for the Good of humanity will intensify! Mini-

mize now on an individual level so as to chase away your imagination that my reference is a fantasy.

When an insane criminal constantly kills people for his sexual or financial desires, what does justice do? Doesn't it send authorized police officers to catch him to stop him? Do they not put him to jail for life or even to death penalty, since he would continue to kill his fellow human beings? Would they keep letting him kill? Is not the intervention of the state necessary? How does this differ on a large scale from many rulers-criminals against the peoples? Should not Divine Justice intervene to protect the rest of the world?

So, my words are not fantasy but it is a very necessary fact to stop the destroyers and any victims, because our Mother Life who constantly gives birth to her new blessed creatures does not give birth to them to be killed by insane misanthropes. Otherwise, if it were not for this version of the destruction of the destroyers, they would have wiped out Life itself! There would then be no hope for the salvation of the human race. But our Mother Life (Creator of everything) possesses all three qualities: Creator, Conservator and Destroyer. She manifests it to us every moment with our Mother Nature with her silent teaching that is her True representative together with our True Master with his verbal teaching.

### ***The relentless regression for my Salutary Metamorphosis***

Our Beloved Master has given me a practical way which he calls KNOWLEDGE to come in contact with the Divine Core of my Existence. Since then I entered the process of my transformation with a relentless regression of who would win me over; our God or the devil. Of course I had the Strongest Innate Gift and Weapon from our Creator like all of us: My CHOICE. To whom would I hand over my destiny, and be-

cause I had great adoration for our Christ from some of his quotes that had touched my soul, one of the most important “Do not do what you do not want to be done to you” I chose our Christ! And with His Supreme Grace he accepted me as his Prodigal Son!

I experienced this most Supreme Parable of all in my first meeting I had with him. That is why I know that he is our Lord, who most people in the Universe are waiting for! If we do not discover the Creator of our house-body, we will not feel well inside. Not even in our built house. Not even at home-our planet and our Life without Pleasure and Gratitude will be empty, a constant tragedy.

This is the reason why it is our primary basic need to know the Host of our home-body, because our hearts will be filled with Divine Gratitude and the tragedy will disappear from within us. This is why I recommend to you the Supreme Donor of the Supreme Gift, the Liberating Knowledge of Ourselves, which eliminates ignorance as the Brilliant Sun eliminates all kinds of darkness.

### ***Omnipresent and Everything Fulfills***

---

I have recorded in the palette of my heart his Words and experiences offered by our Master who emphasized to us! Without the Master we are too fragile. Together with the Master we become very strong, too much strong! But where is our Master, and how will we be each one alone and at the same time all together with him all the time? It is like our Divine Breath which is separate to each one of us and at the same time to all of us and offers us the Divine Gift of Life! His Divine Teaching takes place in the form of our Divine Breath when we are not physically with him! Even this is INEXPLICABLE FOR THE MINDS, THE SUPREME MIRACLE OF MIR-

ACLES! Let us not forget the saying “Omnipresent and Everything Fulfills!” This is inconceivable to our limited minds, it is beyond our senses. Only to the devoted hearts these Supreme Experiences of the Eternal are offered! I do not mention it selfishly but to encourage research and learning.

All the external knowledge of the innumerable teachers of this world is competitive and revising for their own earning a living.

The Knowledge of Ourselves offered by the few PERFECT MASTERS of different eras is for everyone without competition and revisions in order to experience the ETERNAL WITHIN US!

That is why it is called  
THE QUEEN OF ALL KNOWLEDGE!

### ***If the Current True Representative of God had not come***

---

I wonder if the True Representative of God on our Planet had not come to reveal to us the Life within us and to enable us to be transformed we would be living in darkness without any meaning like the blessed animals. So, really, is there a Supreme Purpose for which he did not create us as animals but humans? This secret is revealed to us by our True Master within us in order to recognize, if we want, our Creator and our highest purpose! Imagine, in 7 billion people with millions of “teachers” to find the One True Master (representative of God)! My God, what an Unbelievable Supreme Privilege! Today you can experience it if you search with honesty and thirst. Do it, seize the Rare Highest Opportunity!

### ***The big fights with my wife***

---

When I started practicing in Knowledge after my four-year abstinence in order to get acquainted with the Divine which

our Master showed us in a practical way how to get in touch within us, the great fights with my wife began. These fights, at least, were much more important than the ones we had during my prodigal life before our Master found me!

Feeling more and more my inner fullness, as a natural consequence I gradually reject the substitutes of any form in which humanity is trapped. Rightly so, my wife thought I would become like a monk or a plant and she reacted with a lot of anger which drove me out of Myself. I was growing more and more in patience and understanding and this disturbed her even more until the big moment came after many quarrels and she made a psychological blackmail on me: me or your Master, knowing the unlimited love I have for my family she hoped I would give up.

But my answer was instantaneous choosing my Master and that crushed her, seeing that I did not give in to anything. She even reached such a blur that she took a large knife telling me that I will kill you. The fights increased with hysterical voices because she thought that our Master was motivating me and I did what he told me to do. Especially when we were at a banquet of relatives and friends I could not help but inform them that someone offered a practical way to get to know God within us to escape from the will, will, will, will of priests and preachers. There were times when I couldn't stand it and I broke up 3-4 times but after about two months I came back because I knew that my whole family suffered as well as me, hoping for our best communication.

What I write has been going on for 45 years. It may not concern someone but it can benefit someone when he comes to my shoes so that he can be inspired and not to compromise and be deprived which is above all. And what is it above all? Our Indiscernible Mother Life (God) (Breath) since without Life we would not exist nor would we have a family. Now I

have learned to maneuver so as not to be upset and we have found some harmony. Our wife seeing our two children who have received Knowledge and the third who has not yet received it that they fully respect our Master, and thus her anger has somewhat calmed down!

I know that her heart recognizes the right thing that I do but her mind possesses her and it does not allow her to see clearly to accept it because it is the selfishness that she will be ashamed of her surroundings that her conflict was wrong. Otherwise, as a wife, as a Mother, as a Grandmother, as a human being, I thank our Creator very much for the additional Divine Gift he offered me in my Life.

### ***I become a witness***

---

53 years ago while I was reading the Bible I put marks by folding the edges of the pages which had touched me. And who could have imagined that now at the age of 73 I turned back to the Bible to write to you what had touched me in the army which I experience NOW with his Knowledge and Grace!

A Life of 73 years, I unfold it with my writing as a writer and on a day in the breaks of your study I show you a silent indiscernible work in your indiscernible heart. The story of a mortal visitor to our Incredibly Blessed Planet testifying to the Advent of our Lord who revealed to me the Eternity of the Generator, Conservator and Destroyer who transforms his Eternal creature into a mortal and again into Eternal! This is beyond, but beyond, the sweetest unimaginable fantasies like an INCREDIBLE MAGIC FAIRY TALE that charms children, and yet totally, absolutely TRUE!

I become a witness of our Master and of the Divine Eternity and I wholeheartedly wish you to pursue it, for all to expe-

rience This Most Magnificent and Salutory Divine Eternity within us! I shared with you the most important that has been offered to me with the Grace of our Beloved Master as far as realizations and experience are concerned. I hope some heart will be touched and this one will touch others and the others will touch other hearts so that we can return to the Divine Paradise within us. So that we can re-establish the outer Paradise on our Thousand times Blessed Planet Earth which hosts us with Indescribable Magic and Incredible Generosity!

This is the True Indestructible Timeless Legacy which our Lord offered me in this Life and in my turn I hand it over as a baton to my Beloved Family and to all our fellow human beings! No matter how much material inheritance I would leave, it belongs to the wear and tear of time—to delusion—and its definition is: they did not exist, they exist and they will not exist, like our body. While for incorruptible legacies, their definition is: they existed, they exist and they will exist! Let us take full advantage of the Incredible Visits of our Beloved Masters who come to lead us to their Divine Eternity; to the Divine Light of the Sweetest Divine Love and the Divine Peace of our Creator!

### ***The revelation of “the lost treasure”!***

---

The beginning of my Incredible Story with its successive battles, regressions, realizations and Supreme Experiences inevitably led me to ask for a hearing from our Beloved Master to ask him for the “Weapon” for which He encouraged me in one of his speeches. “You can ask me for any weapon you want.” and “There are no limits to Knowledge; everything is Possible.” and “Everything is possible; the Dream Exists.” and “Ask and you will find.” So, I have done this because of his

words, nothing less and nothing more and it looks like a fairy tale. The revelation of “the lost treasure!” by our Master!

***With indescribable pride***

***I answer from the bottom of my heart***

---

Now, with indescribable pride I answer from the bottom of my heart as if responding to the Divine Presence of our Beloved Socrates then! That I am indescribably grateful to You for preparing me with your Noble timeless message “Know Thyself” to recognize our Current Master with his Devine Knowledge who revealed God to me inside me so as to have contact whenever I want and fulfills me perfectly!

And to our Beloved Christ also from the bottom of my heart to his then Divine Presence! That I thank you indescribably for preparing me by saying that “The Kingdom of God is within you!” and I experience it every day through the Knowledge of our Beloved Master! In the LETTER TO TIMOTHY Chapter B’ and verse 4 it says, *“The one who wants all men to be saved and to come to the knowledge of the truth.”* And in verse 5 it says, *“Because it is one God, one mediator between God and men, the man Christ Jesus.”*

This is also true for our time: One mediator between God and men, the man Prem Rawat. In the LETTER A’ TO THE CORINTHIANS Chapter C’ and verse 16 it says, *“Do you not know that you are a temple of God, and that the Spirit of God dwells in you?”* the words of our Master and offered experience to me. The Holiest Temple of God is the kingdom of our hearts! Our body is the sheet of the soul and the door to our Salvation. How can I not testify about our Master as my former mates testified about our Socrates and our Christ? Since it is exactly the same Teaching of Divine Peace, Love and Enlightenment? And of course, with different bodies in different eras!

Do not be deceived by your mind, expect Supreme experiences from the practice of Knowledge because you will be disappointed and frustration is a very unpleasant feeling that can put you down. Only God who is within us knows when the right time will be to inspire us for further evolution. Do not forget that we are learners of the Highest Apprenticeship for Eternity and not for degrees of limited learning, all of which result in death. The student's progress depends on his true thirst for learning.

So, we are responsible for our own progress, not our Self-Knowledge! Let's put a DVD player in our homes to watch our Master's video to activate the buried transceiver of our heart-soul to discover our Mother Life within us and invest in the Supreme Apprenticeship of our Self-Knowledge!

### ***Another Supreme Gift***

---

This is another Supreme Gift as well and confirmation of guidance from our Beloved Master! In August I heard the silent words of my heart: "Write your story" and I obeyed starting immediately on the same day and towards the end of the book I called a Knowledge-mate if she can translate it into English to send it to our Master but she did not know how to do it well. And the other day, October 17, she sent me one of his latest videos, which was translated into Greek, and what title do you think it has? "Write your own story!"

Who can imagine now this Indescribable Joy and Divine Gratitude that my whole existence feels incessantly? What are these words you are reading now apart from the silent words of my heart which I transmit to you through writing to your hearts? What are the thoughts except for silent words which come from two different sources of inspiration of our heart and mind? Our mind inspires us for insignificant and de-

structive acts, e.g. frauds, crimes, make alcohol, drugs, guns, and kill each other. Our Sweet Heart always inspires us for important and creative actions, for our General Good! Therefore, let us seize today the Highest opportunity to receive the Salutary Knowledge of ourselves in order to eliminate the dark ignorance of our mind so as to Enlighten it with the Divine qualities of our heart!

I understand you that you read me and it is like a fantasy in your mind but the practical experience is indescribably different. It is one thing to see a cruise-ship in a photo and another to travel in it to different places as much as Life allows you!

### ***I visited some that make up the pyramid of darkness***

---

From the bottom of the pyramid I have informed the most “top considered by the world” journalists, actors, singers, composers, athletes, but I do not name them out of tact. And if they invested and wanted, our whole country would have known it many years ago. I hoped that if someone started the research and invested, they would inform the whole art scene and all the artists would inform all people, since they have been made their idols and they follow them, to suck a two-hour acquired joy of the mind from their songs and from their theaters. But unfortunately they invest in delusion, stuck in the pleasure of fame, vanity and false wealth, forgetting that their curtain will one day close. And at the top of the pyramid, I personally went to the “rulers of the world” to Tsipras and Mitsotakis and gave them the book I have written about the SOLUTION “How to get rid of the global financial mafia” and the video with the message of our Master as “Global Ambassador of Peace!” I also wrote a book “The time has come for us to feel Ambassadors of Peace” which is addressed especially to Mitsotakis as the current

“governor”, to all pseudo-governors and to the citizens, which I handed to him at the Prime Minister's General Secretariat in Maximou 5/6/2020.

I name them anyway, because I write and talk about them on YouTube as well, so that they stop making fun of the people and tyrannizing them with their whole syndicate. I understand that they have been nurtured by their predecessors, and the previous ones by their predecessors, and today they will nurture their children with the same ideas of deception and exploitation. Somewhere, however, this criminal work of these destructive actors must stop and I feel that their time has come. No matter how indifferent they are, now that they have received such a serious message, they are much more responsible for their hypocritical behavior and the misery of the people.

## REMINDER TO MY KNOWLEDGE-MATES

*I feel to remind you, first of all my Knowledge-mates, hoping to be inspired by the Supreme Event that is happening to us now. As much as we can, to remember more and more every new day that we are students of the most Honorable and most Respected Man on our Planet in the Present Age that we live in too. And only by touching with the Idea of the Heart that he allowed us to become his disciples and participate in his Magnificent Work which unfolds in the current history of the Most Glorious Age on our Planet, will we grow in Consciousness, Responsibility and Dignity. Because this is happening live for each one of us on a global scale for the first time; that our Master travels incessantly all over the Planet from the age of 13 for 50 years to approach every Human Being without exception.*

*So, I wish you to experience and realize deeply that we are the luckiest and most honored people since we are students of the Most Respected and Most Honorable Man on our Planet at this time. Then let future interested people be inspired by my writings or my recitation. What Privilege and What Unbelievable Luck awaits us.*

*I wholeheartedly wish the unceasing multiplication of the Super Lucky and the Privileged for your Supreme Success and Your Supreme Experience!*

### ***Our Master Has declared that we are the Luckiest People***

---

Our Master has stated that we are the luckiest people as we were born in this incredible time! Some have experienced it for years now as his students and some others who do not know him or do not accept him they do not experience it. Some experience the Blessing of the Supreme Gift of Life and some others do not experience it due to unconsciousness. Fortunately today, we are offered the Incredible Possibility, to all humanity, to become aware with the most Powerful Practical Gift: the CHOICE!

Two things happen to man: fact and imagination. The fact happens in the present, right now, whereas the imagination happens in the past and in the future. Imagination steals you from the present and distracts you from the future and the past and so you live unconsciously — a robot in conjecture and in individualism. While the Divine Present makes you clear, conscious and a servant of the General Good!

## MY PRAYER

*(After the request to my Lord to put his words  
in my heart to pray daily!)*

*My Lord, please, let you become the Inner Magnet of all my thoughts because only in Your Inner Divine Magnet of your divine Breath I do exist. Every thought that comes to take me out of Your Inner Divine Shelter of Your divine Breath, please, turn it into an inner bow of the deepest Love, Devotion, Gratitude and Respect expressing all the giving of my existence to your Divine Feet because I am yours! Let my every word convey to your souls Your divine Message and let my every deed express Your Pure Love!*

*Make me Eternally devoted to do whatever you want! May my attention and my thoughts become one with You and as Eternally devoted to you, may I always serve you! To exist first and foremost for my Sat Guru Maharaji, the Creator of Everything! Because when I first exist for my Sat Guru Maharaji, only then can I serve my fellow human beings! Because within all of us dwells the same Divine Essence which also dwells within our Sat Guru Maharaji! No mortal knows what True Service to Mankind is, except the True Living Masters of every different age who come to serve us, the elements of the Divine Nature and their devoted disciples, who allow us to follow them.*

*Oh! How deeply I thank you for everything, our Beloved Lord!*

*Now... "Peace on Earth and Prosperity in People", as stated by our Beloved Jesus Christ!*

*\* SAT = Truth, GOU = darkness, ROU = Light, MAHA = Supreme, RAJI = King. These are complex Sanskrit words, the True*

*Master who takes you out of the darkness of ignorance outside you and leads you to the Light of Knowledge inside you. And of course, we have countless self-titled “gurus” due to overcrowding in every corner of India who mislead humanity into blah, blah, blah, in little prayers and rosaries as in other religions.*

## THE ESSENTIAL DIFFERENCE

*The important difference with this book is that you do not just read a book to spend your time, nor to acquire literary or encyclopedic knowledge for your mind; I do not have degrees in this world. But, I inform you that we are in the most incredible era. We have the True Living Master with us and he offers the unimaginable possibility to every human being to be fulfilled by Peace, Love, Wisdom, Bliss, Freedom, and to overflow the cup of our heart with unceasing Gratitude for the Supreme Gift of his KNOWLEDGE which gives us the Highest opportunity to come in contact with GOD within us!*

*If you are touched by this True Message and want to participate, I consider that this is the most useful and wonderful GIFT for your acquaintances on their celebration or birthday instead of sweets or whiskey. You may offer them this book which they will have as their eternal companion in their home from generation to generation because it reminds us of the timeless quest for the fulfillment of man! One by one, let us make an effort to come together, to multiply, to share our Inner wealth of Divine Love and Wonderful Respect, to prepare an unimaginable new PATH with the most dignified traces for the blessed future generations! This I feel is the innermost obligation of every human heart. The inspiration for exaltation, worthy of OUR DIVINE NATURE!*

*I am not a person-lover since I am fully aware of the perishable matter, but I am a Proud Lover of the DIVINE HIGHEST TEACHING that is perpetuated by THE HOLY PERFECT MASTERS of every different era with different Bodies! Either from an ant, or from a man white, black, yellow, English, French, Portuguese I learn This Supreme Teaching; it is acceptable to me be-*

*cause it shows me in me the DIVINE LOVE, the DIVINE PEACE and the DIVINE FREEDOM!*

### ***He dignified me to write 8 books***

---

Our Master dignified me to write 8 Books on the most important events:

1. "The Ultimate Message — The testimony of a devoted student of Today's Living Master Prem Rawat",
2. "The Ultimate Message for the Noblest Undertaking" (for the Existence of the Coming of our Master),
3. "How to get rid of the global financial mafia",
4. "Our differences and similarities",
5. "The Visualizers of the General Good!",
6. "The time has come for us to experience Ambassadors of Peace",
7. "The ideal society"  
and the last one which you are reading now
8. "The Predetermined Unexpected Encounter".

They are not speculative books. All the proceeds of the books that he offered me with his Divine Grace to write are exclusively for the spreading of the MOST-HUMAN WORK of our Master!

## Epilogue

*J*n beautiful simplicity there is everything but due to ignorance we made it all so complicated and humanity suffers. It would be foolish and sad to mention volumes of the dark history of wars and atrocities. Let us make an effort of inner turn, towards the noblest advice of our Beloved Socrates “Know Thyself” so that we can now experience the Divine Magic and hope for an Incredibly Better World! Proof of what our Beloved Master says today let us turn our attention a little to the children and we will not doubt at all!

What I lived and live and I am writing to you now, everything happened in the present. So, let us invest in the Salutory Knowledge of Ourselves because only It can teach us to live in its Divine Presence because only in the Present there is Life (God)! Everything takes place in the Divine Present! The past is recorded in our memory from the Present in order to learn from our mistakes so that we do not repeat the same and worse mistakes, so that we can evolve. The Present also creates the future and when you are fully conscious every future moment is the result of your previous present conscious moment so that you live in a Blessed Paradise in the moment called NOW. And not in the paradise after your death, which the religions promise you with the will, will, will, like the politicians with the will, will, will. That is, if you do not know how to manage today in your inner and outer paradise, how will you manage tomorrow, since when it comes it will be like today? So, you will experience an inner hell—which is nothing compared to the hell described by religions— always waiting for a

better tomorrow that you will lose through your fingers like water.

I realized in the journey of my Life that the dark thoughts knew which shore I wanted to go to and tried in every way to push me to swim in their dirty waters—which have trapped billions of our fellow human beings— so that I would never reach my Creator who besides being Omnipresent fortunately he is in all of us! Our Master, however, with his Divine Grace saved me from all the battles that the negative had set for me and won my war. My Salvation was impossible because where I was it was like quicksand where absolutely none of us can be saved. But he came from God and invites us to know God within us and when we recognize him then and only then, will we understand our True Master, that he is the Only Representative of God in this glorious age!

Trying and constantly travelling around the world since he was a 13-year-old child for 50 years until today he changed the flow of the wheel of the darkest history of mankind to an Incredibly Brilliant History at first individually to each one of us and growing more and more it will be experienced by all humanity!

I feel like I have to stop writing because the momentary weaving of our story has no end and if I continue, of course my message will never reach those who are about to reach. As a result, today on 23/10 at 13:30 I finish the book with an additional Highest Experience which our Lord offered me in a whisper in my heart!

Since our Divine Breath allows me to function, therefore, It offers me everything, realizations and experiences which are so Respected that evoke Indescribable Awe of Gratitude and Indescribable Honor that allows me to experience what I write to you.

After the end of this book I try to be as much as I can in constant focus with unimaginable impatience and unimaginable patience for the request of the therapist that I have asked a hearing from our Master (our Lord)! In the LETTER TO THE THESSALONIANS A' Chapter E' and verse 17 it says, "*Pray unceasingly*"; in other words: continuous focus on the Knowledge of Our Self, Our Divine Breath!

Prem Rawat  
as a child

When he arrived in  
Los Angeles at the age of 13

Prem Rawat as a pilot with  
over 14,000 flight hours

Speaker at the United Nations on the  
60th anniversary of their founding

Invited to the European  
Parliament in 2011

In Athens below the  
Acropolis (Summer 2016)

The most destructive and perpetuating pandemic in humanity so far is the ignorance of our Self which drags us into the unconscious and the unconscious pushes us into mad-ness and crime. All other pandemics are nothing compared to the ignorance of our Self. This is the cause of the one side of the coin. The other side of the coin is “no evil unmingled with Good” left to us by our Enlightened Ancestors. It brings us back to the hope that there is in us the antidote to ignorance which is the Healing Knowledge of ourselves! Only It offers us the Fulfillment and Clarity in order to feel Peaceful and Pious like worthy creatures of our Creator. People nurture the child with a plastic pistol in his hand and when he grows up they give him the real one so as to kill, whereas God nurtures it as Incarnated Divine Purity.
